

Program Culture: our priority is to develop outstanding Pediatric ID specialists who will be future leaders in the field and to train the next generation of physician-scientists. Our Program provides an excellent clinical & research training environment for fellows, who have pursued careers in clinical Pediatric ID, ID research, Infection Prevention, Antimicrobial Stewardship, industry and more. We offer various research tracks. We offer a Combined Med-Peds fellowship, also. For details: <https://pediatrics.duke.edu/education/fellowship-programs/infectious-diseases>

Terrific Infectious Diseases Division

- Dedicated to improving the health of children by promoting excellence in the prevention, diagnosis & management of infectious diseases through clinical care, education, research and advocacy
- 16 ID faculty (MD & PhD)
- 5 current fellows (1 position for 2025 start)
- NP, RN, HIV Social Worker, ASP pharmacist, etc.
- Faculty with diverse clinical interests & leadership roles
- **Division research** in clinical, basic science, translational, industry, education & global health
- **Division faculty in Duke's:** Clinical Research Institute, Pediatric Trials Network, Global Health Inst, Human Vaccine Inst, Ctr for HIV/AIDS Vaccine, Ctr for AIDS Research, Microbiome Ctr, ABC Science Collaborative, BRAVE Kids Study, & more
- **Contact :** Kammy McGann, MD (kathleen.mcgann@duke.edu)

Program specifics

1st year: clinical training focus

- 2 inpatient consult services: General & Transplant ID; diverse patient populations
- Consults incl complicated common infections, unique presentations, & questions re: immunocompromised patients (BMT, SOT, incl multi-visceral Tx & thymic implant)
- Rotation in Microbiology, Antimicrobial Stewardship, and Infection Prevention
- Professional Development month

2nd & 3rd years: scholarly activity focus

- Multitude of research mentors & resources
- Outpatient ID & HIV clinic
- Option for advanced degrees routinely pursued by fellows (MPH, MSCR, MScGH, others)
- Combined Med-Peds fellowship
- Combined ID/Global health pathway
- Departmental Fellows Core Curriculum and Fellows Research Conference
- Beautiful new hospital

Institution Culture: Duke is a nationally-recognized academic medical center with superb clinical & lab resources, coupled with an invigorating intellectual environment. Multiple institutes & centers support patient care & research. Duke Peds ranked #1 in NIH funding among US pediatric departments. Equity, diversity & inclusion are key drivers of our excellence, accelerating our ability to innovate & solve problems.

Geographic area: Durham ranked 3rd best place to live in US News & World Report (2023-24). Diverse population. Foodie town. Triangle with 3 universities.

- Easy access to the beaches & mountains
- Affordable housing
- Durham Performing Arts Ctr (DPAC), museums, college sports, Durham Bulls, and more
- Weather allows for year round outdoor activities
- Vibrant place to live!

University of Tennessee HSC – St. Jude Children's Research Hospital

PROGRAM/INSTITUTION CULTURE

Our fellows rotate at two free-standing, nationally recognized, and state-of-the-art children's hospitals: St. Jude Children's Research Hospital—a 78-bed facility treating children with cancer, hematological disorders, and HIV infection—and Le Bonheur Children's Hospital, the 280-bed flagship teaching site for the University of Tennessee pediatric training program and the host of multiple solid organ transplant programs. We are committed to improving child health through advanced clinical care, research, and advocacy.

CURRICULUM

The program accepts two new fellows annually. We provide robust clinical training alongside research opportunities in clinical, translational, and basic sciences, quality improvement, and implementation science. Fellows can obtain advanced degrees in related sciences. Beyond comprehensive pediatric infectious disease training, we are national leaders in the care of immunocompromised patients, and fellows can elect additional experience in antimicrobial stewardship, infection prevention, transplant infectious diseases, global pediatrics and HIV.

GEOGRAPHIC AREA

Dynamic, diverse, and rich in the arts, Memphis also has great year-round outdoor recreation, a thriving food scene, terrific sports, family-friendly activities, and so much more — with an affordable cost of living that makes it easy to focus on your career goals. Learn more at: www.stjude.org/id-fellowship.

MAYO CLINIC
Rochester, MN

FACULTY and FELLOWS

Elizabeth Ristagno, MD, MSc
Program Director

Melissa Henry
Program Coordinator

- James Gaensbauer, MD, MS
- Charlie Huskins, MD, MSc
- Emily Levy, MD
- Theresa Madigan, MD
- Nipunie Rajapakse, MD, MPH
- Laura Dinnes, PharmD, BCIDP
- Christopher Reis, MD (2022-2025)
- Guyu Li, MBBS (2023-2026)

PROGRAM HIGHLIGHTS

- Small-sized program to foster close connections with colleagues with the resources of a large academic center to promote your professional development
- Faculty dedication to teaching and mentoring
- World renowned clinical microbiology laboratory, with opportunity for clinical microbiology fellowship
- Rotations include microbiology, immunology, infection control-antimicrobial stewardship-public health, in addition to clinical rotations in inpatient, clinic, and transplant
- Additional training in HIV and TB
- Generous conference travel policy
- Close collaboration with adult infectious diseases of over 30 faculty and 12 fellows
- Ability to tap into endless opportunities and resources of the Mayo Clinic, including Artificial Intelligence departments, internal funding, manuscript editing services, statistics consulting services
- Supports H-1B, J-1, and F-1 visas

PROGRAM CULTURE

- Flexible
- Customizable
- Supportive

INSTITUTION CULTURE

- #1 hospital in the nation
- "The needs of the patient comes first"
- Collaborative

GEOGRAPHIC AREA

- Comfortable and affordable city
- No traffic
- Excellent schools
- 4 seasons with a pleasant summer!
- Orchards, hiking, lakes, Mall of America

UCSF Benioff Children's Hospital San Francisco / Oakland

Faculty

- 13 Clinical Faculty
- 7 Research Faculty
- Two fellowship positions per year
- Current Fellows
 - Victoria Chu, MD (graduating)
 - Pamela Gangar, MD (graduating)
 - Juli Rodriguez MD (Med/Peds)
 - Anh Vo MD
 - Amy Davis MD
 - (incoming) Brian Alloway MD

Program

- Two free standing children's hospitals offering wide diversity in training in both general and pediatric infectious disease and immunocompromised populations
- Outpatient clinics including HIV, TB, and STI
- Individualized tracks to focus training in ASP, ICH, Med Ed, Research
- Access to research mentors across all of UCSF
- Top public recipient of NIH Grants

Program Culture

- Promote trainee wellness, and tailored training to support individual career aspirations

Institution Culture

- Equity, racial justice, and inclusion
- Cutting edge Research
- Community involvement in research and clinical programming

Geographic area/Culture

- The Bay Area is incredibly diverse!
- Some of the top restaurants in the US!
- Amazing outdoor recreation both in and around the Bay Area

DEPARTMENT OF PEDIATRICS
PEDIATRIC INFECTIOUS DISEASES AND GLOBAL HEALTH FELLOWSHIP

Program Highlights:

- Clinical experience is exceptional, with a **primary** service, a **general consult** service, and an **immunocompromised consult** service, providing care in inpatient and outpatient settings
- Fellows have a wide variety of research opportunities with nationally recognized researchers in clinical, translational and basic science research ranging from **malaria** and **HIV** to **novel diagnostics**
- Further research mentorship is provided through the **Morris Green Physician Scientist Development Program** and **T32 research** training grants
- The **IU Center for Global Health** offers fellows research opportunities with partnerships in Kenya, Honduras, Mexico, Botswana, Thailand and other underserved areas

About us:

- Large division with **12 faculty members, 2 full time pharmacists and 1-2 fellow spots / year**
- **Riley Hospital for Children** is a 354- bed **free- standing children's hospital** with the support of the nearby adult center owned by IU Health
- Indianapolis is a mid-size city with shopping, restaurants and culture, with a **low cost of living** and easy access to air travel
- Fellowship Directors: **Alka Khaitan, MD** (akhaita@iu.edu) and **Shaina Hecht, MD** (smhecht@iu.edu)

UH Rainbow Babies and Children's Hospital Pediatric Infectious Diseases Fellowship

- ***The Science of Health. The Art of Compassion.***

- We have a division of **(6) full time faculty** members with variety of research interests in global health, HIV, malaria, infection control, antimicrobial stewardship, as well as robust clinical trials participation.
- We have a full time pediatric antimicrobial stewardship pharmacist who participates on ID rounds and also strong collaboration with microbiology lab with daily micro rounds.
- We have three current fellows and we take one fellow per year through the match.
- We also have solid relationship with our adult infectious diseases division for combined med/peds fellowship training and also research mentorship.

Program Specifics:

- First year of fellowship is primarily clinical with about 6-months of inpatient service with 4-weeks microbiology elective, outpatient clinic, and research time.
- Years 2-3 have more dedicated time for scholarly work, with weekly ID or HIV outpatient clinic, as well as completion of other electives including infection control, transplant, antimicrobial stewardship, travel medicine, and ambulatory electives.
- We encourage participation in robust scholarly project completion, with guidance starting in first year to find mentor in your area of academic interest for longitudinal relationship leading to completion of work product.

Program/Institution Culture:

To Heal. To Teach. To Discover.

We believe in the importance of balance between clinical care, research, education, as well as wellness of mind and body.

UCSD PEDIATRIC ID FELLOWSHIP

World Class Clinical Training

- Unparalleled diversity in pathophysiology
- Diverse patient population
- Only Pediatrics in large catchment area
 - Largest Children's Hospital in California
 - 3rd largest Children's Hospital in the US
 - Busiest international border in the world
- Customizable and flexible clinical schedule
 - Tailored to meet fellow's career interests
- General ID, Immunocompromised ID and Outpatient ID services
- Unique clinical elective experiences:
 - Local International Rotations, Travel Medicine, HIV, Vaccines, Public Health, Global Health, STIs, TB, Refugee Intake, Infection Control, Antimicrobial Stewardship, Microbiology, Immunology, Periodic Fever, KD, MIS-C, etc.
- Outstanding Clinical Teaching/Mentorship

Welcome to the UCSD Peds ID Training Program!

Our program offers broad exposure to both common and rare pediatric infections, with an emphasis on bedside and clinical teaching, career and personal development, and opportunities to pursue learning through research or other academic endeavors. Our goal is to train future leaders in the field. We provide a strong foundation in Pediatric Infectious Diseases as well as training for an academic career. UCSD draws physicians of diverse backgrounds from all over the country and world. Our fellows are intellectually curious, passionate, dedicated to their work, supportive and adventure seeking. The fellowship program allows flexibility for tailored training experiences based on the specific interests of the fellow.

Congratulations on choosing to join the Pediatric Infectious Diseases community! We are excited to have you here at UCSD and Rady Children's Hospital and hope you enjoy your time with us. Cheers.

World Class Research

- Vast and varied academic opportunities
- Customized to match fellow's career path
- Guaranteed funding for any fellow research
- UCSD Pediatrics ranks #4 in NIH funding
 - Pediatric Infectious Diseases #1 in Department
- Major expertise in cutting-edge ID:
 - Including: Bacterial Pathogenesis, HIV, Genomics, Clinical Research, Microbiome, Pharmacology/Drug Discovery, etc.
- Collaborations with local famed institutions:
 - TSRI, Salk Institute, JCVI, LJI, SBP Discovery, UCSD CTRI, UCSD/RCHSD Institutes of Genomic Medicine, > 500 Biotechnology Companies, etc.
- Individualized tracks and mentorship:
 - Physician Scientist, Clinical Research, Clinician Educator, Public/Global Health, IC/AMS, Immunocompromised ID, other ID career paths
- Develop skillset to meet fellow's career goals

Pediatric Infectious Diseases Fellows

Mine Duzgol MD Third-Year Fellow
Ilan Rozen, MD- Second-Year Fellow
Sergio Lerma, MD- Second-Year Fellow
Sarah Meyers, MD- Incoming First-Year Fellow

Program Aims: The Pediatric Infectious Disease Fellowship Program aims to provide comprehensive and specialized training to physicians interested in becoming proficient practitioners and leaders in pediatric infectious diseases. Our program is designed to equip fellows with the knowledge, skills, and clinical acumen necessary to excel as clinicians, educators, and researchers in this rapidly evolving specialty. Through rigorous academic coursework, hands-on clinical experience, and mentored research opportunities, our goal is to foster the development of fellows adept at diagnosing, treating, and preventing infectious diseases in pediatric patients of all ages.

Program Overview:

Research Component: Fellows are expected to develop research skills and are mentored on one or more individual research projects. Each fellow has a Scholarship Oversight Committee which meets at least 5 times during the fellowship, in addition to frequent meetings with the research mentor which could be outside the division. A significant scholarly work product is completed to fulfill the requirements for completion of the fellowship.

Trainee's supervisory and patient care responsibilities: Fellows are given opportunity to supervise residents and medical students on the inpatient and outpatient clinical rotations. They assume responsibility for the patients they see in consultation under the supervision of an attending physician. The level of responsibility increases over the 3 years of the fellowship.

MEDICINE

University of Nebraska Medical Center Pediatric Infectious Disease Fellowship

Our Fellowship

- 10 faculty physicians with diverse interests in infectious diseases who are engaged in fellow education and experience.
- Med-Peds ID Fellowship available
 - 4 Med-Peds ID Faculty Physicians
- Robust consultative services at tertiary referral centers with large catchment area, including all of Nebraska and areas in 4 surrounding states provides a rich and broad ID experience for trainees.
- Fellows encouraged to pursue research of interest with strong support from faculty and mentors.
- Extensive Global Health opportunities including SÍ, an intensive individualized Spanish instruction, tailored to individual trainee language skills.

Children's Nebraska

- 225 bed free-standing pediatric hospital affiliated with UNMC
 - 26-bed PICU
 - 32-bed Cardiac Care Unit
 - Pediatric Cardiac Transplant Center
 - 52-private bed Level IV NICU

UNMC

- 38-private bed Level III NICU
- 8-bed PICU
- 16-bed Pediatric Ward Unit
- Pediatric BMT unit

Why NOT to choose Omaha, NE:

- Not enough time spent in traffic to re-evaluate your life or jam out to an entire Taylor Swift album.
- Not next to a mountain or ocean, but cost of living is low enough and we have an international airport, so we visit what we enjoy the most.
- We don't have warm weather all year long, but we take hayrides under the stars covered in blankets, build snowmen like Anna and Elsa in the winter, and watch the world bloom in the spring.
- Our scariest animal may be a cow (who by statistics are scarier than sharks), but our zoo is thriving and has 5 baby elephants who preen with excitement when bugging each other and let's not talk about the aquarium...
- We don't have a ton of retirement homes, well actually, we have some, but we do have a ton of communities full of families, young singles, and weirdly a lot of diverse restaurants to eat at...foodies beware.
- We don't really like to stick to just an urban, suburban, or rural lifestyle so instead we incorporated all three within a thirty-minute drive.
- If you made it this far you should stop by the Zoom to talk about the information on the left side of this slide.

Pediatric Infectious Diseases Fellowship program

Providing world-class, compassionate pediatric care through advanced research and discovery

Jaime G. Deville, MD

Program Director

Nelli Khatchatryan, MBA

Program Coordinator

3rd Year

Sarah Daouk, MD

2nd Year

Juan Dong, MD

1st Year

Weston Maier,

- ACGME accredited 3-year program designed to train academic physicians who are at the forefront in prevention, diagnosis and treatment of Pediatric Infectious Disease
- Wide array of career paths available to a Peds ID specialist; clinical care, infection prevention and control, antimicrobial and diagnostic stewardship, epidemiology and public health, microbial pathogenesis, immunology, vaccine development, medical education, disaster planning, and social determinants of health
- Clinically based in the Mattel Children's Hospital within the Ronald Reagan Medical Center located on the large academic campus of UCLA

PROGRAM STRENGTHS

- We are dedicated to excellence in quaternary care for children
- With the vibrant and collaborative scientific environment of the David Geffen School of Medicine at UCLA as a foundation, our goal is to foster the careers of individuals who wish to become clinical, educational, scientific, and academic leaders in the field of pediatrics
- Diverse research excellence over many disciplines is readily accessible to our fellows and has proven a rich resource for basic and translational science opportunities for our fellows here on our own doorstep

Los Angeles offers countless interests, experiences, and connections. Meet anyone, learn anything, and pursue any passion in the most colorful city in the world, a place people from all walks of life call home!

Pediatric Infectious Diseases Fellowship

Clinical Training

- General and Immunocompromised ID Consult Services
- Ambulatory Clinics: General ID and HIV
- State-of-the-art Clinical Microbiology Laboratories
- Antimicrobial Stewardship and Infection Prevention

Scholarship and Research Activities

- Protected time for scholarly activity
- Pursue advanced degrees (MSCI, MPHS, MPH)
- Our fellows pursue a wide array of scholarly activities:
 - Global Health
 - Microbial Pathogenesis and Immunology
 - Epidemiology and Antimicrobial Stewardship
 - Medical Education

Program Leadership

- David Hunstad, MD – Division Chief
- David Rosen, MD, PhD – Program Director
- Traci Christenson – Program Coordinator

Program Overview

- Two fellows accepted each year
- Combined fellowship pathways available
- 19 Pediatric ID Faculty with diverse clinical expertise and research interests
- Numerous teaching awards have been won by our ID Division faculty
- Fellows have many opportunities to teach medical students and residents

St. Louis Children's Hospital

- 455 licensed beds
- 275,000 admissions annually
- 108 pediatric residents
- 100 subspecialty fellows

University of Colorado Pediatric Infectious Diseases Fellowship Program

- 2+ fellows per year, 2 open spots in this year's match
 - In 2024-2025 we will have 6 categorical peds ID fellows and 1 med-peds fellow
 - Our peds ID fellows have diverse backgrounds and interests – the best fellows in the US!
 - Competitive residencies and fellowships, so you will be working with amazing co-fellows and colleagues throughout the hospital
- Large ID faculty with diverse research interests and opportunities for scholarship
 - >20 clinical faculty
 - Experienced mentors w/ excellent track record
 - We love our fellows
- Very diverse patient population from multiple states
 - All the pediatric medical and surgical specialists, many draw patients from out-of-state
- We are a busy consult service and you will see enough pathology to be prepared to practice independently and be competitive for jobs
- Noteworthy programs: antimicrobial & diagnostic stewardship; vaccines (policy, vaccinology, clinical trials); public health; global health; immunocompromised patients; pediatric HIV.
- Annual Conference on Pediatric Diseases in Vail!
- Part of a larger medical campus – adult academic medicine, a lot of biomedical science research on campus; medical school; public health school; nursing school; dental school; PA program; graduate biosciences

 - 1 faculty APP
 - Diverse research areas of focus
 - Basic, clinical & translational, global health, education & curriculum development
- 52 weeks clinical service (divided in 3yrs)
 - 12-18 months dedicated research
 - Electives based on individual interest
 - antimicrobial stewardship, global health, immunocompromised hosts, infection prevention, education/curriculum
 - Guaranteed funding
 - Additional funding support (conferences, etc)
 - CTSI and other formal courses available to fellows

Pediatric Infectious Disease Fellowship

The Fellowship

Kids deserve the best.

The Hospital

- 300 total beds
- 72 bed PICU with dedicated CICU
- Level IV NICU
- ECMO
- BMT, Liver, Kidney and Heart Transplant

- >600 new consults per year; >2200 visits in the outpatient setting
 - 30 subspecialties
 - 12 pediatric fellowship programs
 - 1-in-4 weeks call schedule
 - 22 residents per year

- Research:
 - Bench and clinical research
 - Syphilis, COVID-19/MIS-C, ASP, congenital infections
 - International collaborations (Nigeria, Columbia)
 - Option for masters in clinical and translational research (supported)

- Weekly and monthly ID focused activities
 - Core curriculum with other subspecialties
 - Residents and medical students teaching

Our program offers a fully funded 3-year position with emphasis on evidence-based clinical care and high-quality research in a collaborative division.

- Program specifics
 - Pediatric and Med/Peds ID Fellows
 - 6 ID Advanced Practitioners, 4 ID Nurses
 - Dedicated supports including statistician, ID pharmacist, research coordinators, and 8 administrators
 - Training in transplant ID, infection prevention & control, clinical microbiology, antimicrobial stewardship, and perinatal HIV
 - Research opportunities across Lurie and Northwestern University
 - Joint conferences and fellowship training opportunities with Adult ID at Northwestern

- Children's Hospital specifics
 - 43 fellowship programs
 - 360 beds
 - Level 1 trauma, PICU, CICU, two level 3 NICUs

We serve a highly diverse patient population across Chicagoland & Midwest!

Program Overview

- Continuously accredited program with secure funding and history of successful graduates since 1994
- One fellow trained every 3 years, allowing for schedule flexibility and focused mentorship
- Teaching medical students and residents is an integral part of the training
- Opportunity to obtain Masters Degree
- Dynamic, interactive (and fun) conferences, including a weekly case conference, research meetings, board review, multidisciplinary immunodeficiency conference, and journal clubs
- Rotations in pharmacy/ASP, infection prevention, public health, and clinical laboratories
- Departmental Pediatric Fellows Conference series
- Social activities for all fellows in the Department

Seven physicians and one nurse practitioner with >100 years of collective experience in the field

- Faculty who occupy leadership roles at local, regional, and national levels
- Nationally recognized ASP, infection prevention, and vaccine clinical research programs
- Dedicated infectious diseases pharmacist

about Peds ID at UofL:**

Inpatient

- Free-standing, 300-bed full-service children's hospital with diverse patient population
- General infectious diseases and separate transplant/immuno-compromised service
- 600 new consults/yr

Outpatient

- Unique among PID programs with sessions every day & broad range of clinical issues
- Dedicated vaccine clinic and multidisciplinary transplant clinics
- New, state-of-the-art multispecialty facility
- 1800 encounters/yr

Program Culture

2020 Division Halloween Costume

Our division's traditions: academic dialogue, collaborative decision-making, equity and inclusion, critical self-assessment, process improvement, forward vision, and investment in faculty, trainees, and staff. And we're like a family!

Institutional Culture

Almost all faculty in the Department of Pediatrics are clinician-educators. Many have robust clinical research programs and are well-recognized in their fields. There is an excellent residency training program and there are fellowships in most subspecialties. The academic milieu is open-minded and accommodating—teachers, scholars, clinicians, and NIH-funded investigators are equally valued and supported. This is a comfortable place to work.

Louisville, KY

Source: gotolouisville.com

Situated at the crossroads of the South, North and Midwest, Louisville is a medium-sized city with a unique history and culture, affordable cost-of-living, and friendly people. You are as close here to the country as you are to big-city offerings.

The spirit of the city: The Kentucky Derby; Heart of the Bourbon Trail; Louisville Slugger baseball bats; the Muhammed Ali Center; college basketball; nationally-accredited Olmstead-designed park system; progressive vision and diversity. And, of course, vibrant dining scene that includes farm-to-table restaurants, award-winning chefs and eclectic food trucks.

About Our Hospital

- US News ranked Cohen Children's among the nation's top children's hospitals for over 15 consecutive yrs.
- New York's largest provider of pediatric health services
- State's largest Level 1 pediatric trauma center
- New York's primary destination for emergency care

About Us

- Located between Queens & Long Island and half hour from Manhattan.
- 202 bed tertiary children's hospital.
- Serves a diverse population of children from NYC
- Access to NYC cultural institutions, beautiful beaches and state parks

YOU

Our Current Stars

CLEVELAND ROCKS: affordable cost of living, major sports teams, best orchestra and 2nd largest theater district in the US, free museums, green space (metroparks), and much more!

Basic science and clinical research opportunities

Statistics course through Case Western Reserve University

Dedicated statisticians to support your research

Shared “Core Curriculum” with fellows from other specialties

Outpatient clinic rotation

Community hospital and TB rotations

Perks: cell phone, great insurance benefits, free board review course, active House Staff Association with events and free/discounted tickets to sports/events

Take advantage of all our program has to offer!

“City Wide”: multi-hospital quarterly conference

Weekly transplant lecture series

Weekly Infection Prevention Conference: tours, construction, & more

Weekly Case Conference – combined adult and pediatric ID

Weekly Infectious Diseases Grand Rounds

Weekly Fellow Reading Club

Biweekly Microbiology Rounds

To apply or for more information email EWIDAA@ccf.org

THE PROGRAM

- Clinical training in a **large, tertiary care, free-standing children's hospital** ranked **#1 in the southeast by US News and World Report**
- **Two inpatient services:** General Pediatric ID and Immunocompromised Host Service
- **Two fellows per year**
- A **collaborative culture** responsive to fellow feedback
- **Recent graduates recruited to a wide array of positions**, including CDC Epidemic Intelligence Service, physician-scientists, clinical investigators, antimicrobial stewardship leadership, infection prevention leadership and general infectious diseases

THE DIVISION

- Dedicated culture of **mentorship and training**
- **Established faculty with national and international recognition in:**
 - Vaccine development, clinical trials, and safety assessment (Kathryn Edwards, Natasha Halasa, Buddy Creech, Walter Dehority, Stephanie Rolsma)
 - Antimicrobial and diagnostic stewardship (Ritu Banerjee, Sophie Katz)
 - Immunocompromised Hosts (Dan Dulek)
 - Bacteriology and Antimicrobial Resistance (Jim Cassat, Leigh Howard)
 - HIV and Global Health (Greg Wilson, Walter Dehority, Leigh Howard)
 - Coronavirology (Mark Denison)
- Active **collaborations and research opportunities with scientists across the globe**, including Peru, UK, Argentina, Mozambique, Sierra Leone and Jordan.

THE CITY

- **Two city parks:** combined nearly 6x the size of New York's Central Park

- **Professional sports:** NFL, NHL and MLS
- **Ranked #1** on "America's Best Cities for Music Scenes," top 10 for "Best Food Destinations in the US" and "Top Destinations" (Traveler's Choice Awards)

Program Faculty

Division Chief: Dr. Alice Prince

Program Director: Dr. Natalie Neu

Associate Program Director: Dr. Candace Johnson

NIH T32 training grant Co-PIs:

Drs. Alice Prince and Lisa Saiman

Other clinical faculty:

Dr. Shivang Shah

Dr. Lawrence Stanberry

Dr. Jason Zucker

Dr. Paul Sue

Jen Cheng, PharmD

Current fellows

Dr. Itay Berger (PGY 4)

Dr. Samiksha Tarun (PGY6)

Program specifics

- ✓ Multi-specialty, free standing children's hospital
- ✓ Clinical exposure to:
 - ✓ Antimicrobial Stewardship
 - ✓ Infection Prevention and Control Programs
 - ✓ Med-Surgical Infectious Diseases
 - ✓ Transplantation (solid organ and liquid)
 - ✓ Global infectious diseases
- ✓ Research: a large pool of mentors in Epidemiology, bacteriology, virology and more
- ✓ Ped ID curriculum:
 - ✓ Twice weekly didactics
 - ✓ Pediatric ID specific didactics weekly
 - ✓ Microbiology plate rounds
 - ✓ Hospital-wide fellows' program
 - ✓ Other educational experiences
 - School of Public Health masters programs available
 - Hospital Committees
 - ✓ Pediatric Diversity and Inclusion Council
 - ✓ Pharmacy

Program Culture

- ✓ Fellows designed/specific scholarly projects
- ✓ Focus on mentorship
- ✓ Focus on collaboration

Institution Culture

- ✓ Our Credo: RESPECT at NYP
Every role counts; treat everyone as a valued human being

NYPEveryday
AMAZING

Geographic/Culture

- ✓ New York City is a diverse international city. You have many options of food, museums, parks and theaters to enjoy

Our Division

- Andi Shane
Division Director
- **Andres Camacho-Gonzalez**
Program Director
- **Maddie Goldstein**
Associate Program Director
- LaTanya Alleyne
Program Coordinator
- Fellows:
 - Hikari Yoshii (3rd year)
 - Jairo Fonseca (2nd Year)
 - Diane Saint Victor (2nd Year)
 - Taylor Maturo (1st year)
 - Collin Dubick (1st year)
- 25 Clinical and Research Faculty

• Program specifics

- First year clinical, 2nd and 3rd year 90% protected for research
- 3 campuses
 - Egleston: main campus primary site)
 - Scottish Rite
 - Hughes Spalding
- Largest HIV Clinic in the Country
- Strong ties with CDC (down the road from Egleston Campus)
- Large solid organ and bone marrow transplant units
- Strong antibiotic and diagnostic stewardship teams
- One of the only pediatric hospitals with high consequence pathogen unit
- Secure salary for the three years of fellowship
- T32s in vaccinology, HIV
- Possibility of doing Master in Clinical Research (funded)
- Strong Clinical trials units: Vaccine trial unit and HIV clinical trial unit

Program Culture

- Academic excellence
- Culture of discovery and innovation
- Collaborative work
- Committed to educate the next generation of clinicians and researchers

Institution Culture

- Academic Excellence
- Climate of diversity and inclusion

Atlanta

- Why Atlanta?: Community and Vibrant neighborhoods, lots of city parks and great outdoors, affordable, great food and dining scene

Population we serve

- 54% African-American
- 10% Hispanic
- Egleston and SR: 60% Medicaid, 10% uninsured
- Hughes Spalding: >90% Medicaid
- Large refugee settlement population
- Third largest LGBTQ community in the US

Phoenix Children's

The Phoenix Children's Infectious Diseases Fellowship Program is the only one of its kind in Arizona.

We are dedicated to serving underserved communities in the Southwest.

Our graduates will provide care to children from a variety of ethnicities and social backgrounds, making a lasting impact on these communities.

Program Overview

1 Fellow Per Year – 3 Year Training Program
Pediatric ID Faculty with Diverse Research and Clinical Interests
Flexible Curriculum
Supportive and Uplifting Environment

Phoenix Children's

450+ bed free-standing children's hospital

- Fellows' educational series with formal Research, QI and Medical Education Curriculum
- Opportunity for fellows to select areas of interest for specialized rotational experiences
- Fellows will have direct interaction and mentorship with other fellows, residents and medical students. There will be both formal and informal education with these different learners. Residents are part of the Phoenix Children's Hospital Residency Program and Medical Students are from programs at University of Arizona, Mayo Clinic, and Creighton University

Program Leadership

- Wassim Ballan, MD – Program Director/Division Chief
- Scott Ostdiek, MD – Associate Program Director
- Barbara Gohre, BSHA – GME Accreditation Manager

Brief Benefits Overview

Education Assistance Program

Phoenix Children's Education Assistance Program provides eligible employees the opportunity to enhance their job skills and professional development through tuition reimbursement. \$5,250/year

Additional Benefits

- 3 wks of PTO/ 1 wk CME Time
- Free On-Site Parking
- Meal Funds (\$350/month)
- Reimbursed for Board Exam & Review Materials
- Conference travel allowance
- CME Funds- \$2500/year
- Parental Leave Benefit

Where the world comes for answers

Boston Children's Hospital Pediatric Infectious Diseases Fellowship Program

We seek to train leaders in academic infectious diseases with an emphasis on acquiring a breadth of clinical knowledge and research skills, while providing state of the art infectious diseases care to patients throughout our community and all over the world

Program Features

- Fellows are fully-funded for duration of training
- Accept 3 fellows per year
- We welcome applications from candidates seeking combined med-peds ID training, dual subspecialty training, ABP research pathways, international medical graduates
- Extensive research opportunities and mentorship across Harvard institutions
- Opportunities for coursework and masters degree programs
- Pathways including Immunocompromised Hosts/Transplant ID, Antimicrobial Stewardship, Global Health, Patient Safety and Quality Improvement, Health Services Research, Clinical Microbiology

Program Director: Tanvi Sharma, MD, MPH, FPIDS
Tanvi.Sharma@childrens.harvard.edu

Boston Children's Hospital

- Primary teaching hospital
- Over 500 beds
- 200+ specialized clinical programs and centers
- 40+ ACGME-accredited training programs, over 500 residents and fellows
