

Children's Mercy Kansas City Pediatric Cardiology Fellowship Program

Ward Family Heart Center:

- 2 fellows/year (possible increase)
 - 4th year Advanced Imaging fellowship
- 4 congenital cardiac surgeons
 - Congenital cardiac surgery fellowship
- 40 Pediatric Cardiologists (and growing)
- 27+ advanced practice nurses
- 4 Exercise Physiologist (3 PhD level)
- Multidisciplinary support teams including psychologists
- Collaborative, friendly, and family-like culture

Children's Mercy GME

- Competitive pay and benefits
 - No health/dental insurance premiums, parental leave, conference/educational funds, moving allowance, free parking, on call meal cards, BLS/PALS reimbursement
- Wellness programs
- Common core curriculum to meet ACGME requirements
- QI training and grant writing curriculum
- Access to master's programs (Education, Clinical Science, Biostatistics, Bioinformatics) with tuition assistance available
- T32 funding for 4th year in clinical pharmacology

Amanda McIntosh, MD
Program Director

Kasi Trader (Program Coordinator)
ktrader@cmh.edu
Sarah Reed (Program Liaison)
srreed@cmh.edu

Clinical /Research Experience:

- 20,000 outpatient visits/year
- >20,000 echoes/yearly with busy 3D/CT/MRI program
- 450-500+ cardiac surgeries/year (high volume center) with excellent STS outcomes
- >600 cardiac catheterizations/EP studies/year
- Heart transplant/ VAD program
- Fetal Health Center
- All cardiac super-specialties available
- Strong partnership with CMH Research Institute supports including genomic and precision medicine
- Robust didactic schedule

Kansas City:

- Large metropolitan area with low cost of living
- Friendly Midwest culture
- Beautiful downtown with >200 fountains
- Commitment to parks/green space
- Food: KC BBQ is easily the best in the country
- Sports: Chiefs, MLS, KC Current women's soccer, FIFA 2026
- Culture: Kaufmann Center for Performing Arts, Nelson-Atkins art museum, Crossroads arts district, local jazz/concert venues

Contact ktrader@cmh.edu and ammcintosh@cmh.edu with questions. We can't wait to meet you!

University of Louisville Pediatric Cardiology Louisville, KY

Program Highlights

- Only free-standing children's hospital in Kentucky
- 17 bed dedicated CICU opened in 2020
- 23 pediatric cardiology faculty and growing
- 300 surgeries per year
- 6-10 transplants per year
- ACHA accredited ACHD program
- Active member of numerous national registries
- Ability to earn a master's as part of your fellowship

Program Culture

- Emphasis on training excellent clinical and academic fellows
- Growing division with faculty who can mentor and support fellows in a diverse array of scholarly activity
- Collegial atmosphere

Mission

- Use evidence-based teaching methods to train the next generation of pediatric cardiologists.
- Aims: train fellows to have excellent clinical skills, review and appraise current literature for best practices, become clinical educators, explore, and understand the rigors of research and quality improvement.
- Focus: Create outstanding clinicians, educators, and the future leaders of our field. Providing high-quality clinical care with a unique understanding of the impact of social determinants of health on patient outcomes.

Louisville: A great city in which to live! We have a nationally accredited parks system, the nation's largest municipal forest, the Kentucky Derby, University of Louisville Cardinals, Lou City FC, Kentucky Center, and KFC Yum! Center

PEDIATRIC CARDIOLOGY FELLOWSHIP

3 TEACHING SITES:

- **Le Bonheur Children's Hospital**
- Regional One Health
- St. Jude Children's Research Hospital

CATCHMENT AREA:

- Memphis Tri-State area (Tenn., Ark., Miss.)

HOW WE STAND OUT:

- Breadth and depth of clinical expertise
- Robust clinical and didactic curriculum
- Trajectory of growth and expansion
- Le Bonheur culture of collegiality and camaraderie

What We Do Per Year:

- 320 cardiac surgeries
- 8-10 heart transplants
- 500 cardiac cath and EP studies
- 14,000 TTE and 400 TEE
- 12,000 outpatient clinic visits
- 400 cardiac MRI
- 500 stress tests

**BEST
CHILDREN'S
HOSPITALS**

USNews

**CARDIOLOGY &
HEART SURGERY
2024-2025**

LE BONHEUR CHILDREN'S HOSPITAL Memphis, Tenn.

Le Bonheur Children's Hospital is one of the nation's best children's hospitals, featuring expert physicians and staff, state-of-the-art technology and family-friendly resources. We are part of the Methodist Le Bonheur Healthcare group of hospitals.

People:

- 3 fellows per year
- 35 cardiology faculty members
- 3 cardiac surgeons
- 15 sonographers
- 15 NP/PAs

PROGRAM LEADERSHIP:

Jason Johnson, MD, MHS (Chief of Cardiology)
Thomas Yohannan, MD (Program Director)
Jennifer Kramer, MD (Associate Program Director)
Cody Hinkley (Program Manager)

Space:

- 311 beds
- 31 bed CVICU and CCU
- Hybrid cMRI - Cath Lab
- Hybrid OR - Cath Lab
- 74 bed NICU
- 20 bed IMCU
- 20 bed PICU

PEDIATRIC CARDIOLOGY FELLOWSHIP PROGRAM

UNIVERSITY OF UTAH

FELLOWSHIP PROGRAM

- 13 current categorical fellows, 1 advanced imaging
- Seeking 4 new categorical fellows to begin July '26
- Medium-large size program, well supported, fellow run division

SCHOLARLY ACTIVITIES

- Faculty mentorship with personalized scholarly oversight committee, division research support staff and statistical support
- Active participant in many multi-center research groups, including being a PHN core site
- Option to complete master's in clinical science during fellowship

CLINICAL EXPERIENCES

- Established 16 bed cardiac ICU and dedicated 24 bed CCU step-down unit at free-standing Primary Children's Hospital (PCH)
- Catchment area of 400k square miles that includes UT, NV, ID, MT, and WY
- 800+ cardiac catheterizations, 500+ cardiac surgeries & 15-20 transplants annually
- By October 2025, 44 cardiologists
- PCH is the only children's hospital in Utah, part of Intermountain Healthcare, and the pediatric teaching hospital for the University of Utah School of Medicine.

WORK LIFE BALANCE

• OUTDOORS

- Home to 5 National Parks
- National forests and world-class ski resorts are just a short drive from the hospital!
- Hiking and Biking trails within walking distance of the hospital

• SLC CITY LIFE

- Symphony & ballet
- Sporting events - PAC 12, NBA, Triple-A baseball, hockey, Real Salt Lake FC
- Cultural events
- Diverse, eclectic dining scene
- Family friendly!

Duke University Pediatric Cardiology Fellowship Program

Mission:

-To train future leaders who will provide expert, compassionate care for patients with congenital and acquired heart disease, as well as advance the field through a lifetime of thoughtful inquisition and research

Opportunities:

-3 fellow positions per year of training
-Advanced training positions in cardiac imaging/fetal/MRI, interventional catheterization, electrophysiology, heart failure/transplant, ACHD, research

Setting:

-Based in Durham, NC, in the Piedmont region halfway between the beach and the mountains, also close to Raleigh and Chapel Hill, NC
-Heart Center based in new Duke Central Tower, 20 bed Pediatric CICU, dedicated Cath/EP labs with PACU/Short Stay, and multiple outreach sites
-Fellowship home in the #4 ranked Children's Cardiology & Heart Surgery program by US News

Curriculum/Rotations:

-Approximately 24 clinical months including 4 months of PCICU experience
-Approximately 12 months research with opportunity for collaboration with Duke Clinical Research Institute and Global Health Center

Program Leadership/Contacts:

-Program Director: M. Jay Campbell, MD, michael.campbell2@duke.edu
-Associate Program Director: Zeb Spector, MD, zsz2@duke.edu
-Program Coordinator: Ivy Banks, ivelisse.banks@duke.edu

<https://pediatrics.duke.edu/education/fellowship-programs/cardiology>

Program Mission

To develop exceptional pediatric cardiologists by bolstering individual strengths, fostering curiosity, and building community.

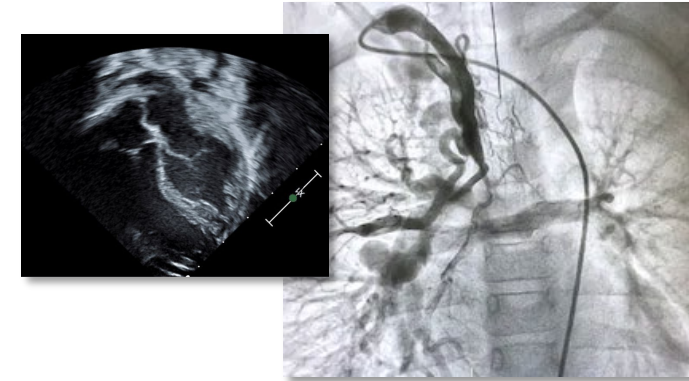

- ✓ High clinical volume
- ✓ Superb didactics with world-renowned faculty
- ✓ Robust research infrastructure (basic and clinical science)
- ✓ Novel educational initiatives
- ✓ Supportive, inclusive and team-based culture
- ✓ Unique individualized opportunities for trainees

18 categorical fellows
8 advanced fellows in every subspecialty
(CVICU, heart failure/transplant, echo, EP, PH, cath) + ACHD fellowship

Clinical Programs

- CT Surgery: >800 surgical cases/year
- Cardiac ICU (CVICU): 21 faculty, >1000 admissions/year, 36 beds
- Heart Failure/Transplant: 9 faculty, >20 VADs/year, 30 transplants/year
- Acute Care Cardiology: 8 faculty + heart failure/transplant, 32 beds
- Echocardiography: 13 faculty, >20,000 echos/year (>5000 fetals)
- Electrophysiology: 6 faculty, >200 cases/year, 15,000 EKGs, 2000 device checks, >2000 outpatient visits
- Catheterization: 4 faculty, >1000 cases/year, 2 hybrid rooms
- Pulmonary Hypertension: 4 faculty, robust inpatient/outpatient service
- Adult Congenital Heart Disease: 5+ faculty, >2000 outpatient visits, >60 surgeries on site
- Additional Programs: Connective Tissue Disorder, Single Ventricle, Kawasaki, PA Reconstruction, Complex Biventricular Repair, Cardiogenomics, Palliative Care

Experience with complex and innovative procedures/cases

Great Bay Area living

New hospital opened doors in 2017 with >360 inpatient beds

Novel educational opportunities (ie: VR, Cardiology/Echo Boot Camp)

UC San Diego UC San Diego Pediatric Cardiology Fellowship

School of Medicine

Medium-Sized Program
Personalized Training

- 7 categorical fellows
- 4th year positions (cath, EP, echo, ICU, transplant, genetics, etc)
- Med Ed, Business, QI Training and Certificate Programs

Top-Ranked
Great Outcomes

- “Best in the West” Cardiology & Cardiac Surgery Program
- Excellent Surgical and CTICU outcomes (PC⁴)
- Ranked #3 in USNWR for Cardiology and Heart Surgery

Broad Region
+ Great Diversity

- Patients from SoCal, AZ, Hawaii, Saipan, Mexico, Pacific Rim
- Value DEI in fellows, staff, patients
- “Global Health at Home” experience due to broad referral area

Subspecialty
Expertise

- 35 Cardiology Faculty
- 3 Surgeons
- All cardiology subspecialties represented amongst faculty

Cutting-Edge
Clinical Exposure

- Dickinson Image-Guided Intervention Center (MRI-Cath Lab)
- Top Ductal Stenting Program for Single Ventricle Palliation
- World-renowned Kawasaki Disease and Genomics programs

Strong Mentoring +
Research Support

- 5 Clinical Research Staff
- Dedicated Fellow Research Funding/Travel Grants
- Most fellows graduate with 2-5 publications

Amazing Location

- Perfect weather, very livable, housing stipend, tons to do
- 2nd Largest City in CA, 8th Largest in US
- Feels Smaller/More Accessible, Easy to get around

Rady Children's

Vanderbilt Pediatric Cardiology Fellowship

Nashville

Music City – variety of musical styles
Art and cultural museums
Green space and parks
Pro sports- Titans, Predators, Nashville SC

Who we are

9 categorical fellows, 3/year

Fourth year opportunities in imaging, EP, Heart failure/transplant, interventional cath, ACHD

30 faculty members

343 bed Vanderbilt Children's Hospital; 38 bed cardiac care unit (PICU and cardiology)

Program culture

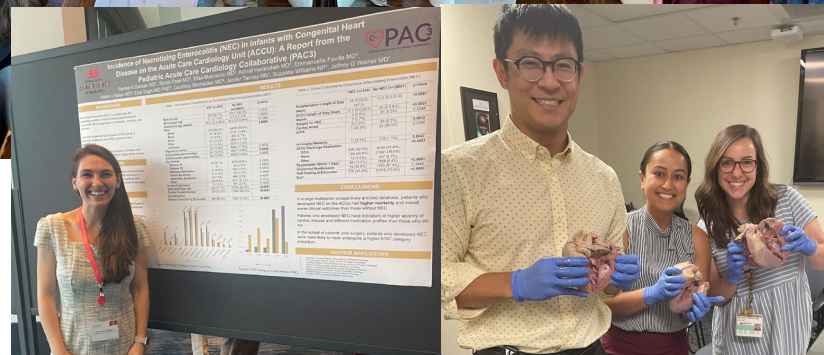

Great camaraderie among fellows and between fellows and faculty

Great education in all aspects of clinical pediatric cardiology

Emphasis on mentorship, scholarship and research

Busy program, fellow centered but not fellow dependent

Collaborative relationship within the Pediatric Heart Institute and Vanderbilt Medical Center

Advocate Children's Pediatric Cardiology Fellowship

In 2024 we did:

- 470 CV surgeries
- 340 cath cases
- 120 EP cases
- 28,400 TTE
- 2,700 fetal echos
- 900 CT/cMRI

We are:

- 9 categorical fellows
- 1 fourth year imaging fellow
- 38 faculty
- 3 CV surgeons
- 16 bed CVICU
- Largest ACHD program in Chicago region
- Affiliated with University of Chicago

We serve:

- A diverse population from Chicago
- Northern suburbs to the Wisconsin border
- Southern suburbs into Northwest Indiana

Fellow Didactics:

- 3-4 lectures per week
- Cardiac ICU boot camp
- ECMO simulations

Program Leadership:

Rupali Gandhi, MD (PD)
Joshua Wong, MD (APD)
Eunice Cole (PC)

Chicago:

An amazing city with great diversity, outdoor activities, sports, theatre, concerts, and restaurants.

Phoenix Children's Cardiology Fellowship

Our Program

- 3 Fellows per year
- 20+ Cardiology faculty...and growing
- 13 CV intensivists
- 2 Cardiac surgeons
- Inpatient and outpatient NPs
- 4th year
 - Advanced Imaging
 - Catheterization
 - Critical Care

Our Volume (yearly)

- 18,900 Echoes
- 1,200 Fetal echoes
- 24,000 ECGs
- 600 Stress Tests
- 18,000 OP visits
- 500+ MRI/CT
- ~15 transplants
- ~5 VADs
- ~580 CV surgeries
- >600 Cardiac caths
- 150 EP/PM cases

Our Facilities

- 24 bed Cardiology floor
- 24 bed CVICU
- 2 hybrid cath/ep labs
- 2 Cardiac ORs
- 48 bed NICU

more

Fellowship Program Stats:

- 6 ACGME positions per year (18 total)
- Robust clinical experience in ALL subspecialties including:
 - Pediatric Cardiac Critical Care
 - Heart Failure/Transplant
 - Adult Congenital Heart Disease
 - Cross-sectional imaging
- Preferential consideration for advanced subspecialty training (4th years)
- Night Float call system (1st and 2nd years)
- Graduated autonomy
 - 1st year cardiac acute care/consult focus
 - 2nd year cardiac critical care focus
 - 3rd year elective and scholarly work focus

What we value:

- Collegiality and teamwork
- Enthusiasm and Motivation
- Fellow-Centered, hands-on training
- Independent Learning
- Fellows from all backgrounds and walks of life
- Excellent Ped Cardiology Tailgates!

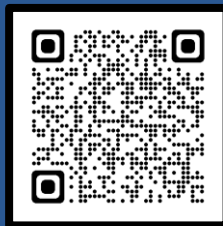

Michigan Congenital Heart Center Stats:

- 50 Pediatric Cardiologists
- 5 Congenital Heart Surgeons
- High volume/High complexity patient mix
 - ~760 Cardiac Surgery cases/year
- Dedicated cardiology clinical research unit (MCHORD)

Ann Arbor, Michigan

- Midwest college town home of U of Michigan
- Consistently ranked top 5 best cities to live in the US

MISSION STATEMENT

To develop elite clinicians, educators and scientists who will become leaders in pediatric cardiovascular medicine, by providing a world-class, comprehensive experience to maximize personal growth and professional success

Lurie Children's Hospital

- Largest children's hospital in Illinois
- >10K admissions/year and >1,800 staff
- 70 pediatric subspecialties
- Nationally ranked in 10 specialties
- Facilities
 - 360 beds
 - 49 bed acuity-adaptable CICU
 - 2 dedicated cardiac ORs
 - 2 state-of-the-art catheterization labs

Heart Center / Division of Cardiology

- 62 Attending Cardiologists
- 4 Congenital Heart Surgeons
- Cardiac Anesthesia Service
- 12 Categorical Fellows
 - 4 fellows per class
- Senior Fellowship Opportunities
 - Advanced Cardiac Imaging
 - CICU
 - Heart Failure/Heart Transplant/VAD
 - Interventional Cardiology/Cardiac Cath
 - Electrophysiology (Invasive or Non-invasive)
- 60 Advanced Practice Providers

Fellowship Training

- Clinical
 - Exposure to all aspects of pediatric cardiology over 13 four-week blocks/year
 - Dedicated clinical educators in all subspecialties
 - High volume cardiac transplant and VAD programs
 - Large referral center with a diverse patient population
 - Simulation-based echocardiography training
- Research
 - Outstanding scholarly mentorship throughout the Heart Center and other hospital divisions
 - Center for Cardiovascular Innovation
- Other
 - Supportive environment to maximize experience
 - Ability to tailor individual fellow clinical and scholarly endeavors to meet career goals
 - Great people and a great city

Pediatric Cardiology Fellowship

New program

- Initial ACGME accreditation 4/2025
- 3 fellows per year – 9 total
- 4th year in cardiac ICU

Rapidly growing Heart Center

- 28 cardiologists
- 10 cardiac intensivists
- 6 cardiac surgeons
 - 2 renowned senior surgeons

Clinical experience

- 48-bed cardiac unit (cardiac ICU + acute care cardiology)
- 400+ cardiac surgeries per year
 - ~10 transplant; VAD program
- 500+ cardiac catheterizations + EP studies
- 10,000+ outpatient cardiology visits
- 800+ fetal cardiology visits

Austin, TX

- Amazing food
- Live music, festivals
 - SXSW, ACL
- Outdoor scene
- University of Texas
- Formula 1, Austin FC

**Ranked no. 47 Pediatric
Cardiology, Heart and
Vascular Surgery**

Alumni facts

- 100% board passing rate over the last 5 graduating classes
- 9 graduated fellows became division directors/chief of cardiology
- 13 went on to pursue additional subspecialty training

Quick Facts

190 bed children's hospital- opened in 2017

Total fellows: 5

Procedural volume annually:

- ~270 Congenital heart surgeries
- 5 Heart transplants
- 370 Cardiac catheterizations
- 200 Electrophysiologic procedures
- 12,000 Echocardiograms
- 700 Fetal echocardiogram
- 170 Cardiac CTs
- 350 Cardiac MRI's
- 2 cardiac surgeons
- 13 faculty cardiologist within all subspecialties

Approved Pediatric Heart Transplant Program

Pediatric Cardiology Fellowship

Program Size

- 15 categorical fellows
- 7 advanced fellows
- 490-bed Children's Hospital
- 30-bed CVICU
- 34-bed Acute Care Cardiology Unit (growing to 44 this year)

Yearly Stats

- >500 heart surgeries
- >30 heart transplants
- >15 VAD placements
- >700 cath and EP procedures
- >15,000 echocardiograms

Living in Dallas

- One of the fastest growing metropolitans in the US
- Thriving job market
- Strong school systems
- Proximity to an international airport

The University of Minnesota Masonic Children's Hospital is a free standing children's hospital with 254 beds. The hospital opened in 2011. U.S. News & World Report has ranked Masonic Hospital as one of the nation's best pediatric hospitals over the past 13 year. Also, in 2023, we were ranked the top-ranked children's hospital in the Twin Cities area.

MASONIC CHILDREN'S HOSPITAL

Yale Pediatric Cardiology

Program Director : Robert Elder MD APD : Ruchika Karnik MBBS

Core Beliefs:

1. Creating outstanding clinical cardiologists
2. Exposure to wide spectrum of disease
3. Fellow as “teacher”
4. Supporting adult learners
5. Mentorship
6. Teamwork
7. Foundation in general cardiology
8. Springboard for next steps in your career

Yale Medicine
