

Pediatric Rheumatology Fellowship

Contact [Angela Byun Robinson](#), Program Director, or [Laurie Staltari](#), Fellowship Coordinator, via these links

- **Faculty, Fellows, and Staff**
 - 5 attendings
 - New program – up to 3 fellows, 1 per academic year
 - 1 nurse coordinator, social worker
- **Program Specifics**
- **Clinical Sites**
 - Cleveland Clinic Children's main
 - Family Health Centers
 - Cleveland Clinic Children's Hospital for Rehabilitation
- **Academic Sites and Oversight**
 - Campus with multiple professional schools and large tertiary care hospital, committed to diversity, equity, and inclusion
 - Cleveland Clinic Lerner College of Medicine and Department of Pediatrics
 - Adult Rheumatology ranked #3 in country in US News, robust adult fellowship program
 - Graduate Medical Education office
 - Department of Pediatrics fellowship oversight
- **Program Structure**
 - Full funding for all fellows, Workforce Expansion Grant
 - 1st year primarily clinical with 1 mo research and 1 mo elective, 2nd and 3rd years primarily research with continuity clinic
 - Multiple weekly academic and case conferences with adult rheumatology, peds dermatology, immunology, and radiology
 - 2 faculty US SONAR certification
 - Members of CARRA, PENTA, and collaboration with Sick Kids

- **Program Culture**
 - Collaborative life-long learners
 - Devoted to patient-centered care for rheumatological diseases
 - Evidence and experience-based teaching
 - Training tailored to career goals
 - Clinical, educational, and bench research available
- **Hospital Culture**
 - Large quaternary care referral center
 - Urban, suburban, and rural Amish populations
 - International referrals and 3rd opinions
 - Committed to patient, faculty, staff, and trainee wellness
- **Geographic Area:**
 - Cleveland – urban/suburban low cost of living
 - Metroparks system
 - 4 season weather
 - Cavaliers, Guardians, Browns sports teams, Cleveland Orchestra and Cleveland Museum of Art are within walking distance of hospital

UNIVERSITY of
ROCHESTER
MEDICAL CENTER

Golisano Children's Hospital

Pediatric Rheumatology Fellowship

A low trainee to faculty ratio allows for strong faculty interaction and guidance

Individualized and Flexible Curriculum

- Three-year ACGME-accredited program.
- We emphasize professional and personal balance.
- Within the requirements of the program, we can modify fellow training to accommodate individualized needs and strengths, as well as hone learning to support a fellow's specific professional interest.

Interdisciplinary Research Opportunities

- Fellows receive a high level of guidance from faculty in developing their clinical and research skills.
- We foster fellows' unique interests and future career goals, engaging them in scholarly activities in a variety of fields as they perform clinical, bench, or translational research and/or pursue graduate education.
- Pediatrics has a well-established tradition of interdisciplinary collaboration within the Medical Center and across the University of Rochester.

URMC offers 95% tuition waiver for fellows who choose to pursue Master's Degrees

We offer a 4-year Combined Curriculum for fellows who are med-peds trained

Subspecialty and Complex Care Experiences

- Fellows obtain a vast amount of clinical experience due to the volume and diversity of patients.
- Fellows have opportunities to directly participate in a variety of subspecialty experiences, including the newborn nursery, pediatric intensive care, pediatric emergency medicine, palliative care, and child abuse.
- Fellows gain exposure to children with complex chronic conditions.

Living in Rochester

- Third largest city in New York
- Offers array of cultural and recreational activities
- Cost of living is significantly below the national average
- Close proximity to Finger Lakes region

HOSPITAL FOR SPECIAL SURGERY

Welcome to Pediatric Rheumatology!

Located in NYC!

- **Clinical Training**
 - Pediatric referral center
 - Specialized musculoskeletal hospital
 - Pediatric infusion unit
- **Didactic Program**
 - Robust didactic program
 - Divisional and departmental conferences
 - Multidisciplinary conferences and collaboration
 - Immunology, epidemiology, research didactics
- **Scholarly Activity**
 - Clinical, Translational, Basic Science opportunities
 - Option to pursue graduate training
- **Quality Improvement**
 - Divisional projects, monthly QI conference
- **2023 Graduates**
 - University of Wisconsin – Madison
 - Hospital for Special Surgery

Fellows (2023-4):

Alisha Akinsete, MD
Jheel Pandya, MD
Megan Crippen, MD
Caitlin Ensor, MS, MD
Marissa Dale, MD

Faculty:

Karen Onel, MD – Division Chief
Alexa Adams, MD – PD
Nancy Pan, MD
Lauren Robinson, MD
Sarah Taber, MD
Theresa Lu, MD PhD
Theresa Wampler Muskardin, MD

Program Structure

- 1st year primarily clinical with 4 weeks [research](#) time; 2nd & 3rd year chiefly [research](#) with continuity clinic
- Multiple weekly academic & case conferences, some shared with adult rheum faculty & fellows

Program Culture

- Collaborative & fun life-long learners
- Devoted to patient-centered care for common & rare rheum disorders
- Providers of quality care & telehealth for remote & underserved families
- Outpatients scheduled with fellows (not faculty) as primary provider, allowing for longitudinal relationships
- Evidence & experience-based teaching
- Training tailored to fellow career goals

Hospital Culture

- Large quaternary care referral center: patients, many rural, from 7 states
- Committed to patient, faculty, staff & trainee wellness: medical dogs, Halloween festivities, provider lounge

Geographic Area

- Denver & Aurora: restaurants, shows, nightlife, sports teams, new housing
- Colorado: hiking, biking, rafting, camping, nature, MOUNTAINS!

Pediatric Rheumatology Fellowship program

Providing world-class, compassionate pediatric care through advanced research and discovery

Our Faculty

- Deborah McCurdy, MD,
Program Director
- Alice Hoftman, MD, APD
- Miriam Parsa, MD
- Patrick Whelan, MD, PhD
- Nanci Rascoff, MD, MPH
- Aileen Dickinson, MPH, DO

Our Fellows

1st Year (incoming)

Joshua Umland, MD

3rd Year

Leah Medrano, MD

2nd Year

Tahnee Spoden, MD

UCLA GME

PROGRAM HIGHLIGHTS

- ACGME accredited 3-year training program providing comprehensive training in pediatric rheumatologic diseases
- Clinically based in the UCLA Mattel Children's Hospital within the Ronald Reagan Medical Center
- Program for pediatricians interested in pursuing academic careers with research in clinical, translational, or basic science
- Program Mission – Excellence in Patient Care * Research * Education

PROGRAM STRENGTHS

- Direct access to clinical opportunities and to faculty
- Participation in community care at Santa Monica and two county hospitals
- Combined specialty clinics: LUPUS, POTS, PANS/PANDAS.
- Access to grant writing and translational research training (Master program)
- Diverse research excellence over many disciplines within UCLA and research collaborations

Los Angeles is home to Lakers, Dodgers, Clippers, Rams, LA Galaxy and Kings. Meet anyone, learn anything, and pursue any passion in the most colorful city in the world, a place people from all walks of life call home!

MISSION: To develop physicians that are clinically competent in the diagnosis and management of children with rheumatic diseases and related conditions. Trainees will have acquired the skills and knowledge to succeed in an academic health care setting and possess habits of life-long learning to build upon their knowledge, skills and professionalism.

Our Team

- ❖ 7 faculty physicians
- ❖ 6 nurses, 2 medical assistants, social worker
- ❖ 1 fellowship coordinator, 1 practice manager, 3 administrative assistants

Didactic Sessions

- ❖ Weekly Clinical Care Conference
- ❖ Weekly Rheumatology Grand Rounds with Emory Adult Rheumatology friends
- ❖ Monthly musculoskeletal radiology rounds
- ❖ Monthly journal club with pediatric nephrology friends
- ❖ Monthly board review
- ❖ Various didactics throughout the year (rheum JC, QI projects, etc)

Highlights

- ❖ Attendance at **scientific meeting** each year of fellowship
- ❖ Opportunity to learn **musculoskeletal ultrasound**.
 - 2 faculty are USSONAR certified
- ❖ Emory Department of Pediatrics fellow lecture series:
 - FiRST Research Course
 - Quality Improvement Course
 - Teaching Seminars
 - Ethics Seminars
- ❖ Department sponsored educational fund
- ❖ Multiple teaching opportunities with residents and medical students
- ❖ **Guaranteed funding for all 3 years of fellowship!**

Fellow Testimonials:

- The diversity of the Georgia population leads to a tremendous diversity in the rheumatology pathology that we see, which is critical for a great foundation of training.
- The fellowship program genuinely fosters what interests you - clinical, research, combination, etc. - which is unique as some programs gear you towards one track or the other.
- The faculty are exceptional and truly prioritize your growth as a Pediatric Rheumatologist and learning above all else.
- As a trainee at Emory/CHOA, I found the work environment to be incredibly supportive.
- Everyone is friendly and invested in helping fellows succeed in their own chosen path.
- Atlanta cuisine is AMAZING!

Pediatric Rheumatology Fellowship

Kyla D. Driest, MD, MEd – Program Director
Melissa Argraves, MD, MEd – Associate Program Director
Sarah Jones, C-TAGME – Program Coordinator

Fellowship Overview

6 Rheumatology fellows (2 per year)
Additional grant-funded IM/Peds position for July 2025 start
ACGME accredited program
EPIC electronic medical record
10 Faculty members with diverse clinical and research interests
Stacy Ardoin, MD, MS – Division Chief and IM/Peds Rheumatologist
Culture of collegiality, respect, and camaraderie
Arthrocentesis experience with and without sedation/US
MSK US training available with opportunity for certification
Multidisciplinary clinics include psychology, neuropsychology, social work, specialty pharmacy, nephrology, pulmonary, radiology, and OT/PT

Nationwide Children's Hospital

3rd Largest children's hospital in America
New hospital tower opened in 2012; more expansion underway
Over 1.8 million outpatient visits per year
Over 6,000 Rheumatology outpatient visits each year
Four-time Magnet designation for nursing excellence
US News and World Report Honor Roll
Top 10 NIH pediatric research funding
Teaching facility for OSU College of Medicine
National leader in safety and quality research
Ranked as one of the best employers for diversity by Forbes
LGBTQ healthcare equality leader

Columbus

Capital of Ohio
14th Largest city in the US and growing
Over 2 million people in the metropolitan population
In the top 25 best cities for work-life balance
Cost of living is 8% below national average
Plentiful family-friendly attractions
Outdoor recreation opportunities and a robust system of metro parks
Wide variety of cultural and arts experiences
A foodie and microbrewery haven
Local sports teams include the Ohio State Buckeyes, the Blue Jackets (hockey), the Crew (soccer), and the Clippers (minor league baseball)

Clinical/Research Details

Consult-only service – average of 4-5 consults per week (see table)
1-2 continuity clinics per week – average of 4-5 patients per clinic
First year: primarily clinical with bulk of call assignments; fellow's own continuity clinic plus outpatient assignments when not on call
Senior Years: primarily research with lighter call assignments; fellow's own continuity clinic; more time for scholarly activity with option to obtain master's degree or MSK US certification

Typical Pediatric Fellow Call (Weeks)		
Year	Day	Night/Weekend
1	20	16
2	4	6
3	4	6
Total	28	28

Benefits

Relocation Stipend
Reimbursement for Pediatric Board Exam
Ohio medical license reimbursement
Reimbursement for books and equipment
Health and dental insurance
3 weeks of vacation and holidays off when not on call (fellows cover 1-2 holidays per year)
Conference attendance
Paid memberships
Scholarships available for advanced degrees
Intramural grant funding available for scholarly projects
Participation in hospital-wide fellowship core curriculum
Many opportunities for collaboration with The Ohio State University, including clinical, research, medical education and scholarship

We have thirteen graduates from our program, including two Med/Peds fellows, distributed across eight states and Saudi Arabia

Our Goal

To train excellent, compassionate clinicians prepared to succeed in an academic environment and advance the field of pediatric rheumatology.

Clinical Training

Large, highly diverse patient population includes all major pediatric rheumatic conditions, and the opportunity to care for patients longitudinally across fellowship. Innovative, high-quality didactics prepare fellows for board exams and clinical practice.

Research & Quality Improvement

UCSF is a top-ranked research university with advanced training opportunities in basic, translational, and clinical research, as well as quality improvement methodology, informatics and educational scholarship.

Leadership & Mentorship

Our faculty includes leaders from across the field of pediatric rheumatology, who provide mentorship in patient care, career development, basic and clinical science, informatics, quality improvement, and medical education.

University of Alabama at Birmingham Heersink School of Medicine Pediatric Rheumatology Fellowship

Forbes 2021: UAB named America's No. 1 Best Large Employer, No. 4 for Diversity nationally
US News & World Report 2022: Children's of Alabama, #1 in the Southeast

2021 Birmingham Jingle Bell Run Peds Rheum team (nurses, staff, & faculty★)

The Pediatric Rheumatology fellowship program at UAB was ACGME approved in 2009, two years after the Division of Pediatric Rheumatology was created in 2007. The faculty has grown to 5 board certified pediatric rheumatologists with 4 nurse practitioners, making it one of the largest programs in the southeastern United States. A generous donation/endowment allows us to accept 1 fellow every 3 years, but we are flexible to add more with grant funding from the Rheumatology Research Foundation, the Arthritis Foundation, and support from relevant (Rheumatology, Immunology) campus training grants. We practice and impart a reasoned early and aggressive approach to therapy for children with rheumatic diseases, employing a broad range of biologic therapies. A significant amount of "protected" research time (2 of the 3 years) is granted throughout the training period. Those fellows not working in a basic science laboratory are strongly encouraged to get an advanced degree at UAB in public health, clinical epidemiology, or a related field of interest. At graduation, our fellows are well prepared clinically and academically in all aspects of Pediatric Rheumatology. We are also welcome to training MED-PEDS rheumatology fellows in partnership with our adult rheumatology colleagues at UAB (top 10 nationally, US News & World Report). Explore more about our program at: <http://www.uab.edu/medicine/peds/rheum>

We welcome all inquiries.

University of Washington / Seattle Children's Hospital Pediatric Rheumatology Fellowship Program

Pediatric Rheumatology Faculty
Fall 2023

Program Highlights:

- Long-standing fellowship program since 1972
- Center of Excellence for JDM and CRMO
- Large catchment area – WWAMI region (WA, WY, AK, MT, ID)
- Very diverse patient population
- Weekly didactics and protected time for 1st years to attend UW Adult Rheumatology weekly didactics
- Ability to learn musculoskeletal ultrasound
 - 8 USSONAR - certified faculty
 - 5 Ultrasound machines
 - Ultrasound Club for didactics and practice

Program Specifics:

- 3 year program
 - 1st year dedicated to clinical education
 - 2nd and 3rd year protected for research
- 6 ACGME fellowship spots
- Recruiting for 2 fellows to start July 2025

What Our Program Offers:

- Clinical experience** - Superb clinical education with graduated responsibility
- Teaching** - Opportunities to enhance teachings skills from bedside teaching to large group didactics
- Academics** – Mentoring in research with opportunities to publish
- Coursework** - University of Washington, School of Public Health (Biostatistics, Epidemiology, Health Services)

Our faculty are leaders in pediatric rheumatology
Great collaboration among staff (MDs, RNs, MAs, etc.)
We support your educational goals
Seattle is a wonderful location and hospital!

Our Fellows:

Katelyn Banschbach, MD
Aviya Lanis, MD

Faculty & Fellows

Program Highlights

Clinical Experience

- Fellow continuity clinic with graded autonomy
- Busy children's hospital with wide catchment area: inpatient consult opportunities
- Electives: Dermatology, Sports Medicine, Nephrology, Ophthalmology, Pain Clinic

Education

- Weekly board review and journal club
- Immunology review series
- Hands-on ultrasound training

Institution Culture

- 6 attendings with diverse academic interests
- Collaboration with other subspecialists
- Outstanding nurses & support staff

Other support staff: 1 NP, 2 RNs, 1 LICSW

Program Specifics:

3 year program, 1 fellow per year

Our Mission: To provide superb training in the field of pediatric rheumatology and to graduate pediatric rheumatology clinicians capable of providing excellent patient care and conducting high quality research

Clinical Training:

- Hands-on learning with individual fellow continuity clinics throughout all 3 years of fellowship ensures longitudinal care of patients
- Combined subspecialty clinics foster collaboration in care
- Robust didactic training with weekly pediatric rheumatology educational lectures, weekly combined grand rounds with adult rheumatology – prepares fellows for boards and clinical practice
- Combined fellows curriculum for all pediatric subspecialty fellows covering education, research, ethics, and clinical practice in medicine
- Fellows encouraged to take on leadership roles in clinical practice, research endeavors, and community outreach

Research:

- Multiple opportunities to pursue clinical or basic science/translational research through our division and Feinstein Institutes for Medical Research (<https://feinstein.northwell.edu/>)
- Active participation in:
 - CARRA (Childhood Arthritis and Rheumatology Research Alliance) - international research group
 - PR-COIN (Pediatric Rheumatology Care and Outcomes Improvement Network) - international quality improvement learning health system

Our Center:

Our tertiary care children's hospital draws patients from the greater New York area, one of the most diverse areas in the world, allowing for broad exposure to a vast array of pediatric rheumatic diseases

Living in Long Island:

Enjoy the natural beauty of Long Island, as well as easy access to the vibrant city of New York with world-class dining and culture!

The Pediatric Rheumatology Fellowship Program at Hackensack University Medical Center

Who we are:

- Seven board-certified pediatric rheumatology attending physicians. We are the largest division in the tri-state area, serving patients in the tri-state region and beyond.
- Vibrant pediatric residency program and academic research with Center for Discovery and Innovation providing basic and translational science experiences
- The program mission is to create competent, confident, empathetic, and unbiased academic pediatric rheumatologists who have the tools to succeed as lifelong learners.

Program Director: Ginger Janow, MD, MPH
email: ginger.janow@hmn.org

Program Coordinator: Miranda Juras
email: miranda.juras@hmn.org

Location Highlights:

- 12 miles NW of midtown Manhattan, 7 miles from George Washington Bridge
- Population 44,756
 - 19% <18 years old;
 - 38% foreign-born
 - 32% speak Spanish at home
 - 46% White, 24% Black, 10% Asian, 35% Hispanic of any race
- Transportation hub (NJ Transit trains and buses, Amtrak and Newark Airport)
- Home to Fairleigh Dickinson University

Program Highlights:

- Extensive opportunities for involvement in education at medical student and resident level with Hackensack Meridian School of Medicine
- Multiple opportunities to participate in investigator initiated and industry sponsored research projects, as well as ongoing translational and inter-institutional projects
- Childhood Arthritis and Rheumatology Research Alliance (CARRA) site
- Community involvement through our local Arthritis Foundation
- Scleroderma Center of Excellence
- MSKUS training opportunities
