Welcome to the 2019 APPD Fall Meeting

Welcome to the 23rd annual APPD Fall Meeting! We are so glad you are here. The program contains practical information about the nuts and bolts of GME leadership as well as interactive sessions on Diversity and Inclusion and Leadership - Building Your Team. The program also contains carefully thought out “wellness breaks” and opportunities for networking. Our goal is that you return home energized with new information and strategies, new connections with which to follow-up, new friends and, most importantly, reasonably rested and ready to implement enhancements to your program. This meeting is for you. We look forward to your participation and your feedback.

APPD LEAD is a nationally recognized program that provides a unique opportunity for pediatric academic leaders in medical education to engage and learn from seasoned program directors, pediatric educators, and other national leaders in pediatrics. The LEAD curriculum focuses on organizational leadership, competency-based curriculum development, faculty development, residency and fellowship program administration, scholarship and career development. The curriculum is paced over three educational conferences, with additional group activities, readings and project work expected between conferences.

APPD LEARN provides infrastructure for multicenter, collaborative research projects by and for Pediatric residency programs.

LEARN's mission is to conduct meaningful educational research that advances the training of future Pediatricians by developing and promoting participation and collaboration in research by program directors for the purpose of improving the health and well-being of children. Our vision is to advance exemplary pediatric education through collaborative educational research by Pediatric program directors. APPD LEARN pursues its mission through the following interconnected activities:

- Managing a collaborative research network of Pediatric Programs working together to conduct multi-site studies of educational methods and instruments
- Maintaining an online repository of educational research study materials, raw data, and findings for dissemination to APPD members and collaborators
- Promoting learning opportunities to enhance educational research participation and scholarship by Program Directors
- Providing expert consultation for research conducted within APPD LEARN
- Communicating regularly with the APPD membership and the larger medical education community about activities, opportunities, and outcomes
- Exploring, conducting, and coordinating research with other organizations and initiatives across a continuum of medical and non-medical education

1:00-3:30pm  Community-Building / Section-Specific Group Sessions with Lunch

Participants will work in section-specific groups to delve more deeply into specific topics of interest, using tools to maximize the structure and organization of their own programs.

**Associate Program Directors' Session <APD> Studio B**

Associate Program Directors will have the opportunity to network and discuss APD-specific faculty development needs, including navigating the APD role, balancing multiple roles, assisting struggling residents, project development, career advancement and more. After brief introductions, participants will partake in both large and small group discussions covering topics of importance to the APD role. The session will be led by members of the Associate Program Directors’ Executive Committee: Mollie Grow, MD, MPH, University of Washington- Seattle Children’s Hospital; Sarah Hilgenberg, MD, Stanford Children's/Stanford Pediatrics; Rhett Lieberman, MD, MPH, Children’s Hospital of Pittsburgh of UPMC; Ross Myers, MD, UH Rainbow Babies & Children’s Hospital; Ndidi Unaka, MD, MEd, Cincinnati Children’s Hospital Medical Center; Ariel Winn, MD, Boston Children’s Hospital; Associate Program Directors’ Grassroots Forum Leaders (APD SIG), and other senior Associate Program Directors.

**Coordinators’ Session <PC, FC> Salons 1-3**

**Removing the Mystery**

During this session, coordinators will have the opportunity to learn about the role of coordinator through participating in small and large group experiential professional development activities. In addition, the session will focus on survival tips for excelling at program coordination of both fellowship and residency programs, including best practices and important skill development. An interactive workshop of various tools and best practices to remove the mystery of the constantly evolving role of Program Coordinator. This session will be led by the Coordinators’ Executive Committee: Tammy Bleeker, BS, MEd, University of Florida; Michelle Brooks, C-TAGME, Stanford University; Amy Gaug, C-TAGME, University of Minnesota; Francisco Hernandez MBA, BA, Jersey Shore University Medical Center; Beth Payne Wueste, MAEd, C-TAGME, LSSBB, University of Texas Health Science Center School of Medicine at San Antonio; Cassandra Shorter, BS, Baylor College of Medicine-Houston

**Fellowship Program Directors' Session <FPD, FC> Salons 5-7**

This session for Fellowship Directors, Associate FDs, Fellowship Coordinators, Superfellowship Directors and Vice Chairs of Education will include a community building exercise, a presentation from SPIN, a panel of key stakeholders (CoPS, ACGME, ABP) for question and answer session, and a formal skill-building activity focused on assessment of individual fellow performance. During the skill building session, participants will be given a broad overview of what it means to have a program of assessment for individual fellow’s knowledge, skills and performance and some basic assessment frameworks. The majority of the workshop will focus on developing a workplace based assessment that allows for assessment of fellow skills and supports immediate performance feedback. This session will be led by the Fellowship Directors’ Executive Committee: Christine Barron, MD, Brown University; Meredith Bone, MD, McGaw Medical Center of Northwestern University; Jennifer Duncan, MD, Washington University/St. Louis Children’s Hospital; Jennifer Kesselheim, MD, MEd, MBE, Children’s Hospital/Boston Medical Center; Katherine Mason, MD, Hasbro Children’s Hospital/Brown University; Kathleen McGann, MD, Duke University Medical Center.

**Categorical Program Directors' Session <PD, OKP>**

**Studio D**

**Time Management: Use It or Lose It**

*Led by Javier Gonzalez del Rey, MD, MEd, Cincinnati Children’s Hospital Medical Center, Cincinnati, OH*

Time management is an essential skill required for a successful career as a Pediatric Program Director. Technology, if used incorrectly, can actually make us inefficient and “unfocused”. During this interactive session, participants will be able to understand different barriers and common mistakes, incorporated in daily routines, that affect productivity. Attendees will be able to walk through a “typical” day, identify distractions, personal barriers, and potential solutions, which will then allow them to complete an action plan to take home and become more effective and productive leaders. At the end of this session, participants will be able to: 1. Identify key elements for effective time management 2. Describe personal barriers and strength in managing time 3. Develop a personal grid for effective and efficient personal time management.

**Nightmares of the New Program Director**

*Led by Sharon Calaman, MD, CHSE, St. Christopher’s Hospital for Children, Philadelphia, PA and Patricia Poitevien, MD, MSc, Hasbro Children’s Hospital and Brown University, Providence, RI*

Every Program Director will at some point encounter a difficult situation specific to their program. Our goal is to help you anticipate these challenges, provide you practical tools to navigate these scenarios and remind you that you are not alone! At the end of this session, attendees will be able to create action plans and identify resources to tackle the following “nightmares” : Remediation, Inheriting a Tough Residency Leadership Group, Interactions with your Chair, Leave (FMLA, Maternity Leave, Paternity Leave and Medical Leave, Residents who leave mid-year).

3:30-3:45pm  
**Wellness Break <ALL>**

3:45-5:45pm  
**Skill Building Session -- Diversity, Equity, and Inclusion 2.0+: Thinking Beyond Recruitment**

*Salon 4*

*Led by Lahia Yemane, MD, Stanford University, Michelle Brooks, C-TAGME, Stanford University, Rebecca Blankenburg, MD, MPH, Stanford University, Emma A. Omoruyi, MD, MPH, McGovern Medical School, Patricia Poitevien, MD, MSc, Hasbro Children’s Hospital and Brown University and Beth Payne Wueste, MAEd, C-TAGME, LSSBB, University of Texas Health Science Center School of Medicine at San Antonio*

Effective July 2019, ACGME common program requirements will ask programs to include an annual assessment of their efforts to recruit and retain a diverse and inclusive, workforce. Although important, the main focus has been primarily on recruitment and not on inclusion and retention, which are crucial components. In this highly interactive workshop participants will review the new ACGME requirements, discuss ways to leverage support from their institutions, and create action plans to improve efforts to recruit and retain a diverse and inclusive workforce.

<PD, FPD, APD, OKP>  
*Salon 4*  
Led by Sharon Calaman, MD, CHSE, St. Christopher’s Hospital for Children, Philadelphia, PA  
Participants will join faculty experts to receive guidance on topics specific to their role as educators and program leaders. The format of the session will consist of tables covering a variety of topics and a specific question related to that topic to be discussed at each table. There will be an expert Table Leader who will facilitate discussion and share their expertise. Each table session will be 25 minutes in length with the opportunity to participate in three table topics during the session.

**Table Talk Session**  
<PC, FC>  
*Salons 1-3*  
Led by the APPD Coordinators’ Executive Committee  
This session allows conference participants to visit multiple tables of interest. It is a wonderful opportunity for organizations and other program coordinators to share information, including best practices, resources and answer coordinator questions.

Led by the APPD 2019 Fall Meeting Program Executive Planning Committee: Beth Payne Wueste, MAEd, C-TAGME, LSSBB, University of Texas Health Science Center, School of Medicine at San Antonio; Jennifer Duncan, MD, Washington University/St. Louis Children’s Hospital; Ariel Winn, M, Boston Children’s Hospital; Sharon Calaman, MD, CHSE, St. Christopher’s Hospital for Children; Patricia Poitevien, MD, MSc, Hasbro Children’s Hospital and Brown University  
The leadership team that drives the daily operations of most residency and fellowship training programs consist of a Program Director, Associate Program Director and Program Coordinator. This triad offers a unique dynamic specific to GME that is built organically with little to no formal leadership or team membership training. This lack of training can often lead to under-performing and disjointed teams that face turnover and work dissatisfaction. This team based interactive session aims to fill the gaps in knowledge, skills and attitudes often faced with regard to role definition, medical culture, setting expectations, effective communication and conflict resolution at the program leadership level. Participants that attend this session will leave with a richer understanding of the importance of each team member and their contribution to the learning environment and overall medical profession. This invaluable new skill set will allow for mutually respectful working relationships, improved program culture and the betterment of the overall trainee experience.
The APPD Share Warehouse is a unique opportunity for members to collectively share and use content that supports the mission of pediatric residency education. The APPD Share Warehouse is a web-based collaborative project that provides a place for APPD members to browse, search, use, and share resources, including policies, curricula and evaluation tools. It’s a perfect place to submit workshop materials, poster presentations, and resources for APPD Learning Communities. Learners, leaders, and all team members will benefit from a rich repository of information and practical applications for our diverse needs.

The APPD Share Warehouse is emblematic of our community of members: innovative, collaborative, and scholarly. Learning together from our shared work cultivates great new solutions and ignites innovation. Members may share their work and report its use as part of their portfolio of scholarship. Explore the APPD Share Warehouse and submit materials to the site. And let us know how we can adapt the site to meet your needs. When we share and innovate together, all members benefit.
