APPD Research Awards Research QI Trainee

Dr. Debra Boyer, 2015 Program Chair
The Association of Pediatric Program Directors Research Award is awarded annually for outstanding educational research presented by an APPD member during the national APPD spring meeting. Winning candidates are selected based on the quality of work presented in the abstract.

Eligibility Criteria:
One of the authors must be a member of the APPD.

First-author abstract must be accepted for presentation at the APPD Spring Meeting to be considered.

The first-author must present the abstract at the APPD Spring Meeting unless there are extenuating circumstances.
“How Well Do Resident Milestone Self-Assessments Correlate with Clinical Competency Committee Milestone Assessments?”

Su-Ting Li, MD, MPH
The Association of Pediatric Program Directors Quality Improvement Award is awarded annually for an outstanding quality improvement project presented during the national APPD Spring Meeting. This award is designed to encourage trainees and APPD members to participate in QI within medical education. Winning candidates are selected based on the quality of work presented in the abstract.

Eligibility Criteria:
1. One of the authors must be a member of the APPD.
2. First-author abstract must be accepted for presentation at the APPD Spring Meeting to be considered.
3. The first-author must present the abstract at the APPD Spring Meeting unless there are extenuating circumstances.
APPD Quality Improvement Award

“Teaching Team Integration in the Recognition and Reporting of Patient Safety Events”

Alston Dunbar, III, MD, MBA
The Association of Pediatric Program Directors Trainee Research Award is awarded annually for outstanding educational research presented by a trainee (medical student, resident, chief resident or fellow) during the national APPD Spring Meeting. This award is designed to encourage pediatricians in training to pursue careers in medical education. Winning candidates are selected based on the quality of work presented in the abstract.

Eligibility Criteria:
Trainee (medical student, resident, chief resident or fellow) must submit and present the abstract prior to the completion of training (residency, chief residency, or fellowship). Work completed during training but submitted after training is completed will not qualify for this award.

The first-author must be identified as a trainee by checking the “first-author is trainee” box in the APPD abstract submission program.

The APPD Trainee Research Award online application must be completed.

The Research must be sponsored by an APPD member, as indicated in the submission process. The role of the trainee as a key member of the team who authors the research must be verified by the APPD member who is the sponsor.

The Abstract and supplemental materials (APPD Trainee Research Award application and Letter of Support) must be received by the APPD abstract submission deadline.

The trainee’s abstract must be accepted for presentation at the APPD Spring Meeting to be considered.

The trainee must present the abstract at the APPD Spring Meeting.

Council of Regional Chairs

Dr. Auxford Burks,
CoRC Chair
So what is CoRC?

We are the *Council of Regional Chairs*

We coordinate activities of the regions:
- Mid-Atlantic
- Southeast
- Mid-America
- Midwest
- Western
- Southwest
- New York – New Jersey
- New England

We help share successes (and failures) in order to learn from each other what works (and what doesn’t)
How can your region help you?

• Regional meetings serve as a forum to help you!
  – Don’t reinvent the wheel…learn strategies for common problems, such as curriculum development, evaluation tools, and remediation issues
  – Push the envelope…listen to new and innovative teaching methods
  – Share your pain…discuss common frustrations with your fellow program directors
  – Work together…participate in regional research to advance the art

• Regional Chairs are there to help you!
  – Feel free to contact them for help.
Recent activities of the Regions (2015)

• Annual/ biannual meetings (depends on region)
  – Several regions have meetings to discuss local issues, learn strategies from each other and share common frustrations

• Regional research projects
  – Several regional are working on collaborative projects to validate milestones, introduce new curriculum, and create new evaluation tools
  – Some regions have collected money to support local research with grants

• Best-practices resource
  – Regions are helping to create a database on best-practices, such as the one-year curriculum for retraining
So please, explore your regional resources!
Your educational research network!
APPD LEARN is...

• Educational research network focused on Pediatrics education (An AHRQ-registered PBRN)
• 130 participating programs
• Enterprise-quality data repository
• Longitudinal identifier codes for learners to permit studies over time and across projects
• Open to your program!
