

Division of Pediatric Pulmonology

NYU Langone Long Island Pediatric Pulmonology Fellowship Program

2024-2025 Academic Year

JOHNS HOPKINS

CHILDREN'S CENTER

Pediatric Pulmonology

Program Culture: We pride ourselves on providing broad clinical, research, and educational experiences for our fellows, all of which are personalized to meet the fellow's needs. Our program is fellow-centered and always striving to be best with frequent feedback from our fellows.

PEOPLE

- 10 faculty in Division
- 2 new fellows per year
- Program Director: J. Michael Collaco mcollac1@jhmi.edu
- Program Coord.: Teresa Milligan tlusco@jhmi.edu

Baltimore, Maryland: Johns Hopkins is located in the Mid-Atlantic region with amazing cultural, culinary, and recreational scenes. Between Baltimore and nearby Washington DC there are numerous employment and training options for significant others.

PROGRAM OVERVIEW

- 3 year fellowship funded by the NIH
- Diverse inpatient and outpatient clinical experiences with elective time
- Multiple opportunities for mentored research projects (basic science, clinical, etc.)
- Structured educational program, including training in public health
- Assistance in career development
- Global health program

Clinical Specifics

- Pulmonary service at a quaternary center
- Acute and subacute consult services
- Fellows' continuity clinic
- Cystic fibrosis center (only one in the state)
- Sleep clinic and program
- Severe asthma clinic
- Bronchopulmonary dysplasia clinic/consults
- Congenital diaphragmatic hernia clinic
- Aerodigestive clinic/procedures
- Neuromuscular clinic
- Interstitial lung disease/immune clinic
- Exercise study laboratory
- Electives (ENT, pulmonary hypertension, lung transplant, tobacco cessation, diaphragmatic pacer, interventional bronchoscopy, advocacy)

Pediatric Pulmonology Fellowship

Maria Fareri Children's Hospital at Westchester Medical Center

- Largest Peds Pulm Division in the region
- 18 Pediatric Pulmonologists, 5 Allergists
- 4 Peds Pulmonary Fellows
- Exclusive support staff – RTs, SWs, RDs, RNs in the Division
- Large Cystic Fibrosis Center
- Accredited PCD Center
- Severe Asthma Center
- Integrated Allergy/Immunology
- Sleep Medicine
- Interventional Bronchoscopy Elective
- Rotation at Children's Rehabilitation Center
- Maria Fareri Children's Hospital
- Only quaternary referral children's hospital in the lower Hudson Valley
- New York Medical College
- Children's Environmental Health Center of the Hudson Valley
- Opportunity to work towards Masters in Public Health during fellowship
- Collaborative Research: Basic science, clinical, translational, quality improvement, public health
- Graduates now working all over the country

Location:

- Beautiful wooded campus in Westchester, NY
- 25 miles from New York City

Children's National Hospital in Washington, DC

- Faculty, Fellows and Staff: 15 faculty (13 physicians and 2 clinical psychologists), 4 advanced practice providers, 6 current fellows (2 fellows per year), social worker and nutritionist
- Program Structure: Inpatient service – 12 months (6 - pulmonary inpatients and 6 - consults) over the 3 years of training and 1 day of clinic/week
- Clinical Programs: Severe asthma, Cystic Fibrosis Center, Pediatric Sleep, Neuromuscular Disorders and Chronic Ventilation. Severe Bronchopulmonary Dysplasia, Aero-digestive, Sickle cell Disease, Advanced Lung Disease and Lung Transplant Program
- Research: New Research and Innovation Campus with opportunities for basic science, translational and clinical projects; Quality Improvement projects
- Didactics: Daily conferences with weekly national and international guest speakers
- Other opportunities: Masters of Public Health at the Milken Institute School of Public Health, Master Teacher Leadership Development Program at George Washington University School of Medicine and Health Sciences
- Contact: Program Coordinator: Sherida Chappell, 202-476-3521, schappel@childrensnational.org; Program Director: Iman Sami, MD isami@childrensnational.org; 202-476-5718; Associate Program Director: Parisa Kaviany, MD, pkaviany@childrensnational.org;

PLAYBILL®

New York Presbyterian Columbia University Irving Medical Theater

CHONY Peds Pulmonary the Musical featuring:

- Diverse patient population
- NYC's largest pediatric CF center
- Outstanding research mentorship and opportunities
- Multidisciplinary outpatient clinics
- Pediatric PFT, exercise and sleep labs
- Individualized curriculum design for each fellow
- Inclusive environment with a diverse workforce

Housing and parking available • \$180 monthly food stipend • \$2000 yearly Lyft pass
PGY4 \$99,800 • PGY5: \$103,200 • PGY6: 105,000

Program Director
Dr. Aliva De

Division Chief
Dr. Stephanie Lovinsky-Desir

Geographic area/Culture

- Town of “Meds and Eds”
- World-Class Dining
- Sports, museums, rich history
- Affordable living in the city or the burbs
- Walkable/Bikeable, easy to own a car, good public transit

Program specifics

- Flexibility with curriculum tailored to fellows’ growth and learning
- 50% Protected time in the first year for scholarly activity
- Formal training opportunities at UPenn
- T32 Funding opportunities
- Abundant clinical opportunities inpatient and outpatient
- Interventional bronchoscopy
- Lung Transplant

Program Culture

Fellow-centered program with a strong emphasis on achieving a balance between clinical training and scholarly pursuit. Provides broad clinical exposure ranging from common pulmonary diseases to highly specialized, multidisciplinary care of rare disorders.

Institution Culture

Develop leaders in clinical, academic, and community medicine through active recruitment, career development, mentorship and social opportunities by fostering inclusivity and ensuring equitable access to care.

SCHOOL OF MEDICINE Pediatric Pulmonology

Why choose UNC for your pediatric pulmonology training?

Our fellows learn (and teach)

With over a dozen faculty with diverse expertise in CF, PCD, ILD, BPD (and more), our fellows learn from nationally recognized experts. Fellows help lead our inpatient team and teach residents and students

Fellows practice in multi-disciplinary clinical centers provided specialized care, including:

- **Bronchoscopy:** 500-700 annually including intubations, brush biopsies, and more
- **Cystic Fibrosis:** One of the largest centers in the U.S., follows over 300 children with CF.
- **PCD:** Leading PCD Clinical and Research Center
- **ILD:** Part of chILD network
- **BPD:** Part of BPD Collaborative
- **NC Children's Airway Center:** Multi-disciplinary care with ENT, pulmonary, sleep medicine, speech therapy.
- **UNC Children's Allergy & Asthma Center:** NC's only comprehensive asthma center

Our fellows do great research

Current fellow projects

- Prevention of pneumonia in children in Malawi
- Clinical research trials in asthma
- Effects of modulators on lipid metabolism in CF
- Microbiology of patients with tracheostomies
- Multicenter study on genetics and therapeutics in PCD
- Multicenter quality improvement research in CF
- Use of artificial intelligence to diagnose ILD in Infants
- Impact of modulators on mental health in CF

Fellows work with top research centers including

- **Marsico Lung Institute:** One of the most academically productive basic and translational science institutes for CF and other pulmonary diseases
- **Center for Environmental Medicine Asthma and Lung Biology:** Expertise in nicotine and other human exposure studies
- Many opportunities with **School of Public Health, Global Health Program, Institute for Healthcare Quality Improvement, Clinical Masters Program** and more

Our fellows go places

Recent graduates have accepted positions at top academic centers, military institutions, private practice, and more.

Other program highlights

- Flexibility in schedule to meet career goals
- Ample division nursing, RT, and NP staff support
- Strong support of families and fellow well-being (100% reported high satisfaction with program and that they would choose this program again on most recent ACGME survey)

Contact information:

- Supportive, collegial and inclusive faculty with diverse interests
- Well resourced multidisciplinary teams
- Work-life balance

- Combined academic strengths of UTSW with broad clinical training ground of CMC Dallas
- CMC Dallas is one of largest pediatric healthcare providers in the nation
- Large regional center with diverse and expanding patient population
- Career development with 1:1 faculty mentor
- Bronchoscopy simulation curriculum
- One of 25 pediatric fellowship programs
- Flexibility in curriculum to accommodate individual interests
- Possibility of masters or graduate certificates in education, public health or sleep fellowship
- Clinical programs include
 - CF center
 - Chronic respiratory failure vent program
 - Neuromuscular program
 - Aerodigestive
 - Primary Ciliary Dyskinesia
 - Difficult to treat and severe asthma
 - Sickle Cell Disease
 - Sleep Center

- Integration of biomedical research opportunities with clinical care and education
- > \$500 million in annual funding
- > 20 members of the National Academy of Sciences
- > 1,400 clinical residents

Dallas-Fort Worth Metroplex

- One of the fastest growing US cities
- Top destination for young professionals and families
- Reasonable cost of living
- Diverse population
- Two major international airports in central part of the country

Mass General Brigham Mass General for Children

Flexible, individualized curriculum – tailored to fellow's interests

WHERE WE ARE

WHAT WE DO

Rotation	1 st Year(weeks)	2 nd /3 rd Year (weeks)
Inpatient	24	8
Outpatient	12	2
Scholarly Activity	8	38
Pulm Lab / Sleep	2	-
PICU	2	-
Elective opportunities: Interventional Bronchoscopy (UCSD), Sleep Medicine, Cardiology, Intensive Care		

OUR MISSION

Nourish our fellows' passions for medicine and life

Train fellows to provide compassionate care for children and families affected by the breadth of respiratory diseases

Mentor fellows to participate meaningfully in scholarly work and research

Support each fellow as a person, from day one to graduation and beyond

Strive for Justice, Equity, Diversity and Inclusion in our community

Rady Children's Hospital San Diego - the LARGEST children's hospital in California, and one of the largest in the country

Broad catchment area - patients from urban, suburban and rural environments from all socioeconomic, religious, and cultural backgrounds

"America's Finest City"

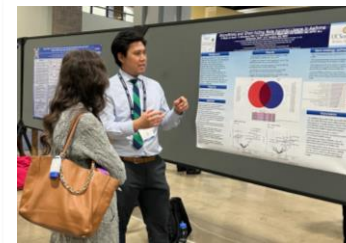

UCSD is one of the leading biomedical research institutions in the world!

Fellow Research Projects

MicroRNA in Children with Increased Bronchodilator Usage
Genetic Influence on Sweat Chloride Variability
PAP adherence in Duchenne muscular dystrophy
Metagenomic sequencing and host response in the aerodigestive population

Our Fellows Have Participated In:

UCSD Global Health Master of Arts
UCSD Clinical Research Enhancement through Supplemental Training Program
Combined Adult – Peds Fellowship
AMSPDC Pediatric Scientist Development Program

About Us

We believe in the right balance of challenge and support to develop well-rounded, exceptionally trained pediatric pulmonologists who can excel in any clinical environment and advance the field through patient care, education, or scholarship. We instill a growth mindset and nurture our fellows to achieve their career goals in an academic environment full of learning opportunities.

MICHIGAN PEDIATRIC PULMONOLOGY FELLOWSHIP

Program people

- Two fellowship slots per year
- 11 pulmonologists
- 5 nurse practitioners

Program specifics

- # 1 children's hospital in Michigan
- Global health elective in Egypt
- Concurrent Masters degree in Clinical Research, Bioinformatics, others
- Concurrent Scholars Programs: medical education, healthcare administration, healthcare disparities
- Opportunities for blended training (pulm-sleep, pulm-hospitalist, pulm-critical care)
- Many clinical programs: asthma, CF, home ventilator, PCD, bronchoscopy, ChILD, aerodigestive, pulmonary hypertension, others
- Innovative bronchoscopy simulation training
- NIH-funded research mentors

Program Culture

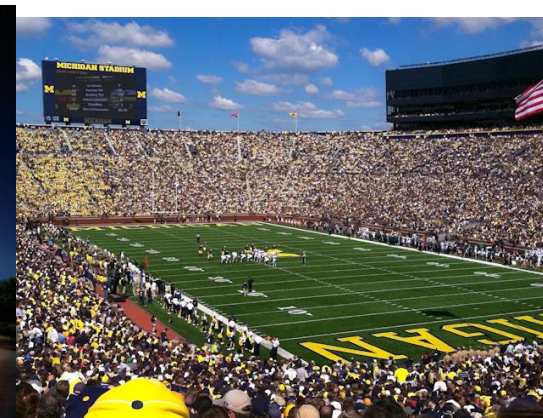

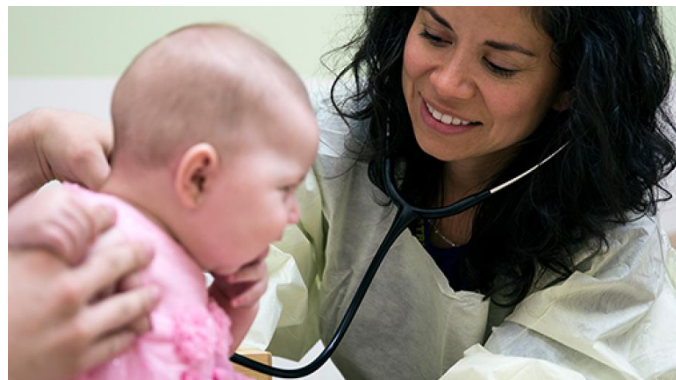

- Commitment to developing personalized training pathways

Institution Culture

- Diversity, equity and inclusion are strongly valued

Geographic area

- Ann Arbor is consistently voted one of the best places to live in the US

University of Texas Health Science Center at HOUSTON

Pediatric Pulmonology Program # 3304821056

Program Specifics

- Training in the Texas Medical Center (TMC), the largest medical complex in the world
- We accept 1-2 fellows / year
- Multicultural, multinational, diverse faculty & staff
- 100% ped pulm board pass rate on first attempt for all graduates
- Customized curriculum and didactic lectures to accommodate fellow needs and career aspirations
- Grant funded research and courses to enhance fellow scholarly project development
- Individualized faculty mentorship for clinical and scholarly development
- Pulmonary hospital consultation service at a large children's hospital with a diverse patient population and wide variety of respiratory disorders
- At-Home pager night call
- Weekly half-day continuity clinic
- Monthly pulm subspecialty clinic: bronchopulmonary dysplasia, rare lung disease, congenital diaphragmatic hernia, sickle cell-pulmonary, pulmonary hypertension, and more
- Diagnostic tool utilization and study interpretation: cardiopulmonary exercise test, impulse oscillometry, nasal nitric oxide, video microscopy, airway endoscopy and other procedures

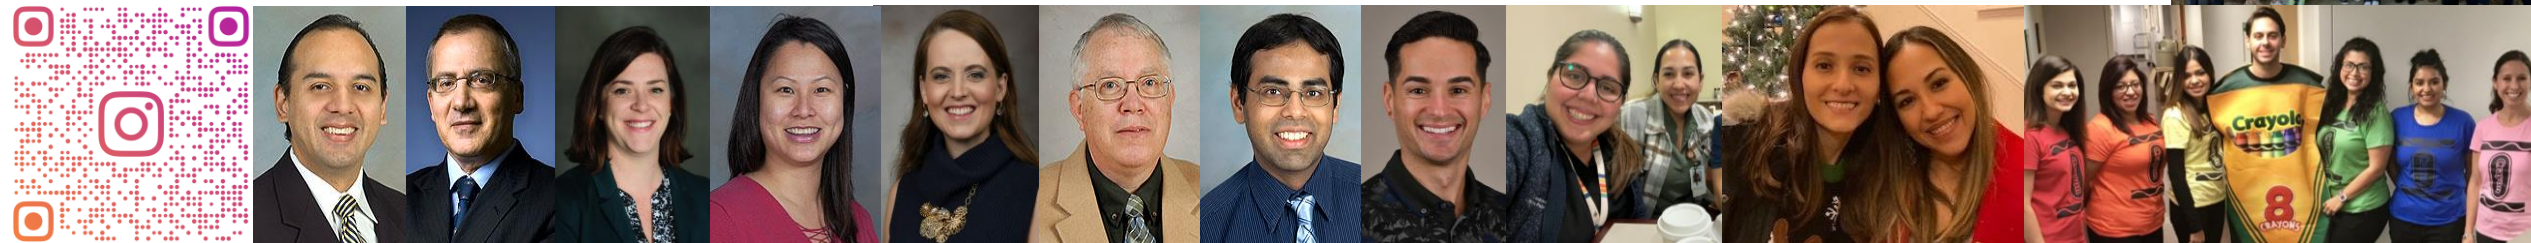

Program Culture

- Deliver compassionate care to diverse patient populations
- Promote interprofessional collaboration and success
- Mutual respect and support in a 'work family' environment

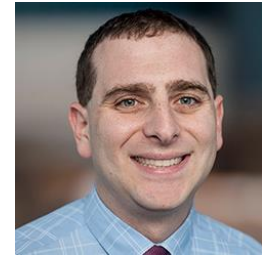

Houston, Texas

- 4th largest city in US
- Multicultural population with diverse opportunities for events, shopping, and restaurants
- Relatively low cost-of-living with housing available near TMC
- Many activities, events, & parks that improve work-life balance

Associate Program Director

Laura Ellington, MD MS

Program Coordinator

Becca Smith

Mission Statement:

"Train pediatric pulmonologists from diverse backgrounds to be skilled clinicians with a foundation in physiology, critical thinkers, avid teachers, and who improve care via scholarship and programmatic development"

Equity, Diversity and Inclusion:

- Highly committed to creating an environment inclusive to all people, patients, and families regardless of background or life experiences
- EDI training curriculum includes seminars, lectures, and dedicated journal club topics
- <https://sites.uw.edu/uwgme/equity-diversity-inclusion/>

Climate Pledge Arena/Downtown Seattle

Pod of Orcas and View of Mount Rainier

Program Highlights:

- An "academic playground" that prioritizes flexibility based on individual interests
- Culture of collaboration, curiosity, and support
- Robust physiology core curriculum + weekly didactics
- Internationally renowned faculty mentors and leaders
- Integrated professional development curriculum
- Subsidized coursework for research training
- Conference & travel funds
- Fellowship retreat and wellness activities
- UW Housestaff Union benefits & Seattle Children's perks: Free meals, wellness services, childcare support, free parking

Clinical Highlights:

- Inpatient service: 18 weeks Year 1, 8 weeks each Years 2/3
- Night call: Weekend night coverage when on service only; Weeknights 1-2/month when not on service
- Weekly continuity clinic on Main Campus
- Sleep rotation (4 weeks), CICU (2 weeks), Aerodigestive bronchoscopy days (3+/year)
- Wide breadth of sub-specialty clinics & regional sites
- Unique WWAMI clinical exposure + outreach opportunities in Alaska and Eastern WA

Largest pediatric pulmonary practice in Chicago and ranked 19th nationally by US News & World Report

 **Northwestern Medicine**
Feinberg School of Medicine

Three-year ACGME program, accepting one new Fellow each year. Apply through ERAS.

L to R: Henry Schmidt, MD (3rd year Fellow), Janaki Paskaradevan, MD (APD), Patricia Martin-Hoyt, MD (1st year Fellow), Avani Shah, MD (PD) and Danielle VanBeckum (2nd year Fellow)

360 bed tertiary & quaternary care center with over 20 pediatric subspecialties. Some annual numbers:

- Over 239,400 patients served
- 300+ Bronchoscopy
- 4,700+ PFTs
- 2,400+ Sleep studies

8 Pulmonary & 5 Sleep faculty

Robust Pulmonary subspecialty clinics for:

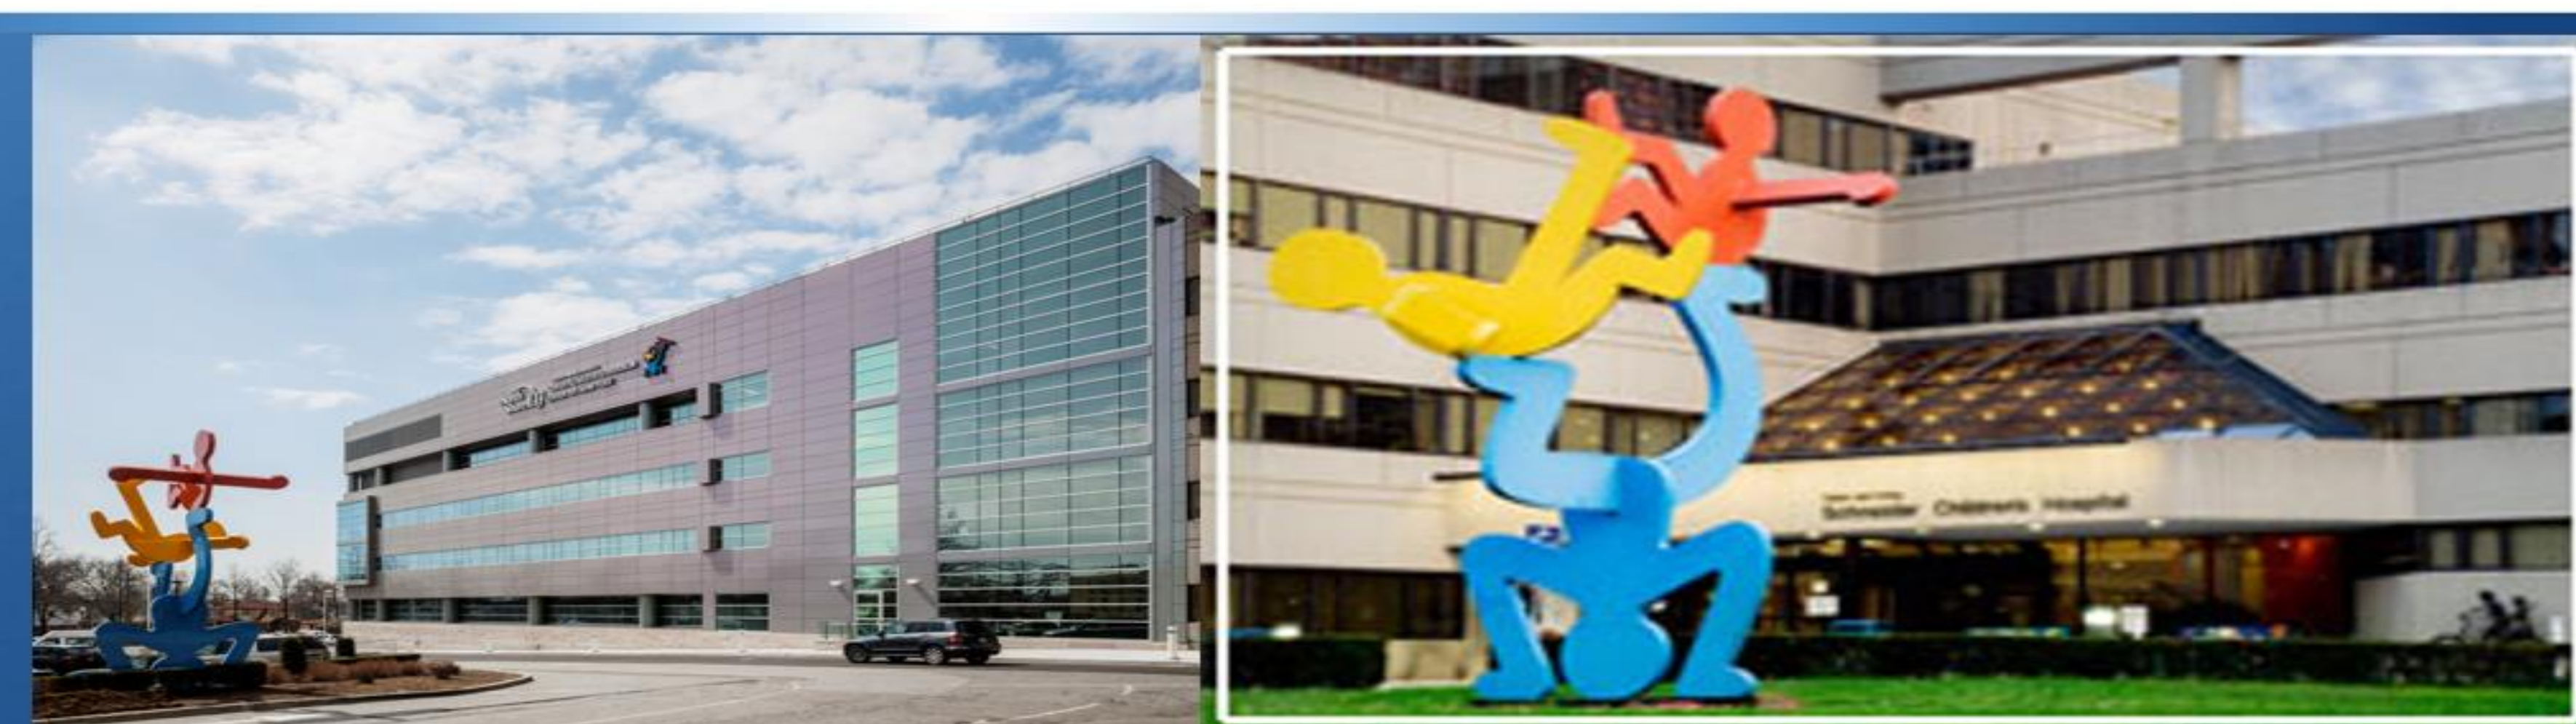

- High Risk Asthma
- Cystic Fibrosis
- Aerodigestive Disorders
- Neuromuscular Disorders
- Primary Ciliary Dyskinesia
- Pulmonary Habilitation (Trach/Vent)
- Pulmonary Hypertension

- A collaborative, supportive, in-depth, multi-disciplinary **training environment**
- Basic science, translational, health disparity and clinical **research** with funded faculty mentors and state-of-the-art Simpson-Querry Biomedical Research facility
- Located in **downtown Chicago**, and serving a diverse patient population from the metro area and around the world
- **Master's program** opportunities through Feinberg School of Medicine

Fellowship Overview

- 2 fellowship positions/year
- ACGME Accredited Program
- Combined adult/pediatric pathway option
- 18 faculty with diverse clinical and research interests
- Culture of collegiality and camaraderie

Clinical Training

- #3 ranked pulmonary program in USNWR**
- Large inpatient & consult services, weekly fellow continuity clinic
- Multidisciplinary Cystic Fibrosis Center caring for ~450 pediatric and adult patients
- Subspecialty clinics including neuromuscular, sleep, transplant, aerodigestive, sickle cell, severe asthma, ILD, PCD, infant CF
- Elective opportunities including allergy, palliative care, pharmacy, ENT, pulmonary hypertension, and more!
- Introductory bronchoscopy course and an abundance of opportunities to perform bronchoscopies- average of >100 procedures by completion of fellowship

Nationwide Children's Hospital

- 2nd Largest Children's Hospital**
- #6 US News and World Report (2023-24)
- Top 10 NIH Pediatric Research Funding
- National Leader in Safety and Quality Research
- Named one of *America's Best Employers* by Forbes
- >1.7 million outpatient visits per year
- Additional hospital tower opening in 2028
- Large, esteemed pediatric and pediatric/IM residency training programs
- 48 pediatric medical subspecialty fellowship programs

Columbus, Ohio

- Capital of Ohio and home to The Ohio State University
- 14th largest city in US and growing
- Population of 2.4M people in metro area
- Low cost of living (8% below the national average)
- Metro parks, riverwalk, shopping, sporting events, concerts, and restaurants galore!

Benefits

- Generous relocation stipend
- Reimbursement for ABP exam and professional memberships
- Ohio medical license reimbursement
- Funding for all fellows to travel to at least 1 national conference/year

YaleNewHavenHealth

Yale New Haven Children's Hospital

Program aim: *To train physicians to become future leaders in pediatric pulmonary medicine who will improve and transform care through scholarship and the practice of evidence-based, humanistic medical care with the goal of reducing disparities and achieving equity in respiratory health for all.*

Highlights:

- Diverse patient population with wide array of respiratory conditions
- Four scholarly pathways (medical education, QI, global health, and investigative research)
- Specialty clinics: CF, asthma, aerodigestive (including BPD and technology dependent children), sleep, neuromuscular, allergy immunology, TB clinic)
- Plenty of exposure to flexible bronchoscopies
- Access to world class innovative research mentors
- Access to advanced training (e.g. MPH, MEd, MHS)
- Best pizza in town!

What our amazing fellows are doing:

- Quality improvement, basic/translational science in CF, climate change research and advocacy, pursuing a masters in education.

Program Goal: To train the next generation of academic pediatric pulmonologists to be excellent clinicians, educators, and physician-scientists within an inclusive, collegial and supportive environment.

Clinical

Outpatient:

- Weekly Fellows continuity clinic

Bronchoscopy

- Multidisciplinary complex airway procedures
- Funded training course
- Simulation lab

Multi-Specialty & Collaborative Programs

- Cystic Fibrosis Center
- Aero-Digestive
- Severe Asthma Program
- Technology Dependent
- BPD
- Pulmonary Hypertension
- Neuromuscular Disease
- Fontan Follow Up
- Pediatric Sleep
- Rare/Diffuse Lung Disease
- PCD

Inpatient

- 244 Inpatient beds
- Family centered, team based multi-disciplinary patient care

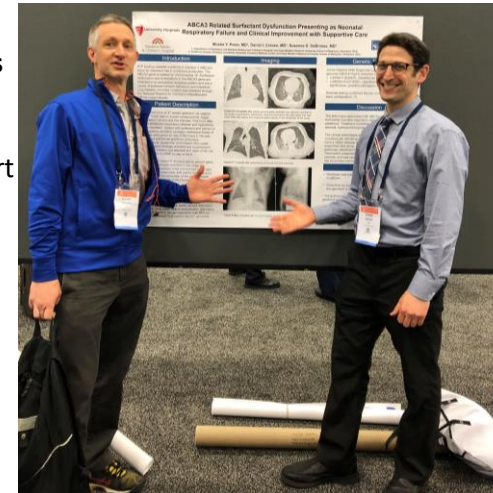

Scholarship

Research projects tailored to Fellows interests and career goals

- Clinical: QI, Population Health, Health Disparities, Database Cohort
- Medical Education
- Basic Science
- Advocacy, Leadership
- Global Health
- Bioethics

Education

- 3- year didactic curriculum
- New fellow summer bootcamp
- Weekly case conference
- Monthly mentored journal club
- QI curriculum
- Research seminars
- Technology dependent series
- Electives personalized for each fellow based on their interests
- Fellows are the "Primary Pulmonologist" for their clinic patients including CF, severe asthma and ventilator dependent.

Our Fellows:

- Are diverse, friendly & supportive

Accomplishments include:

- Academic publications
- Regional and national presentations
- Research grants
- Leadership career positions

Our Mission and Aims:

- 1: To provide outstanding **clinical and procedural training** experience on pulmonary inpatient, outpatient, and consult services at Children's Hospital Colorado and related training sites to deliver the highest quality, patient centered, safe, and comprehensive care for pediatric patients and families.
- 2: To provide exceptional opportunities for fellows in clinical, translational, basic, outcomes, quality improvement, or educational **research** to prepare for successful academic careers.
- 3: To establish a **career development** plan, including training and connection to leadership and advocacy opportunities, to guide fellows in establishing and reaching individual professional goals and objectives.
- 4: To teach trainees strategies to maintain **wellness** (of self and others), to build **resilience**, and to promote **diversity, equity and inclusion**.

Current fellows (L → R): Molly McCoy, MD, Angela Metcalf MD, Emily Skeen, MD, Cristy Giles, MD, Lilah Melzer, DO, Kamyron Jordan, MD, Katie Enzer, MD (front)

Our Pediatric Pulmonary and Sleep Medicine Section comprises **30 physicians, 19 APPs, 9 PhDs, and 7 fellows**. Photo: Cotton Conference Annual Research Meeting & Retreat

Emory University

Pediatric Pulmonology Fellowship Program

EMORY
UNIVERSITY

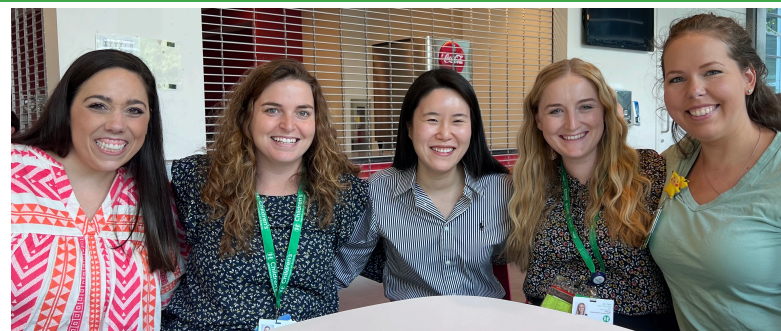

Children'sSM
Healthcare of Atlanta

- Dawn Simon, MD
Chief
- Eric Price, MD
Program Director
- Sheel Shah, MD
Associate Program Director
- Katherine Price Farmer, MS
Program Coordinator
- >25 Pediatric Pulmonologists
across 2 hospital campuses
- 2 Pediatric Pulmonology
Fellows per year

Program specifics:

- 300-bed teaching hospital
- 10-bed Technology ICU
- 36-bed Pediatric ICU
- 26-bed Cardiac ICU
- 45-bed Neonatal ICU
- 12-bed Sleep lab
- State of the art pulmonary function lab, bronchoscopy and endoscopy suite
- Fellows will perform ~100 bronchoscopies by the end of fellowship
- Large ambulatory center (Center for Advanced Pediatrics)
- 2nd largest cystic fibrosis population in the country
- Over 250 Technology dependent patients
- Large Hematology/Oncology program including sickle cell disease and Bone Marrow Transplant program
- Hospital and many subspecialties consistently rank in Top 20 USNWR

Separate inpatient and consult services:

Inpatient service includes general pulmonology, cystic fibrosis, and technology dependent patients. Typically this service has 15-20 patients and the fellow will work in collaboration with an advanced practice provider (APP), resident, and attending physician.

Consult service includes wide variety of medical diagnoses, typically 30-35 active patients list. Fellow works in collaboration with APP and attending physician. Fellows perform bronchoscopies while on consult service.

Research Opportunities:

- Abundant scholarly opportunities including translational, basic science, quality outcomes research
- FiRST (Fellowships in Research and Science Teaching) program introduces research resources for new fellows
- Fellows have been awarded Cystic Fibrosis Foundation Fellowship Grant each year for the last 6 years

New Arthur M. Blank Hospital

- Opening September 29, 2024
- 446 bed teaching hospital
- 24-bed Technology ICU

Geographics:

Atlanta, GA is a diverse, cosmopolitan, hospitable, tree-filled city of over 5 million people with seasonal climate suitable for nearly year-round outdoor activities.

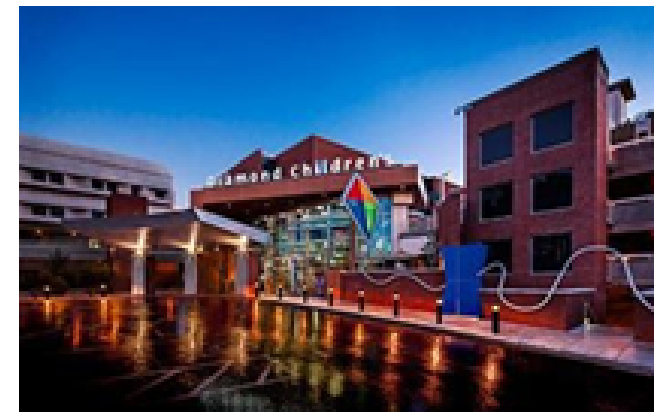

COLLEGE OF MEDICINE TUCSON
Pediatrics

Pediatric Pulmonary Fellowship

Located in beautiful Tucson, Arizona

<https://peds.arizona.edu/division/pulmonology-allergy-and-immunology>

- Faculty: 5 Pediatric Pulmonary Physicians & 1 Pediatric Sleep Medicine Physician
- Clinical: Asthma, cystic fibrosis, apnea and sleep medicine, respiratory home care including chronic ventilator management, lung function assessment, pulmonary anomalies, diagnostic laryngoscopy and bronchoscopy, pulmonary function testing, pediatric polysomnography, exercise testing
- Spanish distinction track available
- Education: Didactics, journal club, board review, fellows attend a bronchoscopy course, MCHB Pediatric Pulmonary Center
- Research: Mentors from multiple disciplines available to guide projects in the Dept of Pediatrics and the Asthma & Airway Disease Research Center (<https://airways.uahs.arizona.edu>)

Stanford University Program Stanford Health Care-sponsored

Program Leadership:

MyMy Buu, MD

Caroline Okorie, MD, MPH

John Mark, MD

Marifin Besona,
Coordinator

Current Fellows:

- Trang Dinh, MD
- Jean Lee, MD
- Kalen Hendra, MD
- Jeff Ni, MD
- Krystal Jin, MD

Training Program: 36 months

Clinical Training

- 12-16 months
- 24 weeks overnight call
- Clinical Programs:
 - Aerodigestive
 - BPD/Pulm HTN
 - Cystic fibrosis
 - Integrative medicine
 - Interstitial lung disease
 - Lung transplant
 - Neuromuscular disease
 - Primary Ciliary Dyskinesia
 - Sleep

Scholarly Training

- 17-21 months
- Scholarly projects include: Basic, Translational, Medical Education and Health Sciences, Global Health

3 months vacation

<https://med.stanford.edu/pedpulmonary>

Program Culture

- Fellow education/training prioritized
- Mentorship for careers in academic pediatric pulmonary medicine
- Explore diverse areas of research
- 21+ faculty members, + NP/PA, RN, RT, RD, MSW, PharmD, PT, MA, Child Life, Psych

Institution Culture

- Free standing children's hospital on academic campus
- Bring science and medicine together for clinical, translational and bench discovery
- Education support infrastructure in Dept of Peds, GME, School of Medicine for 128+ fellows in 22 pediatric fellowship programs

Geographic Area

- Silicon Valley/San Francisco Bay Area in Northern California
- Diverse population – ethnic, cultural, socioeconomic
