Forum for Coordinators

"Conflict Resolution/Stress Management"

Dr. Helen Pratt, Michigan State University-Kalamazoo

The Residency Coordinators' unique position in medical education makes them a source of support and nurturing, not only for residents, but also for faculty and staff. Providing a wide range of support and administrative services to multiple individuals can cause significant stress. The ability to manage conflict, anticipate the needs of the program, analyze situations, and to give good counsel is often dependent on the coordinator's ability to handle stress and maintain a healthy mental attitude.

2:00 pm - 5:00 pm **Subspecialty RRC**

It is designed to assist subspecialty program directors to better understand the role of the RRC and to prepare for a successful RRC site visit. The workshop will also be useful for those initiating a new application for accreditation of a subspecialty training program. There will be time for questions and discussion regarding requirements specific to individual subspecialties, but the major focus will be on issues common to all subspecialties.

The tour travels from the State House to the Boston Common, the Old North Church to Newbury Street, and when it seems to be finished, "Splashdown!" as the Duck enters the Charles River for a breathtaking water side view of Boston.

The tour begins at 2:30 pm on Saturday, May 13, at the Prudential Center, Boylston Street side, just a short (1 block) walk from the Marriott Copley Hotel. The cost for this adventure by land and by sea costs \$20/adult, \$11/children aged 4 - 12, and children under 3 are free.
