

# Valley Children's Pediatric Residency Program

Affiliated with Stanford University School of Medicine

Valley Children's Pediatric Residency Program In Affiliation with Stanford School of Medicine values interprofessional education, collaboration, teamwork, innovation, and commitment to diversity and inclusion among our patients, our staff and physicians. Interprofessional education is a tenet of our program incorporated into our curriculum throughout residency. We developed a robust advocacy curriculum for our pediatric residents centered around community engagement to promote a spirit of advocacy for children throughout their careers. Finally, we developed a wellness initiative to support each other and maintain healthy physical, academic, and emotional skills for work-life integration and vitality.

We are searching for highly motivated recently graduated, board-eligible pediatricians for chief resident position. This position offers development of leadership, teaching and administrative skills with clinical opportunities negotiable according to the candidates' interests. This position offers a competitive salary and benefits.

We require the following:

- An MD/DO degree
- Board-eligible pediatrician (PGY4), and eligibility for a California medical license.

Expectations for this position include:

- Outstanding interpersonal skills as liaison between faculty and pediatric residents.
- Teaching and scholarly activity opportunities for medical students and residents.
- Close mentorship by the academic leadership team.

About our hospital:

Valley Children's Hospital is a stand-alone 358-bed children's hospital located in Madera, CA, providing high-quality, comprehensive medical care for an extremely underserved and diverse patient population of 1.3 million children. We have been ranked in U.S. News & World Report's new 2018-2019 Best Children's Hospitals as one of the best children's hospitals in the country for Pediatric Orthopedics, Neonatology, Pediatric Diabetes & Endocrinology, and Pediatric Gastroenterology & Gastrointestinal Surgery. Please visit our website at [www.valleychildrens.org](http://www.valleychildrens.org) for more information about our hospital and our pediatric residency website is [www.valleychildrens.org/medical-education/medical-education](http://www.valleychildrens.org/medical-education/medical-education).

Interested individuals, please contact Dr. Limon, Chief of Pediatrics and Executive Director of Medical Education at [jlimon3@valleychildrens.org](mailto:jlimon3@valleychildrens.org) or [GME@valleychildrens.org](mailto:GME@valleychildrens.org). Our office is 559-353-5141.
