

FOOD CAPITAL, CONVENIENT LOCATION

Urban, diverse, tertiary academic pediatric center (8000 visits per year)

Central Virginia: James River flows through the city, 90 minutes to beach, nature or Washington DC.

FACULTY

Wide expertise in gender care, diabetes including psychosocial aspects, Turner syndrome, gender care, congenital adrenal hyperplasia, PCOS, bone health, thyroid cancer, bariatric care

CURRICULUM

Core didactic series for board preparation with practical case discussions, journal clubs

Monthly meetings formally with other pediatric fellows here.

Joint Adult and pediatric conferences

FLEXIBLE, INDIVIDUALIZED

Design your own continuity clinic panel
Research or Educator track

Night Call coverage after Pediatric boards, clinical service not fellow dependent

PROFESSIONAL DEVELOPMENT

National and regional conferences

Educator track and research track
certificate and degree programs

Electives in gender care, adult endocrinology, laboratory pathology

Children's Hospital of Richmond, Pediatric Endocrine fellowship

ACGME Accredited (3-Year Training Program)

- **Clinical Training:** Outpatient Continuity: ½ day clinic/week; Inpatient Consult Service (3 months per year); Subspecialty Endocrine Clinic Rotation (4 weeks each year): in various clinics such as - Turner Clinic, Brain Tumor Clinic, DSD Clinic, Lipid Disorders, Bone Metabolism, Weight Management Clinic, Type 1 & 2 Diabetes Clinic, Gender Dysphoria Clinic, CAH Clinic, BMT & Auto-islet Transplant Clinic, ALD Clinic
- Diabetes Camp - one week each summer
- Master's program in Clinical Research to augment training
- **Education:** Weekly division conferences, monthly ABP-focused didactic themes, weekly half day fellow protected education time, quarterly pediatric fellow academic core curriculum, board preparation
- NIH T32 grant funded

The University of Minnesota Masonic Children's Hospital is a free standing children's hospital with 254 beds. The hospital opened in 2011. U.S. News & World Report has ranked Masonic Hospital as one of the nation's best pediatric hospitals over the past 13 year. Also, in 2023, we were ranked the top-ranked children's hospital in the Twin Cities area.

MASONIC CHILDREN'S HOSPITAL

Children's Hospital Los Angeles

Fellowship

- 2-3 Fellows per year (7 fellows total)
- 17 faculty members
- Cutting edge clinical experience in all areas of endocrinology:
T1D, T2D, healthy weight/bariatric surgery, CAH, PCOS,
Thyroid nodule, bone, neuroendocrine, cancer survivor,
Turner Syndrome, DSD, gender care
- Diverse opportunities in both clinical and basic science research
- 100% board pass rate
- Division ranked in the top 7 in the last 8 years (USNWR)

Perks

- Salary and benefits matched to geography
- Housing stipend
- Meal stipend
- Education stipend

Los Angeles

- Hiking and Nature
- Cultural Hub
- Multicultural events/cuisine
- Weather!

Phoenix Children's Pediatric Endocrinology & Diabetes Fellowship

Phoenix Children's is one of the largest children's hospitals in North America with 29 subspecialty fellowship programs

Program Highlights

- We offer many specialty rotations and multidisciplinary clinics
- Call schedule includes every other night off
- We have diabetes service weeks, separate from call weeks
- Continuity clinics are only during non-call weeks
- There are many divisional and institutional didactics and conferences
- We have shadowing opportunities of faculty at satellite locations
- There are formal and informal teaching opportunities with medical students and residents
- Scholarly activities include research, QI, and case report or series
- We have available advanced programs (Masters in Clinical Research and Masters of Public Health) via University of Arizona College of Medicine – Phoenix

Pediatric Endocrinology Fellowship

Dedicated People

- Program Director
 - Amy Levenson, MD
- Clinical & Research Faculty
 - 8 core attendings
- Fellows
 - 1 per year
- Staff
 - Nurses, nutritionists, educators, clinical pharmacist, social workers, support staff

Comprehensive Program

- In depth clinical training
 - Regional referral center
 - Subspecialty programs
 - Gender health
 - Turner syndrome
 - Thyroid nodules
 - Bone metabolism
 - Lipid disorders
 - Reproductive endocrinology
- Innovative Curriculum
- Diverse Research Opportunities

Vibrant Environment

- Academic world-class institution
- Access to three metropolitan areas
- Vibrant and diverse central location
- City life, countryside, beaches, and mountains

Pediatric Endocrinology

SUNY Downstate Health Sciences University

Clinical rotations at

1. University Hospital at Downstate
2. NYC Health & Hospitals/Kings County

Welcome to Pediatric Endocrinology Fellowship Training Program at SUNY Downstate

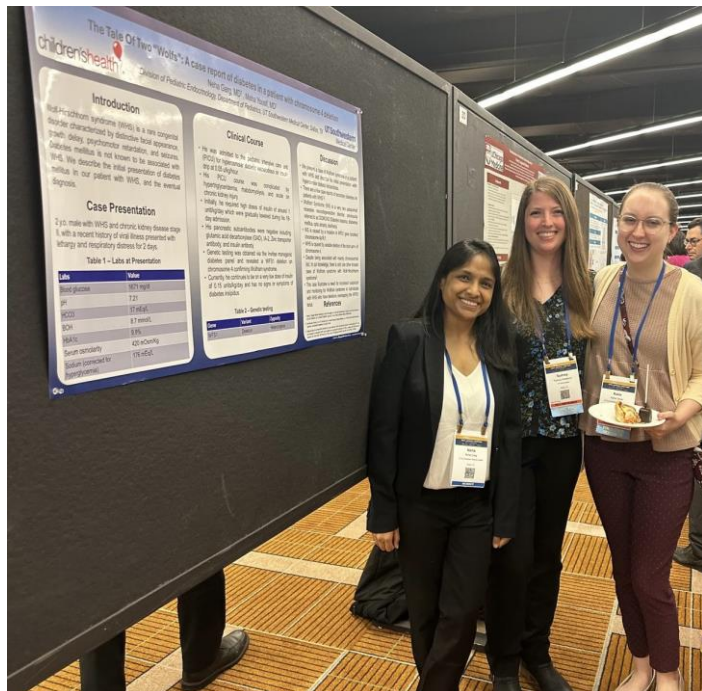

We are located in central Brooklyn, NY.

Brooklyn is a self-sufficient urban center.

There are opportunities/choices for housing, education, parks & recreation, cultural resources, and shopping. Traveling to, from, or within Brooklyn is easy and convenient. We are a small-sized program and committed to providing fellow-focused clinical, didactic, and research activities.

- 1 fellow per year
- 5 board-certified pediatric endocrinologists
- 2 certified diabetes care and education specialists (nurse and nutritionist)
- 1 nurse practitioner
- 1 program coordinator
- 3-year ACGME-accredited fellowship program

Program Culture

The Endocrine Division has 16 physicians, 3 fellows, 8 nurse practitioners, along with more than 20 endocrine nurses, diabetes educators, dietitians and social workers. We have 19,000 ambulatory patient encounters yearly including caring for over 2000 children with diabetes. In addition to delivering excellent patient care, we are proud of our efforts to improve care through our NIH-supported clinical research program.

Institution Culture

UT Southwestern is an academic medical center, world renowned for its research, regarded among the best in the country for medical education and for clinical and scientific training, and nationally recognized for the quality of clinical care. The Medical Center has four degree-granting institutions: UT Southwestern Medical School, UT Southwestern Graduate School of Biomedical Sciences, UT Southwestern School of Health Professions, and UT Southwestern School of Public Health.

- The schools train nearly 3,700 medical, graduate, and health profession students, residents, and postdoctoral fellows each year.
- Ongoing support from federal agencies, such as the National Institutes of Health, along with foundations, individuals, and corporations, provides almost \$554.4 million per year to fund faculty research.
- Faculty and residents provide care to more than 117,000 hospitalized patients, almost 360,000 emergency room cases, and oversee approximately 3 million outpatient visits annually.
- UT Southwestern has approximately 18,800 employees and an operating budget of \$4.1 billion.

Geographic area/Culture

Dallas is the international hub of North Texas, due in large part to its history of welcoming people from across the globe. According to the city of Dallas' Office of Economic Development, 25% of Dallas residents were born outside the U.S., and 44% consider English their second language. A 2021 WalletHub study ranked Dallas as fourth in diversity among U.S. cities. – ahead of Los Angeles and Chicago.

Our Pediatric Fellowship fosters a training environment which leverages our broad clinical base and the long history of scientific achievement at our institution to create the best training experience we can for tomorrow's pediatric endocrinologists. We welcome you to explore our program in more depth through a personal phone call or visit with any of our program leadership or current fellows.

Pediatric Endocrinology at Brown University/Hasbro Children's Hospital

- Serving children and families of RI, Eastern CT, Southeastern MA: diverse population including those from urban and rural areas, recent immigrants (South/Central America)
- We are passionate educators dedicated to training the next generation of pediatric endocrinologists
- Clinical sites: Hasbro Children's Hospital, Women & Infants Hospital in Providence, RI
- Broad clinical training with flexibility to pursue areas of interest
 - First year: clinical focus with time for exploring research, teaching
 - 2nd and 3rd years: academic focus with ongoing clinical training
- Research and teaching: Brown University and all affiliates
 - Research training for all levels of experience (including novices)
- Division includes 7 physicians, 1 fellow each year, diabetes nurse educators, endocrine nurse, registered dietitians, social work, psychologist, pharmacy tech
- **Supportive, collaborative, collegial and fun learning environment**
- Providence, RI: City life with nearby beaches, parks, museums, restaurants, 4 seasons, located 1 hour from Boston and 3 hours from NYC

Department Staff

22 Faculty, 3 APNs, 14 CDEs, 15 RNs

Current Fellows

Abigayil Dieguez, M.D.

Claire Moore, M.D.

Jacob Miler, D.O.

Margaret Wu, M.D.

Program Highlights

- 2 fellows per year
- 1st year primarily clinical
- 2nd and 3rd year primarily research with some clinical work
- Multidisciplinary clinics: Gender and Sex Development, Turner syndrome, Klinefelter Syndrome, Thyroid Cancer, Oncology survivorship, Bone Health, PCOS
- Robust didactics, journal club, board review

Endocrinology Division

- 23,000 outpatient visits per year
- Only pediatric diabetes program in Illinois certified by ADA
- 3,600 patients with Diabetes

Program Culture

- Collaborative, supportive, and fun!
- Prioritize fellow wellness and education
- Family feel

Lurie Children's Hospital

- Affiliated with Northwestern University Feinberg School of Medicine-collaboration with academic and clinical partners, Stanley Manne Research Institute
- 23 story, 360 bed state of the art hospital
- Top-ranked children's hospital in Illinois
- Committed to providing health care to children regardless of the ability to pay
- Commitment to diversity, equity, inclusion and belonging

City of Chicago

Lurie Children's Hospital is situated near Lake Michigan. Other points of interest include premiere shopping, cultural, and dining district, World-class arts scene and outstanding access to outdoor recreation. Recently, Chicago was voted the most walkable U.S. city!

Pediatric Endocrinology Fellowship Program

A TOP MEDICAL CENTER

- US News #2 Children's Hospital
- Faculty representing every career interest
- Quaternary and Community Sites
- 973-beds across all sites
- The largest free-standing pediatric hospital in the country

AN EXCITING CITY

AN ACCOMPLISHED PROGRAM

- One of the largest pediatric endocrinology training programs in the country
- ACGME accredited since 1988 Recruiting 4 fellows per year
- Alumni driving innovation in research, teaching and clinical care

OUR GOAL: TO CREATE THE FUTURE LEADERS IN PEDIATRIC DIABETES & ENDOCRINOLOGY THROUGH AN INNOVATIVE AND LEARNER-CENTERED TRAINING ENVIRONMENT COMMITTED TO CLINICAL EXCELLENCE, QUALITY IMPROVEMENT AND WORLD-CLASS RESEARCH

PROGRAM HIGHLIGHTS

- Extensive clinical training in both common and rare pediatric diabetes and endocrine disorders
- Robust training curriculum based on adult learning theories and modern educational techniques
- Offering 3 different tracks (clinical, research, degree) with opportunity for pursuing scholarly activity in clinical or bench research, educational research or QI.
- Funding support available for advanced degree

CT Children's/UCONN Pediatric Endocrinology Fellowship Program

Official pediatric teaching hospital of

UCONN
SCHOOL OF MEDICINE

Who We Are

- ❖ **Large, Dynamic Division**
 - 13 Faculty *and growing!*
 - PA shares inpt service
 - 2 SW; 6 CDEs; 4 Endo RNs
- ❖ Passionate teaching faculty with broad subspecialty expertise

<https://health.uconn.edu/graduate-medical-education/pediatric-endocrinology-fellowship/>

Program Strengths

- ❖ 1 fellow/year = program tailored to your career goals
- ❖ 50% of clinical time is protected outpatient
- ❖ Your own continuity clinic in Endo/DM
- ❖ Choice of clinical, translational, or basic science research with potential concurrent Masters in research/PH

Fellows Can Expect

- ❖ Guaranteed salary support for all 3 yrs
- ❖ Generous benefits and educ. stipend
- ❖ All fellows go to PES annually + other CME
- ❖ Priority on wellness
 - ❖ Quarterly self-care time & interview days not taken from PTO
- ❖ Close, supportive relationship w/faculty

Location, Location, Location!

- ❖ Only free-standing Children's Hospital in CT
- ❖ We are GROWING! \$280 million hospital expansion

CT has it all!

- ❖ Culturally diverse
- ❖ Plenty of outdoor spaces
- ❖ Lower cost of living than NYC/Boston
- ❖ Highly ranked for resident QOL

Seattle Children's Hospital, University of Washington

Pediatric Endocrinology Fellowship

peds.uw.edu/fellowships/endocrinology-fellowship

Clinical Program

- 20 pediatric endocrinology faculty
- 12 multidisciplinary clinics
- 407 bed hospital
- Primary pediatric referral center for children throughout WA, AK, MT, ID

Curriculum Tracks

Academic Clinician:

- For trainees wishing to pursue a career with a clinical or educational focus
- Scholarly project in years 2 and 3 with option for clinical specialization

Physician- Scientist:

- For trainees wishing to pursue a career with a research focus
- Research performed within formal NIH-supported research training program

Research

- Many opportunities in diabetes, obesity, pituitary, gender care
- Recent fellows projects:
 - Comparative efficacy of puberty blockers in gender diverse youth
 - Disparities in AKI in children and adolescents with DKA
 - Effect of probiotic on microbiome in adolescents
 - Feasibility and acceptability of CGM in youth with T2DM
 - Rates of Disordered eating in youth with T1 and T2DM in the SEARCH for Diabetes Cohort

Education

- 2 weekly education conferences (+ many other opportunities)
- Fellows college curriculum with all SCH fellows
- Large residency and medical school with teaching opportunities

UH Rainbow Babies and Children's Pediatric Endocrinology Fellowship

Mission Statement

To train **skilled clinicians**, **effective educators**, and **collaborative researchers** in pediatric endocrinology who practice high quality, evidence-based care; who identify opportunities and implement change to improve care; who understand the impact of social determinants of health; and who engage in research and advocacy to become leaders in our field.

Program Highlights

- **1st-2nd yr:** robust clinical inpatient/outpatient training, establish research/QI, DM camp
- **2nd-3rd yr:** research focus finishing with “pre-attending” clinical experience
- Fellow-focused didactics and board review
- Division-wide multi-disciplinary weekly conferences
- Annual division book club focused on social determinates of health
- Immersive training at oldest T1D camp in US
- **Internal research funding** for trainees
- Evidence Based Medicine, Global Health, QI and MedEd Tracks
- CWRU: Masters in Clinical Research and MPH

Our Division: RBC Peds Endocrine

Ranked #9 in USNWR

- **Clinical Excellence:**
 - Established, cohesive team: 11 faculty, 5 fellows, 7 CDCES RNs, 2 endo RNs, 1 dietitian, 2 SW, 3 MAs, 1 psychologist, 5 research coordinators/nurses
 - Subspecialty clinics: T2DM, Lipid, Gender Care, Cancer Survivor, CFRD, Thyroid Cancer, Prader Willi
- **Outstanding Research:** Multiple NIH, foundation and industry funded studies: T1 and T2DM, diabetes tech, CFRD, health disparities, MedEd
- **Strong Educators:**
 - **PES Mentor of the Year:** our Division Chief, Rose Gubitosi-Klug, MD, PhD
- **National Fellow presence at PES, ADA, ISPAD**
PES Rising Star Research Award 2023
Best Abstract Award at PES 2024!

Our Hospital: UH Rainbow Babies

- 244-bed, quaternary care center
- Affiliation with Case Western Reserve and University Hospitals

Our City: CleveLAND that We Love

- Friendly, affordable, Midwest vibe
- World-renowned art, theater, orchestra
- Cleveland MetroParks--“Best In Nation”
- 4-seasons, Great Lakes, central location, great food scene, professional sports—CLE has it all!

Pediatric Endocrinology & Diabetes Fellowship mission:

To **recruit** and develop **diverse, innovative, and compassionate leaders** in pediatric endocrinology who aim to **promote the health** of the individuals and populations we serve.

Similarly, our fellowship program recognizes the fellows whom we train as **multi-faceted individuals** and seeks to promote their **global well-being**.

To **train** the next generation of pediatric endocrinologists in a **collaborative working environment** where **critical thinking and inquiry** are supported and a **love of life-long learning** is fostered.

To maximize use of the **resources available within the CHOP/Penn system** to **tailor fellowship training** based on the fellow's **individualized** clinical, research and educational interests

Welcome to Philadelphia

Program specifics

Clinical sites:

Children's Hospital Colorado (CHCO)

Barbara Davis Center for Diabetes (BDC)

Institutional Culture

- Large quaternary care center serving children and their families from Colorado and 5-state catchment area
- BDC is committed to providing state-of-the-art care for children with T1D
- Multiple professional schools

University of Colorado Anschutz Medical Campus

Program Culture

- Collaborative and fun with life-long learners
- Focused on teaching fellows and providing care of children with common and rare endocrine disorders
- Committed to diversity, equity, and inclusion

Fellowship Structure

- 1st year **primarily clinical** with protected research time
- 2nd and 3rd year **primarily research** with continued clinical work
- Expanding fellowship from 6 to **9 total fellows** over the next 3 years

Geographic Area/Culture

- Denver & Aurora: Restaurants, concerts, shows, sports teams
- Colorado: Hiking, biking, camping, climbing, rafting, snowshoeing, exploring

Stanford
MEDICINE

Division of Endocrinology and Diabetes

In the Department of Pediatrics

- Educational and clinical exposure to all aspects of Endocrinology and Diabetes including Diabetes Technology, Gender Medicine, Bone Health, DSD and PWS
- Opportunities to participate in basic, translational, and clinical research as well as medical education, QI/QA and Bioinformatics
- Department-wide Learning Community - Fellows' College, Scholarship Academy, Grant Writing Club, Fellows' Council, Well-being Program, and DEIJ seminars
- Located in the Bay Area – Great weather year-round perfect for outdoor recreation, lots of parks, and a vibrant food scene. Driving distance to Napa, Lake Tahoe, Yosemite, Santa Cruz, Monterey, and San Francisco
- Compensation & Benefits - Highly competitive pay; medical/dental/vision insurance; education, cell phone, and housing stipends; one-time moving stipend; DEA and medical license reimbursements; housestaff union

Duke Pediatric Endocrinology Fellowship

Who we are

- 8* Faculty
- 3 Fellows (1 per year)
2024-2025 Fellows:
 - Alice Basin, MD
 - Natalie Hernandez, MD
 - Elizabeth McCain, MD
- Amazing team of 1 APP, 3 RN CDEs, 1 RD CDE, 1 SW, 2 staff assistants, 3 RN triage

Expertise in

- Lipid Disorders
- Diabetes
- Gender Care
- Thyroid cancer & nodules
- Differences of sexual development
- Obesity, including monogenic & syndromic
- Hyperinsulinism
- Bone Disorders
- Pituitary Disorders

Program Highlights

- TEACHING! Faculty are enthusiastic teachers
- Exposure to common & rare endo dxs
- Supportive program leadership
- World-class research institution, with many opportunities for fellows
- New inpatient & outpatient facilities
- Great place to live – close to beaches, mountains
- Colleagues treated like family

Children's Mercy Pediatric Endocrinology Fellowship

- ✓ Flexible, fellow-centered curriculum
- ✓ Large division with 21 faculty and diversity of expertise
- ✓ Two fellows per year
- ✓ Key Curricular Components:
 - High volume outpatient clinic with large catchment area
 - Inpatient consultation service
 - Weekly active learning sessions
 - Board review sessions
 - Experiential QI course
 - Significant protected time and experienced mentorship for scholarly activity
- ✓ Multidisciplinary Clinics:
 - PCOS
 - Turner Syndrome
 - Prader Willi Syndrome
 - Type 2 Diabetes Prevention
 - Q22 Deletion
 - Transgender Medicine
 - Disorders of Sexual Development
 - Endocrine Disorders in Cancer Survivors
- ✓ Contact Information
 - Program Director: Joe Cernich, MD
jcernich@cmh.edu
 - Associate Director: Michelle Knoll, MD, MHPE
mmknoll@cmh.edu
- ✓ Certificate & Master's programs available in clinical research, ethics, and health professions education

Website

Pediatric Endocrinology Fellowship Program

Program highlights

- Newly ACGME approved program, 1 fellow/year
- Outstanding clinical exposure with the only Children's Hospital in the state
 - Several multidisciplinary clinics including weight management, Bone, DSD
 - Opportunities for meaningful experiences in related subspecialties (Gynecology, adult endocrinology)
 - US news ranked clinical service; American diabetes association certified diabetes program
 - Opportunity to participate in diabetes summer camps
- Excellent research opportunities and collaboration
 - Opportunities for participation and networking for national and regional endocrine organizations and committees including support for travel
 - Formal training/course in research for all fellows
- Invested department and section leadership for an superb training experience
 - Medium sized program, close family knit environment
 - Nurse triage line for afterhours parent call (considerably reduces phone call burden)
 - Emphasis on fellow/faculty wellness
 - J1 waiver available after fellowship completion

[Learn more about Little Rock](#)

**THERE IS
SOMETHING
FOR
EVERYONE IN
ARKANSAS'
CAPITAL CITY!**

FAMILY FUN

Little Rock is home to world-class attractions that are exciting and engaging for everyone; from the young to the young-at-heart, there's a new adventure around every corner.

The Little Rock Zoo is the state's only facility accredited by the Association of Zoos and Aquariums and home to more than 500 animals spread across a 33-acre garden. From alligators and anteaters to penguins, rhinos, tigers and zebras, you can see and learn about these incredible species and how the zoo is working toward their conservation and continued survival.

Even in the heart of the capital city you're never far from outdoor fun. The First Tee of Central Arkansas offers a par-3, nine-hole course and a traditional nine-hole course as well as some of the area's best practice facilities open to the public.

Rock Town River Outfitters offer kayak and stand-up paddle board rentals and tours of the Arkansas River in addition to a variety of bikes to explore the Arkansas River Trail.

Little Rock's more than 60 city parks provide ample access to outdoor recreation and relaxation options no matter what part of the city you call home.

Pediatric Endocrinology Fellowship

Mayo Clinic College of Medicine and Science

Rochester, MN

Seema Kumar, MD
Program Director

Sarah Reed
Program Coordinator

Our Faculty

Aida Lteif, MD

Siobhan Pittock, MBBCh

Peter Tebben, MD

Alaa Al Nofal, MD

Ana Creo, MD

Cassie Hoshor, APRN,
CNP

Program Specifics

- Personalized clinical training working one-on-one with individual faculty members
- Opportunities for individuals interested in endocrine research as well as clinical pediatric endocrinology
- A mix of patients spanning the spectrum of pediatric endocrine disease
- Fully funded three-year program

Current Fellows

Mostafa Salama, MBBCh

Kaitlin Leopold, MD

Rayane El Moullem, MD

Program Culture

- Friendly, welcoming and eager to teach, caring and approachable faculty
- Collaborative environment
- Diversity in fellows and faculty
- Excellent research opportunities

Mayo Culture

- Excellence in all three fields (practice, education and research)
- Place for hope, healing, energy and transformation
- Emphasis on diversity

Geographic area/Culture

- We love all four seasons (yes, even winter) ☺
- Convenience of a mid sized town that is only 75 minutes drive to the Twin Cities
- Rochester has an overall grade of A and is the No. 5 Best City to Buy a House in America, a Best City to Raise a Family in America, and a Best City to Live in America (Niche)

Mission

Our mission is to train outstanding pediatric endocrinologists with a strong foundation in the clinical, academic, and research components of pediatric endocrinology

About the Children's Hospital at Montefiore

- ▶ The Division of Pediatric Endocrinology and Diabetes at the Children's Hospital at Montefiore (CHAM) serves the immediate Bronx community, as well as the surrounding Tri-State area and patients from around the world.
- ▶ The patient population is among the most ethnically and socioeconomically diverse in the United States, providing the optimal patient population to expose fellows to the broad presentations of endocrine conditions.
- ▶ CHAM is the only true free-standing Children's Hospital in New York City and has all pediatric subspecialties
 - ▶ Out-patient clinical space for Pediatric Endocrinology is within the hospital
- ▶ CHAM Department of Pediatrics Virtual Tour: https://virtualtour.montefiore.org/cham-pediatrics-fellowship?_ga=2.66118446.1003088464.1681734466-1277686899.1596041783

Division of Pediatric Endocrinology & Diabetes

- ▶ 8 core pediatric endocrinology attendings
- ▶ 6 pediatric endocrinology fellows
- ▶ Diabetes Team (all fulltime for our Division) includes:
 - ▶ Clinical Psychologist
 - ▶ Social Worker
 - ▶ Nurse Practitioners
 - ▶ Registered Nurse and Certified Diabetes Care and Education Specialists
 - ▶ Registered Dietitians and Certified Diabetes Care and Education Specialists
- ▶ Registered Nurse for diabetes and endocrine prior authorizations
- ▶ Physician Assistant for endocrine support
- ▶ Division Manager, Program Coordinator, and two additional administrative assistants

Contacts

- ▶ Program Director – Dr. Molly Regelman (moregelm@montefiore.org)
- ▶ Associate Program Director – Dr. Tamar Baer (tbaer@montefiore.org)
- ▶ Division Chief – Dr. Laurie Cohen (lacohen@montefiore.org)
- ▶ Program Coordinator – Daniel Garriss (dgarris@montefiore.org)

Fellowship in Pediatric Endocrinology & Diabetes at CHAM

- ▶ 6 fellows (2 per year) – fully funded for all 3 years (including those with visas)
- ▶ First year is primarily clinical (split equally for in-patient & out-patient)
- ▶ Second & third years have two half-day continuity clinics, and the remaining time is dedicated to scholarly projects
- ▶ Call schedules are split equally among the 6 fellows
 - ▶ Every 6th weekend (Friday-Sunday)
 - ▶ Every 6th week (Monday-Thursday nights)

Out-Patient Experience

- ▶ Fellows Continuity Clinic throughout the 3 years
 - ▶ Dedicated appointments for senior fellow consults (patients with rare endocrine conditions)
- ▶ Roughly 1300 diabetes visits & 3500 endocrine visits per year
- ▶ Infusion center performs stimulation testing
- ▶ Specialty Clinics within the Division of Pediatric Endocrinology:
 - ▶ Thyroid Nodule Clinic
 - ▶ TIGER Clinic (differences of sexual differentiation)
- ▶ Specialty Clinics at CHAM/Montefiore:
 - ▶ SEAD Clinic (Young Adults with Type 1 Diabetes)
 - ▶ Heart Healthy Clinic
 - ▶ Umbrella Program for Transgender and LGBTQ Youth
 - ▶ REACT Clinical Survivors of Childhood Cancer
 - ▶ Williams Clinic
 - ▶ 22q11 Clinic
 - ▶ Eating Disorder Clinic

In-Patient Experience

- ▶ Majority of in-patient time is during the first year
- ▶ Over 400 in-patient consults per year
 - ▶ Common diagnoses: diabetes and diabetes emergencies, hypoglycemia, adrenal insufficiency, hyper-/hypocalcemia, ambiguous genitalia, thyroidectomy, thyrotoxicosis

Community Outreach

Diabetes Day at the Bronx Zoo
Halloween Candy Exchange
Type 2 Diabetes Camp Weekend
School-based Health Program

Education

- ▶ We encourage fellows to be life-long learners and education is embedded in all clinical experiences
- ▶ Formal Educational Programming:
 - ▶ Core Summer Series (faculty review standards of care for common endocrine conditions)
 - ▶ Case-based Learning
 - ▶ Wellness Curriculum
 - ▶ Journal Club (current & classic literature)
 - ▶ Research Presentations
 - ▶ Neuroradiology Rounds
 - ▶ Adolescent Medicine & Endocrinology Cases
- ▶ Department of Pediatrics Research Course runs throughout 3 years of fellowship, including research design, quality improvement project design, and statistics, as well as preparation for life/employment after graduation
- ▶ Weekly Pediatric Grand Rounds
- ▶ Weekly Endocrinology Grand Rounds

Research and Quality Improvement

- ▶ Fellows start to develop projects during their first year and have protected time in the second and third year to complete projects
 - ▶ Opportunities for research collaborations at CHAM and at Albert Einstein College of Medicine
 - ▶ Recent Examples:
 - ▶ Impact of Obesity on Sleep Quality and Glycemic Control in Type 1 Diabetes
 - ▶ Endocrinopathies in a Large Cohort of Pediatric Patients with Sickle Cell Disease: A Focus on Growth and the Reproductive Axis
 - ▶ Disparities in the Response to Patients and Families to Referral for Short Stature Evaluation and its Treatment
 - ▶ Vitamin D and calcium metabolism in the MIS-C patients following COVID infection
 - ▶ Assessing the Effect of Insulin Degludec on Hemoglobin A1c in an urban population of patients with type 1 and type 2 diabetes
 - ▶ The Influence of Breakfast on Hormone Responses and Cognitive Performance, as assessed by CTET in lean and obese adolescent males
 - ▶ Creating a novel humanized mouse model for Hashimoto's thyroiditis
 - ▶ Supporting Emerging Adults with Diabetes (SEAD) Program: A model for transition
- ▶ Fellows develop their own QI Projects
 - ▶ Recent Examples:
 - ▶ STRIDE: Supporting Transition Readiness in Diabetes Education
 - ▶ Improving use of medical ID bracelets in children with diabetes
 - ▶ Reducing time to subcutaneous insulin administration for inpatients with diabetes
 - ▶ Improving post-operative monitoring and management of post-thyroidectomy hypocalcemia
- ▶ Travel to National Conferences for research presentations
- ▶ Opportunity for a 4th year Research Fellowship extension funded by the Department of Pediatrics annually
- ▶ Opportunity to enroll in Montefiore Clinical Research Training Program (CRTP)
- ▶ Opportunity to complete MPH during fellowship

PEDIATRIC ENDOCRINE FELLOWSHIP

Program Director: Kanthi Bangalore Krishna
bangalorekrishnak2@upmc.edu

Program Coordinator: Kathy Opel
Kathy.opel@chp.edu

Division Staff:
24 Faculty, 11 APPs, 14 CDCES, 5 RDs, 9 RNs, 2 SWs

We see

- ~25,000 outpatient visits per year
- ~2,500 patients within the Diabetes Program

Culture

- Friendly, warm, supportive and diverse
- Emphasis on fellow wellness and safety
- Ability to individualize tracks based on fellow-interest

Websites: [Endocrinology Fellowship](#) | [Department of Pediatrics](#) | [University of Pittsburgh](#)
DEI: <https://www.upmc.com/careers/gme/diversity-inclusion>

Program Highlights

- 3 fellows per year (10 current fellows)
Clinician Educator and Research Tracks
- First year: 1/3 inpatient, 1/3 consults, 1/3 outpatient with a 4-week research elective
- Second & third years are primarily research with some clinical responsibilities
- Multidisciplinary clinics: Gender health and DSD, Adrenal, CFRD, Thyroid Cancer, Childhood cancer survivorship, Bone health, PCOS, PWS, lipid & more
- Robust protected didactics including game-based learning, journal clubs, board review, grant-writing
- Experienced research mentors with several internal and external grant opportunities
- Robust mentored QI projects
- Diabetes Camp participation
- Diverse patient population serving a large geographical area (both urban and rural) in Western Pennsylvania and neighboring states

Pediatric Endocrinology Fellowship

UCSD/Rady Children's Hospital

Program Director

Jane Kim, MD

Associate Program Director

Marcela Vargas, MD

Division Staff

12 Faculty, 4 NPs, 5 CDEs, 18 RNs

Current Fellows

Deema Arafah, MD

Jordan Ing, MD

Alexandra Ghaben, MD

Program Highlights

- 1 fellow per year
- 1st year mostly clinical (inpatient and outpatient)
- 2nd and 3rd years: mostly protected academic time, some clinical work
- 3 pathways – research, clinical educator or clinician
- Rich clinical and research environment, strong didactics designed to allow fellows to pursue and excel in a clinical or academic career

Endocrinology Division

- Ranked #8 in the country by USNWR
- 27,000 outpatient visits a year,
- 2,000 patients with diabetes
- Multidisciplinary clinics: Gender Affirming Care, Turner Syndrome, Disorders of Sexual Differentiation, Thyroid Cancer, Neuro-oncology, Bone Health, Renal Transplant, CFRD-related Diabetes, Prader Willi
- Dedicated to outstanding patient care regardless of ability to pay

Program Culture

- Mentorship, education, support and advocacy required to support trainees across the full arc of their personal and professional development
- Uphold fellow wellness
- Collaboration and fun

Rady Children's Hospital

- Affiliated with UCSD
- Largest children's hospital in California, 6th largest in the US
- Nationally recognized for excellence in the realms of clinical, teaching, research, and public service
- Committed to diversity, equity and inclusion

San Diego

- Renowned for its idyllic climate, over 70 miles of beaches
- Outdoor activities year-round include surfing, hiking, biking, golf, kayaking
- Lively cultural and arts scene includes theater, museums, Comic-con
- Lots of family-friendly parks and attractions

For more information contact: janekim@health.ucsd.edu

UCLA Pediatric Endocrinology Fellowship

Program Highlights:

- 12 faculty at 2 clinical sites: UCLA Mattel Children's Hospital within major academic center; Long Beach Miller Children's Hospital – high volume, community-based Children's hospital
- 2 fellow training slots each year
- Flexibility to tailor schedules to individual fellows
- Breadth of opportunities for scholarly activity extending from basic science to clinical/translational science
- Welcoming and nurturing environment
- Support J1/ H1B visas
- Contact: Dennis Chia (PD), djchia@mednet.ucla.edu
