

BROWN UNIVERSITY

Attending Physician Pediatric Hematology/Oncology

Brown University: Pediatrics

Location

Providence, RI

Description

The Department of Pediatrics, Rhode Island Hospital (RIH)/Hasbro Children's Hospital (HCH) and Alpert Medical School of Brown University are excited to announce a **Pediatric Hematology/Oncology** faculty position with a focus on **hematologic malignancies** and **medical education**. The successful applicant will be based at HCH in Providence, RI. Responsibilities include: **fellowship program director**, hematology/oncology patient care, teaching and mentorship of medical students, residents and pediatric hematology/oncology fellows. All faculty will be expected to pursue scholarly activities in clinical or laboratory research or education, with the support of the HCH mentoring program, and more senior faculty will be expected to continue these activities.

HCH is the only pediatric tertiary care center in RI and serves as the primary pediatric teaching facility for the Medical School. Clinically, multidisciplinary comprehensive programs include hemophilia and bleeding disorders, sickle cell disease and other hemoglobinopathies, leukemia/lymphoma, solid tumors, neuro-oncology, childhood cancer survivorship, and adolescent and young adult oncology. RIH/HCH is an active member of the Children's Oncology Group. The Division is a member of the Dana Farber Cancer Institute Acute Lymphoblastic Leukemia Consortium and actively participates in its therapeutic protocols. The Division has a very well reputed ACGME-accredited pediatric hematology/oncology fellowship program accepting one new fellow each year for three-year fellowships. HCH supports Pediatric, Internal Medicine/Pediatrics, and Pediatric/Psychiatry/Pediatric Psychiatry residency programs.

The candidate would join a fully staffed multidisciplinary team that includes 7 physicians, 5 NPs/PA and a full team of RNs, SWs and behavioral health support that ensures very high quality, family-focused care. Faculty members hold leadership positions in New England regional consortiums for pediatric sickle cell disease and childhood cancer survivorship. Clinical, correlative and translational laboratory research efforts will be supported. The position will be afforded a minimum of 20% protected time for research or education as appropriate to the successful applicant's interests and experience.

Interested candidates can apply online at <http://apply.interfolio.com/49109>. Please upload the following: Curriculum Vitae and the names of three references. Review of applications will begin immediately and will continue until the position is filled. Brown University and its affiliated teaching hospitals are equal opportunity (EEO/AA) employers and are committed to increasing the diversity of its faculty. The hospital and the university welcome nominations and applications from minorities, women, and individuals with varied experiences, perspectives and backgrounds, which would enrich the university's research, teaching and service missions.

Application Instructions

Please submit a CV and cover letter.

Qualifications

Candidates must qualify for appointment to the rank of **Associate Professor or Full Professor** at the Alpert Medical School of Brown University. Minimum requirements include board eligibility or certification in Pediatric Hematology/Oncology, a strong clinical background in pediatrics and pediatric hematology/oncology, and excellence in patient care and teaching. For faculty seeking appointment at the rank of Associate or Full Professor, evidence of significant clinical experience and/or a high-quality research program and a national reputation are required.
