

Children's Hospital at Montefiore/Albert Einstein Adolescent Medicine Fellowship Program

- **2 Fellows per year/cycle**
- **Structure:**
 - 1st year: 5 - 6 weeks of inpatient service, 5 clinic sessions at CHAM PASS/week, school health
 - 2nd & 3rd year: 6-8 weeks of inpatient service, 2-3 clinic sessions/week at CHAM PASS, college health, electives
- **Rotation Sites/Types:**
 - **Main Hospital/Site:** Children's Hospital at Montefiore, Bronx, NY (Inpatient & Consults)
 - Gynecology & Reproductive Care (including Medically Complex Youth)
 - Long-Acting Reversible Contraception Clinic
 - Young Men's Health
 - Gender-Affirming Care
 - Eating Disorders
 - Obesity Management
 - **Community Sites:** school-based health (middle/high school and college campuses), youth in foster care
- **Other Fellowship Information:**
 - Mainly urban, minority, underserved population in NYC area (Bronx, Brooklyn, Manhattan, Queens), Westchester and Yonkers, Rockland County, Dutchess County, Northern NJ
 - Other opportunities include MS (Clinical Research Training Program through Albert Einstein), MPH (through Albert Einstein), Innovation Biodesign Training Program (through Montefiore/Einstein)
- **Contact:** Program Coordinator: Nicoln Ortiz, 718-920-6781, niortiz@montefiore.org
 - Program Director: Elizabeth Alderman, MD ealderma@montefiore.org
 - Associate Program Director: Leslie Rosenthal, MD, MS lrosenthal@montefiore.org

University of Minnesota Adolescent Medicine Fellowship

Nimi Singh, MA, MD, MPH
Program Director
singh031@umn.edu

- Our Federally-funded Leadership Education in Adolescent Health Program provides interdisciplinary leadership training, faculty development, continuing education, scholarship, technical assistance and collaboration with MCH programs, Title V Programs in state departments of public health, State Adolescent Health Coordinators, policymakers, and professional organizations concerned with the health of adolescents.
- Key components of our training program include seminars on a wide range of child/adolescent health topics, and build skills in leadership, research, public speaking, legislative advocacy, working with communities, and translating research into practice, with a strong focus on community engagement and advancing the health of youth and young adults through a lens of equity, diversity and social justice.

Primary and Subspecialty Care

- Adolescent primary care
- Eating disorders
- Substance abuse
- Gender health
- Adolescent gynecology
- Menstrual disorders
- HIV management
- Juvenile justice
- College health
- Sports medicine
- Psychiatry
- Endocrinology
- Weight management

Leadership Education in Adolescent Health (LEAH)
Advocacy Training
Community Engagement
Core Fellowship Curriculum
Fellows Research Roundtable
Mini Quality Academy
Mini Health Disparities Academy
Health Equity Scholars Program
Graduate Degree and Certificate Programs

- Public Health
- Healthcare Quality and Safety
- Healthcare Simulation
- Business Administration
- Mentoring and Leadership
- Applications of Mixed Methods Research
- Research Communication

Primary training site: Children's of Alabama, the only free-standing children's hospital in the state

NewYork-Presbyterian Hospital Columbia University Irving Medical Center

ADOLESCENT MEDICINE @ NYP-COLUMBIA

The Section of Adolescent Medicine in the Division of Child and Adolescent Health at the New York-Presbyterian Morgan Stanley Children's Hospital sponsors an ACGME-accredited fellowship program designed to prepare young physicians for careers as leaders in the field of academic adolescent health care.

LOCATIONS FOR TRAINING

- NYP-Morgan Stanley Childrens Hospital
- Columbia University Undergraduate Medical Practice
- Columbia University Faculty Practice
- Weill Cornell Medicine
- NY State Psychiatric Institute

ADOLESCENT MEDICINE @ NYP-COLUMBIA

FELLOWSHIP YEAR 1

This year is focused on clinical training where fellows spend three sessions weekly providing ambulatory care. Over the year, time is spent in the Young Men's Clinic, Weill Cornell adolescent practice, and psychiatry inpatient and outpatient practices.

FELLOWSHIP YEAR 2

This year is devoted to building and advancing research skills while strengthening teaching and clinical skills. 50% of fellows' time is protected for research.

CURRICULUM OVERVIEW BY YEAR

FELLOWSHIP YEAR 3

The third-year is devoted to advancing, research, scholarship, teaching, and development for launching a career in adolescent medicine. 50-70% time is dedicated to research and scholarship endeavors.

Adolescent Medicine Colorado

<https://medschool.cuanschutz.edu/pediatrics/sections/adolescent-medicine/fellowship>

Faculty, Fellows and Staff

- 10 physicians, 3 advanced practice providers
- 5 current fellows; 1-2 fellows per year
- Integrated behavioral health teams
- Dietitians
- Dedicated medical assistants, nurses

Program Highlights

- Devoted to patient-centered care
- Supportive hospital and government systems
- Telehealth options when appropriate
- Fellows are PCP, precepting with residents
- Advocacy opportunities
- Fun electives: sports med, gyn, psychiatry

Program Structure

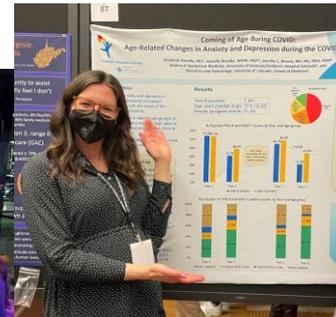

- 70% clinical; 30% research/admin Year 1
- 50% clinical; 50% research/admin Year 2
- 30-40% clinical; 60-70% research/admin Year 3
- Inpatient call once a month
- Research project/Quality Improvement project
- Weekly Academic Half Day

Clinical Spaces

- Adolescent Medicine primary care/consult clinic
- BC4U, Title X funded family planning
- TRUE clinic for gender diversity
- Complex diagnosis clinic (fatigue, POTs)
- Inpatient service, primarily eating disorders
- Eating Disorder Program

Geographic Area

- Denver & Aurora: restaurants, sports, arts & culture, new housing, nature
- Colorado: hiking, biking, rafting, camping, nature, MOUNTAINS!

Program Director, Dr. Jennifer Woods Jennifer.woods@childrenscolorado.org
Program Coordinator, Margaret Swift Margaret.swift@childrenscolorado.org

- ACGME accreditation 2022
- 1 fellow/year
- Multidisciplinary program with **5 full-time** adolescent medicine faculty members
- 3-year program: 70% clinical year 1, with increased focus on scholarly activity, teaching and **academic professional development** in years 2&3
- Primary and Subspecialty Care
 - Adolescent and Young Adult Health Clinic at One Hundred Oaks
 - Adolescent medicine subspecialty/referral practice sessions
 - Practical experience in placing and managing LARC
 - Eating disorder outpatient and inpatient **interdisciplinary** team
 - LGBTQ+ wellness program
 - College-based student health service
 - Care of adolescents and young adults affected by and at-risk for HIV
 - Sports Medicine
 - Child and Adolescent Psychiatry
- **Scholarly activity:** advocacy, clinical research, ethics, quality improvement, formal training in medical education and research
- Nashville is a vibrant, growing, friendly city – and the songwriting capital of the world!

UIC/Cook County Adolescent Medicine Fellowship Program

Karen Bernstein, MD, MPH
Program Director

Karen Simpson, MD
Associate Program Director

Program Highlights

- 3 year ACGME fellowship that includes robust clinical curriculum and opportunities for scholarship and advocacy

Program Culture

- Intimate program setting which allows for strong collaborative relationships between faculty and fellows and flexibility in tailoring curriculum to meet educational goals

Institution Culture

- Minority serving institution with a focus on diversity in an urban setting
- Mission-driven program caring for a largely vulnerable patient population
- Funding support to present research at national meetings

Geographic Culture

- Both UIC and Stroger are located in the heart of Chicago with a thriving cultural scene, vibrant street art and an amazing selection of restaurants
- Chicago provides outdoor activities, sports entertainment, parks, festivals and restaurants in all 4 seasons

Curricular Highlights

- Clinical experiences: school-based health centers, adolescent psychiatry inpatient, joint med-psych outpatient, eating disorders, juvenile detention clinics, adolescent gynecology, family planning, sports medicine, obesity treatment, trauma, violence prevention and gender affirming care.
- Continuity Clinics: CCHHS Adolescent and Young Adults Clinic, UIC Adolescent Clinic, and opportunities for additional longitudinal experiences in 2nd and 3rd year
- Weekly Collaborative Didactic Lectures twice a week
- Scholarly Research Mentorship
- Board Preparation

Career Preparation:

- 14% Non-Academic Positions
- 86% Academic Positions

Faculty:

- Felicia Scott-Wellington, MD
- Sadhana Dharmapuri, MD
- Jonathan Klein, MD, MPH
- Tatia Hardy, MD

Program Coordinator:

Adriana Gasca

PD: Sarah Pitts, MD, sarah.pitts@childrens.harvard.edu

Adolescent Medicine Fellowship at UT Southwestern Dallas, TX

Program Director: Dr. Jenny Francis
Jenny.Francis@UTSouthwestern.edu

CLINICAL STRENGTHS

- Abundant procedural training
- Diverse clinical experiences
 - Gender clinic, juvenile justice, eating disorders, college health, and more!
- Flexible, customizable scheduling
- 18 weeks of phone call per year
- One main physical location
- Faculty with wide breadth of experience and expertise

SCHOLARSHIP OPPORTUNITY

- Research opportunities
 - Program Director is a researcher
- Mentorship opportunities
- Potential for advanced training degrees
- DEI opportunities

- **1-2 fellows per year**
 - Flexible & individualized schedule
- **Diverse clinical focus at a top Children's Hospital**
 - Comprehensive sexual and reproductive health
 - Gender affirming care
 - Complex mental health (integrated behavioral health team)
 - Eating disorders
 - Addiction medicine
 - Primary care
 - Special populations (youth experiencing homelessness, justice-involved youth)
 - Inpatient consults
 - Care for a diverse population from a 300-mile radius
- **Funding for advanced degrees and training**
 - Certificate or Masters in Medical Education or Clinical Research
 - PhD in Clinical and Translational Science
 - Physicians for Reproductive Health Leadership Training Academy (optional)

<https://www.pediatrics.pitt.edu/divisions/adolescent-and-young-adult-medicine/education-and-training/adolescent-medicine-1>

Program Culture

- We are a program for independent learners interested in research, medical education, advocacy, and leadership

Institution Culture

- UPMC is committed to serving the community and shaping the health system through clinical and technological innovation, research, and education

Geographic area/Culture

- We are in Pittsburgh, Pennsylvania, a city with small town charm and one of America's "most livable" cities.

Baylor College of Medicine Adolescent Medicine Fellowship

**Texas Children's
Hospital®**

**Baylor
College of
Medicine**

- 1 – 2 fellows per year (peds, med/peds, fam med trained)
- LEAH program with interdisciplinary faculty and fellows (medicine, psychology, nursing, social work, nutrition and public health)
- Clinical training include:
 - Inpatient and outpatient eating disorders
 - Obesity management
 - School Based Clinical Care
 - Reproductive health
 - Gender care
 - Homeless youth care
 - Opportunities for individualized electives – sport medicine, transition medicine, juvenile detention, gyn, hiv care

- Curriculum Overview:
 - Over the three years, nearly 50% of the curriculum is dedicated to research/scholarly activity, the remainder split between clinical, teaching, administration and leadership development.

Professional and Personal
Life Balance

Patient-Centered Multidisciplinary
Team Approach

Seattle Children's / UW Adolescent Fellowship

- **Structure:**

- First year is clinically focused, years 2-3 more research oriented

- **Rotation sites/types:**

- Seattle Children's Hospital: Adolescent Clinic (Gender-affirming care, Eating Disorders), LARC clinic, Gynecology, Sports Medicine, Inpatient Consults
- Community Rotations: School-Based Health, Community Primary Care (OBCC), Kaiser Permanente HMO Clinic, Juvenile Detention, Echo Glen (includes Behavioral/Substance), Homeless Youth Clinic, STD clinic, Substance Use clinic.

- **Other information:**

- LEAH Program
- Serves a 4-state region (Washington, Alaska, Montana, Idaho)
- Diverse population economically, in terms of race/ethnicity, and rural/urbanicity
- Opportunity to obtain MPH or MS, gain excellent research and teaching skills
- Partnerships with multiple T32 fellowships for research-bound fellows
- See each fellow as an individual, tailor second and third year to specific goals
- Absolutely beautiful PNW !

Stanford Medicine Adolescent Medicine Fellowship Program

Structure:

- 1-2 fellowship slots offered per year (total program of 4 fellows)
- Training is 60% clinical activities, 40% research

Rotation types:

- Teaching and Consultation Service
- Teen and Young Adult Clinic, Eating Disorders Clinic, Gender Clinic, Adolescent Gynecology Clinic, Healthy Weight Clinic, Psychiatry Clinic, and additional subspecialty clinic and community opportunities
- Comprehensive Care Program (inpatient Eating Disorder Unit)

Other fellowship information:

- Serves the San Francisco Bay Area with an extensive referral base throughout California
- Population served is diverse, suburban, and includes medically underserved teens
- Other opportunities for fellows:
 - Fellows can apply for the Master's Tuition Program (MTP) to support the cost of an approved MS program
 - Comprehensive Fellows' College program based in the Pediatric department
- Though grant application is encouraged, fellowship funding is guaranteed for the 3-year program

THE ADOLESCENT MEDICINE FELLOWSHIP PROGRAM OF MCGAW MEDICAL CENTER OF NORTHWESTERN UNIVERSITY AT ANN & ROBERT H. LURIE CHILDREN'S HOSPITAL OF CHICAGO

OUR MISSION

This mission of our Adolescent Medicine Program is to provide trainees with opportunities to become:
Expert clinicians with skills in primary care, inpatient and outpatient consultative care, care for marginalized populations, reproductive and gynecologic care, gender and sexual development, management of substance use disorders, treatment of common mental health concerns, and care for youth infected with HIV.
Expert leaders of multidisciplinary teams.
Leaders in clinical & translational research with a specific focus on health disparities affecting marginalized youth.
Effective advocates for adolescents at local, regional, national and international levels.

Our program has a focus on public health issues that affect marginalized populations and we promote and encourage interdisciplinary care models that include and elevate the voices of the youth we provide care for.
