

When you live and work at Inova (located just 10 miles from Washington, DC), you have the world at your fingertips. The DC region offers unlimited access to political, cultural, historical, and educational opportunities.

With so many attractions just minutes from your door, the hardest part is deciding which to try first.

Our Inova Fairfax Hospital Children's ER is the busiest pediatric ER in Northern Virginia, with >60,000 patients a year.

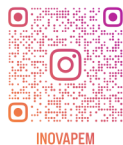

Our new ED space provides a dedicated, welcoming, family-friendly environment for the children and families we care for.

Our Values

Excellent care and service, evidence based medicine, wellness, scholarship, diversity, equity, and inclusion

- Fellow friendly schedule
- Our ED is the only Pediatric facility in Western New York
- We are a Level I Pediatric Trauma Center and tertiary regional referral center for a large catchment
- Rich clinical experience with a diverse array of patients including a large refugee population and Amish
- Progressive autonomy over time
- Engaged, talented, and dedicated faculty committed to the fellowship
- Comprehensive curriculum - thorough and methodical review of the material
- Multiple SIM and procedure skill labs
- Board review online modules and monthly chapter reviews
- Excellent board pass rate
- Dedication to ultrasound training
- Track system allows further exposure to areas of interest to create niche

Pediatric Emergency Medicine

Kathryn Pade MD (PD)
Michele McDaniel MD (APD)

Quick Facts:

- 8 fellows
- 55 PEM-trained faculty
- Accept EM & Peds-trained
- 60-bed emergency department
- Freestanding pediatric hospital
- 104,000 patient visits per year
- 11% admission rate
- Level 1 trauma center

Resources & Training:

- Ultrasound
- Simulation
- Child life
- 24-hour social work
- Advanced airway equipment
- In-person Spanish interpreters
- Research and QI curriculum
- Career development and wellness curriculum

Colorado Pediatric Emergency Medicine Fellowship Program

Fellows, Faculty, Staff

- Up to 12 fellows, 4 per yr
- >80 PEM board certified/eligible faculty from diverse training backgrounds with varied interests (includes all sites)
- 80 Pediatricians and APPs in the Section of Pediatric Emergency Medicine
- Dedicated research support staff and infrastructure
- PECARN site

Program Structure

- Dedicated longitudinal curricula in Research, Quality, Ultrasound, Toxicology, Simulation, EMS, Health Equity, core topics
- Tracks available for interested fellows (Research, Quality, Prehospital/EMS, Ultrasound, Education)
- Graduated clinical responsibility
- 12 research months with reduced clinical responsibility
- Scholarship & career mentorship to ensure success during fellowship and beyond
- Biostatistics short course and other Department of Pediatrics fellows-specific conferences

Clinical Training Sites

Children's Hospital Colorado on the Anschutz Medical Campus

- Regional & ACS Level 1 Pediatric Trauma & Burn Center
- ~78,000 pediatric ED patient visits/yr (System-wide: ~200,000 ED/UC pediatric patients annually)
- 7-state catchment area
- Quaternary care facility on a large medical campus
- Primary fellowship training site
- The Section of Pediatric Emergency Medicine at Children's Colorado manages 4 free-standing pediatric EDs including several pediatric urgent cares

Denver Health Emergency Department

- Primary site for general (adult) EM rotations
- Safety net hospital in downtown Denver, Level 1 Trauma

Culture

- We celebrate inclusivity, teamwork, collaboration, excellence in clinical care, strong mentorship, family, and well-being
- Our faculty enjoy teaching, training, and mentoring fellows
- Fellows are protected during education mornings, fellow-faculty dinners, annual retreats, holiday parties

Things to Do

- The Denver Metro area (includes the city of Aurora where the medical campus is located) is an ethnically and economically diverse region.
- Coloradans love the outdoors. The mountains are great, both during the winter and summertime, but there are plenty of things to do for the indoorsy types year-round, including arts, food, beer, music and theater.

Johns Hopkins All Children's Hospital Pediatric Emergency Medicine

Located in St Petersburg, Florida

A city on Florida's gulf coast and part of the Tampa Bay area, it's known for its pleasant weather (hence its "Sunshine City" nickname). St. Petersburg is popular for boating, fishing and beachgoing and home to world-famous museums, thriving performance arts, and vibrant literary arts community

Individualized learning experience

Collaborations with pediatric departments throughout the hospital and the Cancer & Blood Disorders Institute, Heart Institute, Institute for Brain Protection Sciences, and Maternal, Fetal, & Neonatal Institute

Center for Medical Simulation and Innovative Education works to advance patient safety and care

State of the art simulation center with multidisciplinary approach

Practice procedures and real-life pediatric situations

25 PED beds with 4-bed trauma bay. 45K annual census

Expansion to include psychiatric hold beds

Level 2 trauma center

All pediatric subspecialties represented

Ranked #1 in Florida

Nationally-ranked research hospital

Statistical and epidemiological support

Strong mentorship from the research team and Clinical and Translational Research Team

2 fellows per year

14 faculty

4 pediatricians

9 physician assistants

1 big happy family

Pediatric Emergency Medicine Fellowship at Stony Brook Medicine

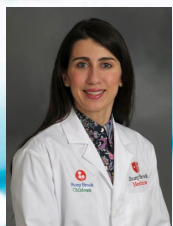

Meet Our Team!

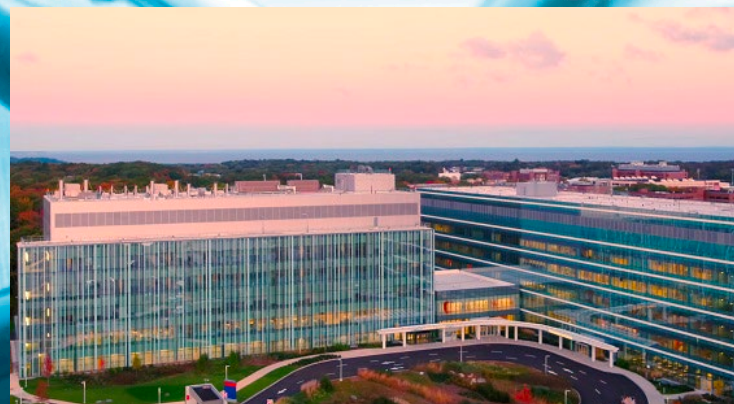

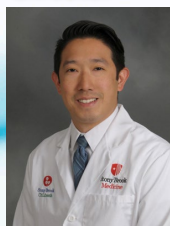

Carl Kaplan, MD
Program Director

Jacqueline Bober, DO
Assistant Program Director

Jeffrey Chen, MD
Assistant Program Director

About Our Children's Hospital:

In late 2018, Stony Brook Children's opened a new, 71,500-square-foot home in a state-of-the-art 150-bed Hospital Pavilion. Currently, we have more than 180 pediatric trained physicians specializing in 30 pediatric specialties.

Program Coordinator: Katherine Pomposello
Katherine.Pomposello@stonybrookmedicine.edu

Program Highlights:

- Clinical case conferences, division research conferences, QA/QI conference
- Morbidity and mortality
- Simulations (in situ and clinical skills center)
- Point of care ultrasound review
- Scholarly in progress conferences (SOC)
- Division research conferences
- Journal Club
- Board review
- Grand Rounds Pediatrics and Emergency Medicine

About Our PEM Unit:

- Our 17 patient care spaces are equipped with an ultrasound machine, 320-slice CT scanner, negative pressure isolation rooms and physicians who are board-certified in Pediatric Emergency Medicine.

- To learn more about our program, please use the QR code to visit our website.

About Long Island:

- Longest and largest island in the contiguous United States, stretching from New York City to Montauk Point.
- Located in the northern center of the island, Stony Brook is an equal distance to Montauk Point as well as to New York City.
- World famous beaches, plentiful walking and biking trails, art galleries, museums, golf courses, diverse fishing spots and award-winning wineries.

PEDIATRIC EMERGENCY MEDICINE FELLOWSHIP

UNIVERSITY OF UTAH

FELLOWSHIP PROGRAM

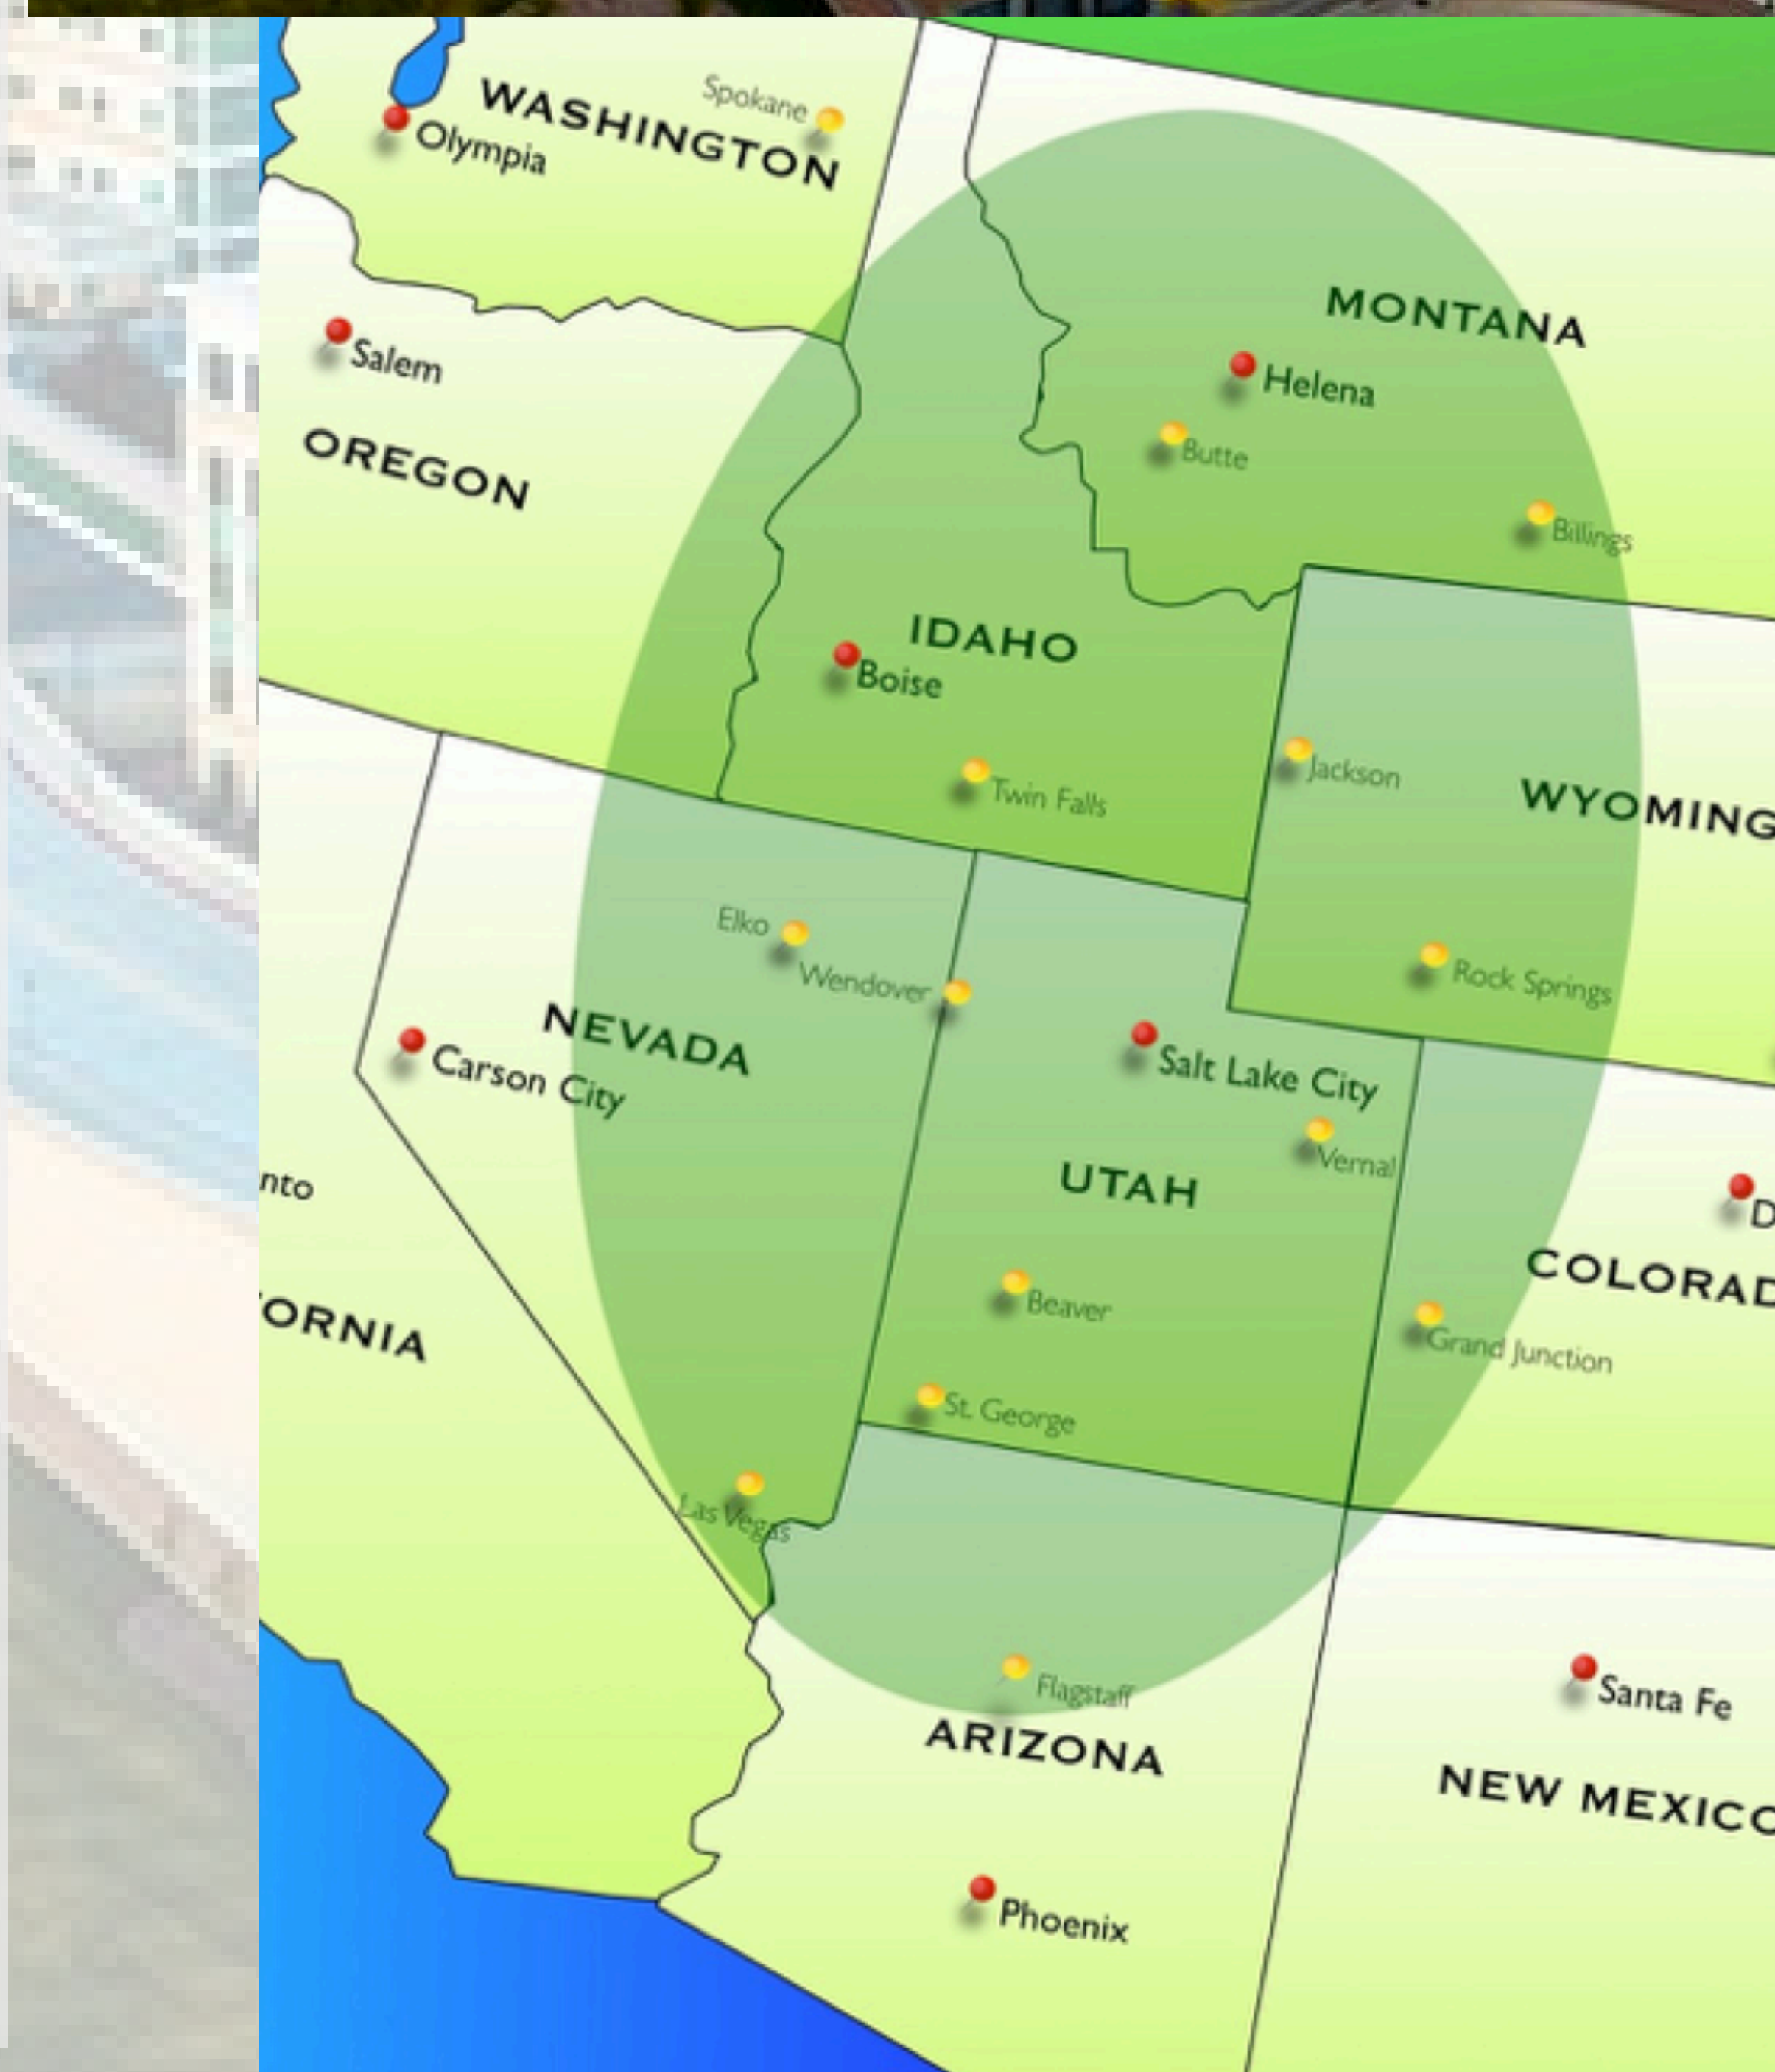

- 8 current PEM fellows, including two PEM-Global Health fellows, plan to expand to 10
- Seeking 3-4 new PEM fellows to begin July 2026
- Strong support, incredible variety of opportunities
- Simulation, POCUS, Research, Administration

SCHOLARLY ACTIVITIES

- Faculty mentorship, Division research staff, and statistical support
- Research assistants in ED help study enrollment
- Multiple PECARN and other multi-center research groups. National and international research
- Mentorship for every interest and career path
- Outreach opportunities national and international

CLINICAL EXPERIENCES

- 34 bed ED, trauma and resuscitation bays, 289 bed free-standing children's hospital
- Catchment area of 10 states that includes UT, NV, ID, MT, WY, WA, OR, AZ, CO, NM
- Level 1 pediatric trauma center with >350 level 1 and level 2 trauma team activations
- High acuity with 20%+ admission rate
- PCH is the only children's hospital in Utah, part of Intermountain Healthcare, and the pediatric teaching hospital for the University of Utah School of Medicine
- New free standing Trauma 2 PCH in Lehi
- Unique variety of training: Ski clinic, Mountain West, U ED, Tox, SHF, EMS, AirMed

WORK LIFE BALANCE

OUTDOORS

- Home to 5 National Parks
- National forests and world-class ski resorts are a short drive away
- Hiking and biking trails within walking distance of the hospital
- Best of city life and nature immediately adjacent to the hospital

SLC CITY LIFE

- Restaurants
- Symphony, ballet, concerts
- Sporting events
- Cultural events
- International airport with direct flights around the world

Pediatric Emergency Medicine Fellowship

University of Alabama at Birmingham (UAB)

Thank you for having interest in the PEM fellowship at UAB! We are excited to meet you and share information about our program! Here are a few highlights:

- We currently have 12 fellows and accept 3 – 4 fellows per class
- Children's of Alabama is the only Level 1 tertiary care center in Alabama with 75k visits per year
- Our fellows get excellent experience at managing patients autonomously during training!
- Our program offers extensive opportunities to pursue academic interests including simulation, research, injury prevention, QI, patient safety, EMS, child abuse training, and professional development
- We have a large body of faculty engaged in fellow education
- Birmingham offers a great local food and drink scene as well as many affordable, convenient neighborhoods

Please feel free to contact us with any questions!

Pediatric Emergency Medicine Fellowship

Education

- **UMass Chan Medical School** is the first and only public academic health science center in MA
 - Consistently ranked in the top 10 for primary care education
 - #2 in New England for NIH funding
- **UMass Memorial Health** is the largest health system in central MA
 - Large catchment area including VT, CT, and RI
 - Diverse patient population
 - Only children's hospital and level 1 trauma center in the region

People

- One fellow per year = 3 total
- Open to both Pediatric and EM residency graduates
- 12 board certified PEM faculty
- 20 bed pediatric ED
- 25K patient visits/year
- High acuity: 14% admission rate
- Over 200 pediatric subspecialists
- Dedicated pediatric ancillary services

Location

- Worcester is the 2nd largest urban center in New England
- Lively restaurant and craft brewery scene
- Local professional sports
- Cultural arts venues
- Great outdoor opportunities including hiking, snow sports, and boating
- Close to beach and mountains

Experience

- Small program with individualized learning opportunities
- Autonomy early in fellowship with progressive clinical and supervisory responsibilities
- Research and mentorship opportunities with faculty in both the Departments of Pediatrics and Emergency Medicine
- Opportunity to obtain a Masters in Clinical Investigation through UMass Chan at no cost

Pediatric Emergency Medicine Fellowship

Program goal:

To develop leaders in pediatric emergency medicine who deliver comprehensive, compassionate care and produce scholarly research in a safe, caring, and supportive environment

Fellowship overview

Program leadership

- Program Director – Rashida Woods, MD
- Assistant Program Director – Ashley Litchfield, MD
- Program Coordinator – Sharon Fleming

14 faculty members with diverse clinical and research interests

Prospective Fellows:

Recruit 2 fellows/ year

Accepts General Pediatrics and Emergency Medicine trained residents

- Offer flexible scheduling to the needs of the fellow
- Comprehensive educational curriculum
- Opportunities for graduate certificates/ degrees and career focus tracks

Graduating fellows work across the country in academic or community centers

Life in Richmond

Urban life with a small-town feel.

We encourage our fellows to maintain a healthy work-life balance, and Richmond is a wonderful place to engage in that well-rounded lifestyle. The city and surrounding areas are affordable places to live.

Richmond attracts students, faculty and staff from around the globe. The city's location affords easy day trips to destinations like Washington, DC, Virginia Beach, Colonial Williamsburg and the Blue Ridge Mountains, among others.

As a mid-sized city with a metropolitan population of 1.3 million, Richmond provides stimulating activities while maintaining its intimate feel and unique vibe.

Vibrant neighborhoods offer distinct, diverse experiences, with no shortage of art galleries, museums, music venues, restaurants, breweries, and parks. For the outdoor enthusiast, you can't beat the offerings in the city's riverfront parks and urban wilderness areas such as white-water rafting, hiking, mountain biking and festivals.

CHoR at VCU:

New Children's Tower opened April 30th, 2023!

- New Pediatric Emergency Department has 21 acute care beds, including 4 fast track beds; 3 resuscitation bays

- Wellness and Resiliency
 - Resources to support wellness and resiliency, individual and team-based
 - Commitment to health equity and belonging within the program and institution
- Scholarship/Research
 - Individualized approach to scholarly activity based on your passions, interests and career goals with wide range of academic foci

The Clinical Learning Environment

- ED:
 - 20 beds (2 resuscitation rooms)
 - > 42,000 patients/yr
 - 10% admission rate
 - Diverse patient population
 - Wide variety of pathology
- Faculty:
 - 12 awesome PEM docs (2 add'l PEMs starting in July), 2 excellent Pediatricians, 14 outstanding APPs
- Hospital:
 - 130 beds (66 ICU)
 - >180 pediatric medical and surgical faculty physicians
 - ED/Hospital expansion 2026

The Community

- Lake Nona
 - 17-square-mile residential community in Orlando with suburban feel
 - <https://www.lakenona.com>
- Lake Nona Medical City
 - UCF College of Medicine
 - Biomedical research (Sanford-Burnham Medical Research Institute, University of Florida Academic and Research Center)
- Close proximity to downtown Orlando; enjoy year-round sunshine, outdoor attractions, nightlife and family activities, and world-class beaches.

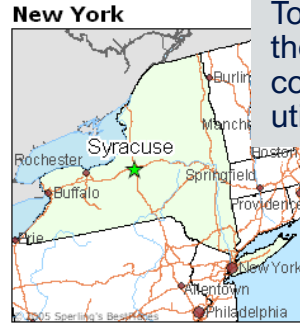

Program Director: Nicolas Erbrich, MD nicolas.erbrich@nemours.org
Fellowship Coordinator: Jennifer Luther jennifer.Luther@nemours.org
Web site: <https://www.nemours.org>

MISSION:

To provide exceptional training for both pediatric and emergency medicine residency graduates so they can become independently practicing pediatric emergency medicine physicians serving their community. Fellows will develop skills to provide excellent clinical care, no matter the setting, utilizing evidence-based medicine and established standard medical care.

PROGRAM:

- 6 total fellows
- 14 PEM Faculty
- > 30,000 pediatric visits annually
- Level 1 Pediatric Trauma Center
- Verified Burn Center
- Upstate Poison Center

PEDIATRIC EMERGENCY MEDICINE

Anne Whitehead, Program Director, annewhit@iu.edu
Pamela Soriano, Associate Program Director, psoriano@iu.edu

Why Indiana University for PEM Fellowship?

Riley Children's Hospital is a busy level one pediatric trauma and burn center (roughly 60K/yr and growing) in the heart of Indianapolis with a diverse patient population and mix of pathologies

Curated and tested pathways for both Pediatrics and Emergency Medicine trainees

Opportunities to work with experts in a wide variety of PEM and EM niches: POCUS, EMS, toxicology, disaster, simulation, motor sports, disaster, operations, global health, and more

Community PEM rotations and moonlighting opportunities

A truly special group of faculty and fellows we are so proud to work with!

Medical College of Wisconsin

Pediatric Emergency Medicine Fellowship
Milwaukee, Wisconsin

CLINICAL ENVIRONMENT

- 50 bed EDTC opened in October 2023
- >75,000 ED visits/year
- Level 1 trauma center
- CT, ultrasound, XR located in the EDTC
- Moonlighting opportunities available in 2nd and 3rd year of fellowship

OUR TEAM

- 3 fellows/year
- Dedicated faculty (31) and APPs (20)
- Awesome support staff

Abby Schuh
Program Director

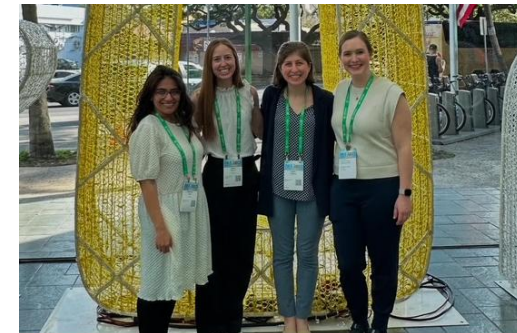

Viday Heffner
Assoc. Program Director
