Pediatric Emergency Medicine Fellowship

University of Alabama at Birmingham (UAB)

Thank you for having interest in the PEM fellowship at UAB! We are excited to meet you and share information about our program! Here are a few highlights:

- We currently have 11 fellows and accept 3 – 4 fellows per class
- Children's of Alabama is the only Level 1 tertiary care center in Alabama with 75k visits per year
- Our fellows get excellent experience at managing patients autonomously during training!
- Our program offers extensive opportunities to pursue academic interests including simulation, research, injury prevention, QI, patient safety, EMS, and administrative development
- We have a large body of faculty engaged in fellow education
- Birmingham offers a great local food and drink scene as well as many affordable, convenient neighborhoods

Children's
of Alabama®

Please feel free to contact us with any questions!

UPSTATE PEDIATRIC EMERGENCY MEDICINE FELLOWSHIP

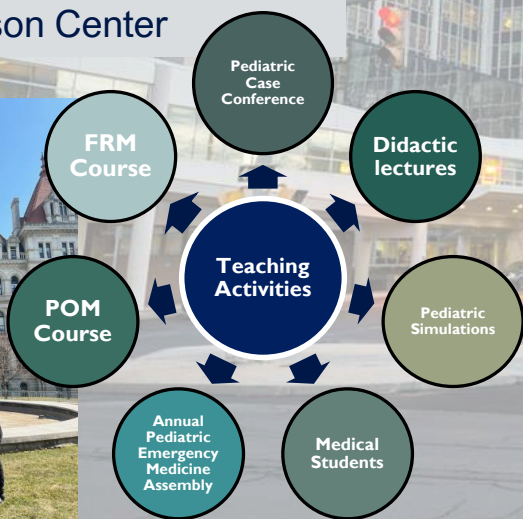

MEDICAL UNIVERSITY

MISSION:

To provide exceptional training for both pediatric and emergency medicine residency graduates so they can become independently practicing pediatric emergency medicine physicians serving their community. Fellows will develop skills to provide excellent clinical care, no matter the setting, utilizing evidence-based medicine and established standard medical care.

PROGRAM:

- 6 total fellows
- 12 PEM Faculty
- > 30,000 pediatric visits annually
- Level 1 Pediatric Trauma Center
- Verified Burn Center
- Upstate Poison Center

A Community of
Passionate Physicians,
Educators and
Learners.

- Arizona's largest freestanding children's hospital
 - 433 beds
- Arizona's only level I pediatric trauma center
- Annual ED volume = 100k
 - 72 ED beds
- ED learners:
 - Pediatrics residency
 - 2 EM programs
 - 4 FP programs
 - 5 local medical schools

- 12 fellows
- 38 faculty
- Weekly protected half days for didactics: PEM lectures, subspecialty lectures, board review, simulation, ultrasound
- Phoenix = 5th largest city in the US
- Variety of eateries and breweries
- Home to most major sports teams
- Vibrant arts/music scene
- >200 hiking trails within city limits
- Proximity to Grand Canyon and other national parks, San Diego, Las Vegas

Nationwide Children's Hospital Columbus, OH

- 2 locations of clinical practice
 - Main Campus ED – 90,000 visits
 - Level 1 Trauma Center
 - Burn Center
 - Satellite community stand-alone ED
- Pediatric and emergency medicine residency grads
- 4-5 fellows/year
- Robust research support and quality improvement opportunities
- Simulation center and ultrasound curriculum
- Support for graduate degrees

Pediatric Emergency Medicine Icahn School of Medicine at Mount Sinai

LOCATION

NYC- food, culture, theatre, energy
Mount Sinai Hospital is at the edge of the
Upper East Side and East Harlem

FACILITIES

3 Sites: Primarily at Mount Sinai Hospital
Newly renovated 22 bed unit
Scattered shifts at Mount Sinai Beth Israel
and Elmhurst Hospital Center

PROGRAM

Robust clinical experience
Diverse patient population
Weekly conference alternating between
PEM and EM

CORE VALUES

Fellows treated like junior faculty
Commitment to diversity, equity, and inclusion
We strive to give the fellows as much
autonomy as possible

PEOPLE

2 fellows per year
Over 25 faculty with diverse scholarly
interests

Pediatric Emergency Medicine Fellowship

UH-Rainbow Babies & Children's Hospital

Training exceptional clinicians, scholars, leaders, and advocates in the field of Pediatric Emergency Medicine

WHO WE ARE . . .

- 6 PEM Fellows (Pediatric & EM trained)
- 18 PEM-trained Faculty
- Our outstanding interprofessional care team provides evidence-based, patient-centered, and compassionate care to ill and injured children & adolescents from across the NE Ohio region
- UH-Rainbow Babies & Children's is a nationally-ranked 250+ bed tertiary children's hospital in Cleveland, Ohio
- We are part of a large academic medical center (UH Cleveland Medical Center)
- Our division is home to one (of only 2) Pediatric Disaster Care Centers of Excellence in the U.S.
- Graduates of our PEM fellowship are successfully practicing in both academic and community PEM settings across the nation, and are nationally-recognized leaders in areas including medical education, QI, POCUS, EMS/prehospital care, disaster preparedness, clinical operations, and advocacy. Our board passage rate for PEM graduates is 100%.
- We support the education and training of multiple learners, including 75+ pediatric and med/peds residents from UH-Rainbow Babies & Children's, EM residents from UH Cleveland Medical Center, and Case Western Reserve University medical students

OUR PROGRAM OFFERS . . .

- Unparalleled clinical training experiences in a busy, tertiary Pediatric ED & Level 1 Pediatric Trauma Center
- Training, support, & mentorship within a collegial group of experts who collaborate to provide exceptional patient care and advance the field of PEM
- Weekly didactic half-day providing protected time for fellows to build expertise in PEM through traditional didactics, as well as case-based and hands-on learning experiences
- Progressive autonomy over the course of the training program, with opportunities to function as junior faculty during 3rd year of fellowship
- Clinical experiences in both the academic and community PEM practice settings
- Exceptional Adult EM training experiences in collaboration with our EM colleagues at UH Cleveland Medical Center & Metrohealth Medical Center
- Opportunities to individualize elective & scholarly experiences to enable accomplishment of each fellow's specific career goals.
- Frequent opportunities to advance skills through simulation-based training and hands-on POCUS training
- Robust core curriculum for subspecialty fellows that provides training in research methods, Quality Improvement, education, leadership, career development, and personal/financial wellness
- Internal grant program that provides financial support for fellow research endeavors.
- Strong support from faculty research mentors and experts including biostatisticians, coordinators, and data specialists.

WE LOVE CLEVELAND, OHIO!

Cleveland is an **amazing**, affordable city with diverse neighborhoods, great outdoor activities, professional sports, world-class cultural institutions, award-winning restaurants, and an endless range of housing and school/childcare options.

PEDIATRIC EMERGENCY MEDICINE FELLOWSHIP

UNIVERSITY OF UTAH

FELLOWSHIP PROGRAM

- Strong support from Division Leadership
- 8 current PEM fellows, including one PEM-Global Health Fellow
- Will be seeking 2 new PEM fellows to begin July 2024.

SCHOLARLY ACTIVITIES

- Faculty mentorship with Division Research support Staff and statistical support.
- Research Assistants in ED to help with study enrollment.
- Active participant in multiple PECARN and other multi-center Research groups.

CLINICAL EXPERIENCES

- 34 bed ED at 289 bed free-standing Primary
- Catchment area of 400k square mi that includes UT, NV, ID, MT, and WY
- Level 1 Pediatric Trauma Center with >350 Level 1 and 2 Trauma Team Activations in 2022
- High Acuity with 20% Admission rate
- PCH is the only children's hospital in Utah, part of Intermountain Healthcare, and the pediatric teaching hospital for the University of Utah School of Medicine.

WORK LIFE BALANCE

- **OUTDOORS**
 - Home to 5 National Parks
 - National forests and world-class ski resorts are a short drive away from the hospital
 - Hiking and Biking trails within walking distance of the hospital
- **SLC CITY LIFE**
 - Symphony
 - Ballet
 - Sporting events – PAC 12, NBA, Triple-A baseball
 - Cultural events

Pediatric Emergency Medicine Fellowship

Est. 2021

EDUCATION

- UMass Chan Medical School is the first and only public academic health science center in MA
 - Consistently ranked in top 10 for primary care education
 - #2 in New England for NIH funding
- UMass Memorial Health is the largest health system in Central MA
 - Large catchment area including VT, CT, and RI
 - Diverse patient population
 - Only Level 1 Trauma Center and Children's hospital in the region

PEOPLE

- One fellow per year = 3 total
- Open to graduates of either Pediatric or EM residency
- 12 PEM faculty
- Dedicated pediatric ancillary services
- 24K pa visits/year
- High acuity: 14% admission rate
- Over 200 subspecialists within the Department of Pediatrics

EXPERIENCE

- Small program with individualized learning opportunities
- Autonomy early in fellowship with progressive clinical and supervisory responsibilities
- Robust partners with faculty in both Depts of Peds and EM with many opportunities for research and mentorship
- Opportunity to obtain a Master in Clinical Investigation through UMass at no cost
- Be a part of the growth of a new program!

LOCATION

- Worcester is the second largest urban center in New England
- Lively restaurant and craft brewery scene
- Local professional sports
- Cultural arts venues
- Great outdoor opportunities including hiking, skiing/snowboarding, and boating
- Close to beach and mountains

Program Highlights

- Fellow friendly schedule
- Rich clinical experience - large catchment area allowing for a diverse array of patients
- Progressive autonomy over time
- Engaged, talented, and dedicated faculty committed to the fellowship
- Comprehensive curriculum - thorough and methodical review of the material.
- Multiple procedure labs
- Board review online modules and monthly chapter reviews
- Excellent board pass rate
- Dedication to Ultrasound training
- Track system allows further exposure to areas of interest to create niche

Nemours Children's Hospital

Pediatric Emergency Medicine Fellowship

The Program

- New program (2023)
 - Be one of the first 2 fellows – build legacy!
 - Personalized, individual training
 - Excellent career development
- Wellness/Resiliency/DEI
 - Resources to support wellness and resiliency, individual and team-based
 - Commitment to DEI within the program and institution
- Scholarship/Research
 - Individualized approach to scholarly activity based on your passions, interests and career goals with wide range of academic foci

The Clinical Learning Environment

- ED:
 - 18 beds (2 resuscitation rooms)
 - > 41,000 patients/yr
 - >3400 admissions/yr
 - Diverse patient population
 - Wide variety of pathology
- Faculty:
 - 12 awesome PEM docs, 2 excellent Pediatricians, 11 outstanding APPs
- Hospital:
 - 130 beds (66 ICU)
 - >180 pediatric medical and surgical faculty physicians

The Community

- Lake Nona
 - 17-square-mile residential community in Orlando with suburban feel
 - <https://www.lakenona.com>
- Lake Nona Medical City
 - UCF College of Medicine
 - Biomedical research (Sanford-Burnham Medical Research Institute, University of Florida Academic and Research Center)
- Close proximity to downtown Orlando; enjoy year-round sunshine, outdoor attractions, nightlife and family activities, and world-class beaches.

Program Director: Nicolas Erbrich, MD nicolas.erbrich@nemours.org

- Program Administration:
sonya.alexander@nyulangone.org;
dhurata.bacci@nyulangone.org

We welcome applicants who come from diverse and underrepresented backgrounds in the field of medicine, and those who aspire to predominantly care for underserved and marginalized communities.

Pediatric Emergency Medicine Fellowship Highlights

- Single Pod, 24-bed Pediatric Emergency Department, with 3-7 additional fast track beds
- 40,000 annual visits (<18 yo)
- Strong ancillary staff including Child Life, NPs, Pharmacy, etc.
- Pediatric Level 1 Trauma Center and Level 1 Burn center
- 700 annual trauma admissions
- Huge referral area
- All subspecialties available (Peds Fellowships in EM, Neonatology, Nephrology)
- Situated within the Department of Emergency Medicine (Respectful atmosphere, unique *resources: cadaver labs, other fellowships, etc*)
- Strong EM residency, 2nd oldest in the nation
- Tailored fellowship experience
- Moonlighting opportunities
- Great off-service rotations (Tox, Abuse, Anesthesia, PICU/NICU, electives)
- Telehealth exposure
- Winston Salem: great place to live, excellent cost of living
- 14 8-hour shifts per month (Fellows in charge of the schedule)
- \$4000/year CME budget (expectation of going to one

Pediatric Emergency Medicine Fellowship

Program goal:

To develop leaders in pediatric emergency medicine who deliver comprehensive, compassionate care and produce scholarly research in a safe, caring, and supportive environment

Fellowship overview

Program leadership

- Program Director – Rashida Woods
- Assistant Program Director – Jonathan Silverman
- Program Coordinator – Sharon Fleming

12 faculty members with diverse clinical and research interests

Prospective Fellows:

Recruit 2 fellows/ year

Accepts General Pediatrics and Emergency Medicine trained residents

Current Fellows (pictured below):

- Offer flexible scheduling to the needs of the fellow
- Comprehensive educational curriculum
- Opportunities for graduate certificates and degrees

Graduating fellows work across the country in academic or community centers

Life in Richmond

Urban life with a small-town feel.

We encourage our fellows to maintain a healthy work-life balance, and Richmond is a wonderful place to engage in that well-rounded lifestyle. The city and surrounding areas are affordable places to live.

Richmond attracts students, faculty and staff from around the globe. The city's location affords easy day trips to destinations like Washington, DC, Virginia Beach, Colonial Williamsburg and the Blue Ridge Mountains, among others.

As a mid-sized city with a metropolitan population of 1.3 million, Richmond provides stimulating activities while maintaining its intimate feel and unique vibe.

Vibrant neighborhoods offer distinct, diverse experiences, with no shortage of art galleries, museums, music venues, restaurants, breweries, and parks. For the outdoor enthusiast, you can't beat the offerings in the city's riverfront parks and urban wilderness areas such as white-water rafting, hiking, mountain biking and festivals.

CHoR at VCU:

New Children's Tower will open April 30th, 2023!

- New Pediatric Emergency Department will have 21 acute care beds, including 4 fast track beds; 2 resuscitation bays

Region's Level 1 Pediatric Trauma Center
Region's Level 1 Burn Center
Children's Surgery verified center
Tertiary care referral center
Virginia poison center

Patient care volume ~ 21K +/- year
Trauma volume ~ 300/ year

Pediatric Emergency Medicine Fellowship Program

The mission of the Pediatric Emergency Medicine Fellowship Program at NewYork-Presbyterian Hospital—Columbia University Irving Medical Center is to train clinicians who provide compassionate, state of the art emergency care for children. Our training program develops academicians who are skilled in research methodology and critical appraisal of the literature, teachers and role models to other health care personnel and the community, and leaders in the subspecialty of pediatric emergency medicine.

Our emergency department provides care to over 55,000 children annually at a Level I Pediatric Trauma Center within a children's hospital with one of the highest case-mix indexes in the country. We are committed to providing quality, evidence-based pediatric emergency care to our diverse and medically complex patient population. As a site of the Pediatric Emergency Care Applied Research Network (PECARN), our trainees are exposed to cutting edge research and the continuous commitment to improving the health of pediatric patients. We provide fellows with a comprehensive point of care ultrasound curriculum and, in addition, our division sponsors a competitive ultrasound fellowship. Fellows receive dedicated training in educational strategies, including simulation and debriefing, to hone their teaching skills. Our philosophy is to provide trainees with a strong foundation in all aspects of pediatric emergency medicine, encouraging them to develop their own clinical and academic expertise in the field.

Program Aims:

1. To develop expert clinicians who provide compassionate emergency care, incorporating evidence-based practice and point of care ultrasound, to provide the highest quality care to a diverse and medically complex patient population.
2. To provide fellows with a rigorous foundation in research design and quality improvement methodology to enable the independent pursuit of scholarly work.
3. To train lifelong educators who can effectively teach a wide-range of learners using varied teaching strategies and to promote educational scholarship.
4. To train future leaders in pediatric emergency medicine by cultivating individual interest into academic niches.
5. To support fellows to reach their highest potential by promoting balance and meaning in work, and fostering a productive career in pediatric emergency medicine.

Pediatric Emergency Medicine Fellowship

Education

- 16+ hours dedicated didactic time a month
- New simulation center
- Full research support staff
- PECARN center
- Resident/med student teaching
- Advanced degrees at USC

Fellows

Fellows per year: 4
Current total: 10
(peds+EM)

Mission

Advance pediatric emergency care by developing a diverse group of tomorrow's best PEM academic clinicians & leaders

Shifts

- 1st/2nd yr: 8-hr shifts
- 3rd yr: Research year with opportunity to moonlight as independent attending for stipend

CHLA Emergency

Level 1 Trauma Center

Urban tertiary freestanding safety net pediatric ED

Annual Volume
2022: 95,582 patients

37 PEM faculty
(4 POCUS)

Pediatric Emergency Medicine Fellowship Program

Fellows, Faculty, Staff

- Up to 12 fellows, 4 per yr
- ~80 PEM board certified/eligible faculty from diverse training backgrounds with varied interests (includes all sites)
- 80+ Pediatricians and APPs in the Section of Pediatric Emergency Medicine
- Dedicated research support staff and infrastructure
- PECARN site

Program Structure

- Dedicated longitudinal curricula in Research, Quality, Ultrasound, Toxicology, Simulation Education, EMS, DHEI, Core topics
- Tracks will be available for interested fellows (Research, Quality, Ultrasound, Education)
- Graduated clinical responsibility
- 12 research months during fellowship with reduced clinical responsibility
- Scholarship and personal/career mentorship to ensure success during fellowship and beyond
- Biostatistics short course and other Department of Pediatrics fellows-specific conferences

Clinical Training Sites

Children's Hospital Colorado on the Anschutz Medical Campus

- ~78,000 pediatric patient visits/yr
- 7-state catchment area
- Regional Level 1 Pediatric Trauma & Burn Center; Quaternary Care facility on a large medical campus
- Primary fellowship training site
- The Section of Pediatric Emergency Medicine at Children's Colorado manages 4 free-standing pediatric-only Emergency Departments, includes several Urgent Cares, which in total, sees >200,000 pediatric ED/UC visits annually

Denver Health Emergency Department

- Primary site for general (adult) ED rotations
- Safety net hospital in downtown Denver, Level 1 Trauma facility

Culture

- We celebrate diversity, teamwork, collaboration, excellence in clinical care, strong mentorship, family, and wellness
- Our faculty enjoy teaching, training, mentoring, and engaging fellows
- Fellows are protected during education mornings, fellow-faculty dinners, annual retreats, holiday parties and other celebrations

Life Stuff and Things to Do

- The Denver Metro area (includes the city of Aurora where the medical campus is located) is an ethnically and economically diverse region.
- Coloradans love the outdoors. The mountains are great, both during the winter and summertime, but there are plenty of things to do for the indoorsy types year-round, including arts, food, beer, music and theater.
