It is our pleasure to invite you to

Shaping the Future Physician: Transforming Graduate Medical Education in Primary Care for Vulnerable Communities

to be held in
Bellevue Hospital, Old Medical Library
on the
5th of June 2015
from 8:00am – 5:00pm.

Space is limited; please register here by May 15.

The goals of this conference are to prepare graduate medical education (GME) leaders for the changing policy, practice, and economic environment impacting GME, and to develop strategies that optimize our response to these challenges.

CORE QUESTIONS:

How is the changing policy, practice, and economic environment impacting GME?

What should GME prepare physicians to do in the practice of the future?

How can GME programs transform the structure of their residency programs to adapt to these changes?

How can institutions prepare for the financial implications of these changes?

How do we align GME programs with the health care needs of vulnerable populations?

Leading thinkers in the field will discuss policy and financial structure and innovative practices.

We look forward to seeing you there!
7:30 – 8:00  REGISTRATION AND BREAKFAST

8:00 – 9:00  Opening Plenary
Fitzhugh Mullan, MD Murdock Head Professor of Medicine and Health Policy, George Washington University School of Public Health

9:00 – 9:45  Reactor Panel: Academic Medical Center Leaders
