

**APPD Learning Technology Task Force
Winter Conference Call
12/7/04 Noon EST
Minutes**

Agenda

1. Discuss potential vendor presentations for APPD 2005 Spring Meeting
2. Describe format of APPD Web site listing of evaluations of LT tools and programs by PD's (LT Assessment Center)
3. Discuss potential role of LT TF in working with ACGME on improvements in ACGME Resident Case Log system
4. Discuss potential role of LT TF in working with ACGME in design of Continuity Patient Panel system
5. Discuss LT types of proposals for APPD Education Research Proposal RFP
6. Discuss meeting with education technology vendors re: development of software, programs, devices of interest to PD's

Discussion

1. Potential vendor presentations for APPD 2005 Spring Meeting were discussed. Members were encouraged to send any suggestions about vendors that should be approached to display at the Spring Meeting to John Mahan or Laura Degnon.
2. A brief discussion of the format of a APPD Web site listing of evaluations of LT tools and programs by PD's (LT Assessment Center). It was agreed that a proposed format will be developed by John Mahan and circulated to the group. Making a final recommendation to the APPD leadership on the format and process for such a place on the APPD Web site will be the major agenda item for the Spring Conference Call.
3. The benefit and a role of LT TF in working with ACGME on improvements in ACGME Resident Case Log system was discussed and defined. A sub-group of the LT TF would be asked to work with the ACGME on the ongoing improvements of the ACGME Resident Case Log system. John Mahan will contact Tom Richter at ACGME to facilitate this prospect.
4. It was agreed that pediatric PD's would be most useful to work with the ACGME in any design of an ACGME Continuity Patient Panel system before the system is completely developed. It is not certain what type of time table exists for design

and implementation of a Continuity Patient Panel system. A sub-group of the LT TF would be the logical mechanism and will be proposed to the ACGME for consideration.

5. Items 5 and 6 were not covered; item 6 will be discussed at the next conference call.

Participants: John D Mahan, Steve Wassner, Gary Williams, Francis Chan, Ernie Guzman, Laura Degnon
