

Find out more

Overview

- Our mission is to train diversely talented clinician-researchers who will become leaders in the field
- 6 fellows/class
- Clinical rotations at both Hopkins and NIH during Year 1
- Formal wellness curriculum

Clinical

- Completely separate services for oncology, BMT and hematology
- Robust pediatric Phase I exposure at the POB
- Fellow-centric clinical model prioritizes autonomy with graduated independence
- Many formal subspecialty fellowships (e.g. neuro-onc, sarcoma, sickle cell, cellular therapy)

Research

- Research can be conducted with any mentor at Johns Hopkins University or NIH
- Protected research time during 2nd/3rd year (½ day of clinic/wk, 4 weekends/year, no inpatient time)
- Guaranteed, optional 4th year of research offered to all (independent of grant funding)

Unique Paths

- Dual board combined training in med-peds and pediatric hematology-oncology/palliative care
- Masters of Clinical Investigation through the Duke-NIH Program
- PhD through the Cellular and Molecular Medicine Graduate Program
- Patient Safety and Quality Training through the Armstrong Institute

Johns Hopkins All Children's Hospital

Pediatric Hematology-Oncology Fellowship Program

Year 1

Rotation	Inpatient	Outpatient	HSCT	PNO	ELEC	VACA
Number of Blocks	6	3	1	1	1	(4 wks)

- Staffed by **25 physicians** and **17 advanced practice providers**
- > 150 new cancer diagnoses annually
- >1500 patients with sickle cell disease, hemophilia, thromboembolism, bone marrow failure, vascular anomalies, histiocytosis, and general hematology are cared for annually
- PGY-7 fellowship programs in **Neuro-oncology** and **Bone Marrow Transplantation and Cellular Therapy**
- **Gene therapy** expected to begin in FY25
- Located in the historic downtown area of St. Petersburg, Florida, minutes away from **white sand beaches**, watersports, thriving arts scene including the Salvador Dalí Museum, unique dining experiences, theme parks (Busch Gardens and Adventure Island), nature and wildlife preserves, professional and recreational sports teams, and more!

On-call schedule: Night call in year 1 is taken from home. Occasionally fellows may come in for newly diagnosed or extremely ill patients. *Your night and weekend calls will be fully supported by a fun team of in-house HO attending physicians*©!

Fellowship Years 2/3: Physician-investigator training. Fellows will learn how to conduct high quality clinical, translational and/or laboratory-based research and will lead educational activities.

During the second and third years of HO fellowship, there will be no weekday call expectations. Fellows will cover the inpatient unit one weekend per month and answer phone calls from home after hours.

3x Open Positions in 2026!

City of Pittsburgh

- **Vibrant, innovative city**
- City of neighborhoods
- Tons of green spaces and public parks
- Job opportunities for significant others

Program Culture

- Positive, friendly and fun
- Progressive and supportive
- **Committed faculty who provide expertise, mentorship, and guidance**

Clinical Experience

- Comprehensive clinical training in all areas of peds heme/onc
- Wide breadth and depth of clinical exposure in heme, oncology, and BMT
- **Flexibility in tailoring clinical experience based on career interests**

Research

- Fellows conduct state-of-the-art research across the institution
- Dedicated time to explore research opportunities during first year
- Option to obtain a **Masters degree** through ICRE in clinical research or medical education

Career

- **Focus on career development from day one**
- Grant support available for the transition from fellow to faculty
- Our fellows become amazing clinicians, successful scholars, and leaders in the field

Program Fast Facts:

- 4 fellows per year
- First year clinical, 2 scholarly years
- Opportunity for a wide range of scholarly projects/mentors
 - Clinical research with option for Master's degree
 - Basic science research
 - Translational research
 - Medical Education Research
- Fourth year fellowship options:
 - Continue research
 - Coagulation fellowship
 - AYA fellowship
 - BMT fellowship
 - Neuro-oncology fellowship

Why CHLA PHO?

- We are dedicated to your success!
- Commitment to wellness
- Serve a diverse patient population
- Live in a diverse, exciting city
- Mentorship curricula
- Art in Medicine curriculum
- Biopsychosocial curriculum
- Learn from a high-volume site
- National experts in every disease
- Balanced hematology and oncology exposure
- Housing stipend
- Free in-house mental health services
- LA food scene!
- Can drive to beach, snowy mountains, wine country, Joshua Tree, hikes, San Diego, Santa Barbara... all in 2 hours or less!
- So much sunshine

See our fellows!

CHLA_HEMEONC_FELLOWS

Pediatric Hematology/Oncology/BMT Fellowship Program

Mission:

To train top notch competent, compassionate clinicians destined to become leaders in academic environments and be well prepared to engage in meaningful research and advance the fields of hematology/oncology/BMT

Program specifics:

- Training at 2 Children's Hospitals: UCSF Benioff Children's Hospital SF and UCSF Benioff Children's Hospital Oakland
- 2 track program: San Francisco-based and Oakland-based with cross-bay training on both tracks
- 5 PHO fellows per year (3 SF, 2 Oakland)
- High volume and complexity in all 3 disciplines of training
- Vast opportunities in clinical, translational, and basic research
- Faculty with strong commitment to mentorship and helping trainees to foster a career in academic medicine

Life in the Bay Area:

- Benefits: MANY!
- Culturally, extremely diverse
- Unique weather (subtropical, never snows or freezes, but driving distance to snow!)
- Food and fun capital of the U.S.
- "Outdoors Unlimited"—land, sea, sky

CANCER AND BLOOD DISORDERS PROGRAM

UNIVERSITY AT BUFFALO PEDIATRIC HEMATOLOGY ONCOLOGY FELLOWSHIP PROGRAM

Program highlights

- Joint program between Roswell Park Comprehensive Cancer Center & Oishei Children's Hospital
- Largest Heme/Onc Program outside of NYC
- >70 new oncology diagnoses annually
- 11 faculty with subspecialty expertise in Hem/Onc/BMT/ACT
- New facilities 2017
- Regional Sickle Cell Center, free-standing Hemophilia Center
- Participation in COG, PBTC, DFCI trials
- State-of-the art clinical & translational research opportunities with a focus in adoptive cellular therapies

Unique perks

- Not a fellow dependent program
- Call 1 weekend/module, 1 weeknight/week
- Generous maternity/paternity leave (NYS PFL)
- Diverse, family-friendly community, affordable cost of living

 ubpeds

DR. CLARE TWIST | PROGRAM DIRECTOR

DR. BEVERLY SCHAEFER | ASSOCIATE PROGRAM DIRECTOR

MARGARET BRAYMILLER | PROGRAM COORDINATOR

DR. KARA KELLY | WALDEMAR KAMINSKI ENDOWED CHAIR OF PEDIATRICS

Pediatric Hematology/Oncology and Cellular Therapy Fellowship Program

Program Highlights

- 2 fellows per year
- >100 new oncology diagnoses each year
- >800 patients in the sickle cell disease (SCD) program
- Hemophilia Treatment Center
- Member of COG, NPCF, & DFCl consortium
- Avg. inpatient census: 20-30 patients
- High volume ambulatory chemotherapy program: >14,000 outpatient visits per year
- Focus on clinical and research mentorship
- Ample research opportunities in translational bench research and clinical research (can obtain a masters degree in clinical research)
- Excellent opportunities for education and teaching, award stipends, presentation of scholarly work

Location

- Bronx, NYC: an urban, diverse , busy city setting
- 20 min to Manhattan by car/subway
- Bronx Zoo, NY Botanical Gardens, Pelham Park, Arthur Ave (little Italy), multicultural dining, Yankee Stadium, City Island, hiking and biking trails

Program Culture

- Warm, friendly, cohesive, collaborative, respectful, and team based
- CHAM is like a family! Each member of the team is essential in providing the best care for our patients
- Focus on cutting-edge therapies and clinical trials

Institution Culture:

- Mission to improve the health and well-being of children in our **local communities** and throughout the world
- Access to care for all children
- Recruiting an inclusive, diversified staff with a strong focus on social justice
- Embrace and respect the diversity of our patients, families, communities and coworkers and include families and all members of the healthcare team in decision making
- Continuous learning and professional development of pediatric work force and dedication to innovative research as a means to advance child health

marvande@med.umich.edu

Program Coordinator

Missy Rickelmann
missrick@med.umich.edu

Program Culture

- Wellness initiatives and division support for out-of-the-hospital group activities
- Open communication between fellows and program/division leadership
- Dedicated to advocating for our fellows and providing resources for success
- Faculty dedication to teaching and mentorship of our fellows

Program Highlights

- National referral center for Neuro-Oncology
- Comprehensive Immuno-hematology Program
- Only Phase 1 and CAR-T cell programs in Michigan
- T32 training grant in Hematology

First Year Rotations:

- Oncology Service: 15 weeks
- BMT: 11 weeks
- Hematology Service: 15 weeks
- Outpatient: 7 weeks
- Vacation: 4 weeks

Second and Third Years:

- Significant decrease in call responsibilities
- 3 "Pre-attending" weeks/year, service per fellow preference
- Vacation: 4 weeks/year
- Remainder of time dedicated to research- basic science, translational, clinical

information:

About Ann Arbor

- Also known as "Tree Town"
- Highlight annual events: Ann Arbor Art Fair, Top of the Park, film festivals, & many more!
- Year-round farmers market
- Extensive trail networks and opportunities for year-round outdoor activities
- Frequently ranked as a "Top City to Live" in various forums

Cleveland Clinic Children's

Pediatric Hematology & Oncology Fellowship

Program Leadership

PD: Stacey Zahler, DO, MS

APD: Seth Rotz, MD

PC: Teresa Gerbasi, PC

Chief Fellows: Gabe Mandel, MD
Haig Manougian, MD

Program Highlights

- 22 Faculty, 2 Fellows/year
- Clinical volume:
 - 120+ new onc dx per year
 - 100+ consults per year
 - 15 TCTs per year
 - 230+ pts with HbSS
 - Wide variety of non-malignant hematologic conditions
- **Abundant** clinical, translational, or basic **research opportunities**
- Dedicated, invested faculty
- Family feel, attention to wellness

Education

- Myriad of educational support and learning opportunities
- Over 10 tumor board/case conferences
- 3 separate grand rounds lecture series
- Weekly fellow lecture series
- Biweekly board review
- Biweekly protocol review
- Chemotherapy education
- Simulation education

Division of PHO & BMT

- Clinical Teams
 - Leukemia/Lymphoma
 - Transplant & Cellular Therapy
 - Solid Tumor
 - Neuro-Oncology
 - Classical Hematology
 - Cancer Genetics
- Multi-disciplinary clinics
 - Bone marrow failure
 - Vascular malformations
 - Sickle Cell Clinic
 - Immunohematology
 - High Five Survivorship
- 3 Clinical pharmacists
- Robust psychosocial team
- Pediatric Palliative Care
- We have **FUN in CLE!**

Penn State Health Hershey Medical Center Pediatric Hematology Oncology Fellowship Program

Program Highlights:

- 2 fellows per year
- 15 clinical faculty
- 7 basic science-translational research faculty
- 100 new oncology patients per year
- 400+ hematology visits per year
- 15- 20 hematopoietic stem cell transplants per year
- Over 690 admissions per year to our service
- Pediatric oncology is supported by one of the largest student-run U.S. philanthropies THON, by Mini-THON, and by Four Diamonds
- Member of multiple consortia including the Children's Oncology Group and Beat Childhood Cancer Research Consortium
- The Division has been recognized by U.S. News and World Report as one of the leading pediatric oncology programs in the country since 2012

Our Mission:

The principal goal of the Pediatric Hematology/Oncology Fellowship at [Penn State Health Children's Hospital](https://pennstatehealth.psu.edu) is to train fellows to become outstanding, independent physicians or physician-scientists and prepare them for an academic career incorporating clinical care, research and education. The first year of the program consists of 13 four-week clinically-focused blocks. The second and third years focus on research training and scholarly activities. Fellows pursue a basic laboratory, translational laboratory or clinical research track to accomplish their scholarly activities. All fellows complete a core scholarly curriculum regardless of their research track. In addition, fellows maintain a weekly, half-day continuity clinic, which is supervised by a longitudinal clinical mentor. Fellows are also expected to participate in quality improvement projects throughout their entire training

Our Location:

Central Pennsylvania is known for its natural beauty, low cost of living and diverse experiences. Just like the surrounding area, Penn State College of Medicine offers an inclusive and welcoming environment toward people from all walks of life.

While you're here, you're part of a community working to impact and improve Central PA, making this region a happy and healthy place to live

Why not train in the sweetest place on Earth?

Where's Hershey?

Hershey is next door to the state capital, Harrisburg, historic Lancaster and Gettysburg. And it's easy to get to some of the Mid-Atlantic's largest metros.

- Philadelphia (1.5 hours)
- Baltimore (1.5 hours)
- New York City (2.5 hours)
- Washington, D.C. (2.5 hours)
- Pittsburgh (3.5 hours)

Children's National Hospital Center for Cancer & Blood Disorders

Program Directors

Holly Meany, MD
Program Director

Liny John, MD
Associate Program
Director

Clinical Center

Oncology: Over 300 new oncology diagnoses a year, over 100 active therapeutic protocols, and early phase clinical trial center

Hematology: One of the largest sickle cell disease (SCD) populations and first to provide gene therapy for pediatric SCD

Fellowship

Clinical

Service: 1st year - 8 months inpatient, 4 months outpatient

Clinic: One half day of protected clinic time per week for primary continuity patients

Call: 1st years split weekend calls with senior fellow daytime coverage; 2nd/3rd years take weeknight calls

Additional Fellowships: Subspecialty fellowships available in Neuro-Oncology and BMT/Cellular Therapy

Research

Protected research time in 2nd and 3rd year

Sites include Children's National, National Institutes of Health, George Washington, Virginia Tech

Funding available for advanced degrees

Grant opportunities available including T32 training grant

Curriculum

Weekly didactic lectures by faculty

Tumor boards in leukemia/lymphoma, solid tumor, neuro-oncology, hematology, and BMT

Interactive senior fellow sessions with case-based learning

Ample opportunities for medical education of residents and medical students

Washington DC

- Vibrant, diverse city
- Rich history
- Museums, music, theater
- Easy public transportation
- Close to mountains and beaches

Personalized experience

- Highly flexible 3-year program tailored to individual needs
- Training future leaders of clinicians and physician-scientists
- Financial support available for advanced degrees and conferences

A place of firsts

- World leader in pediatric catastrophic disease through research and treatment
- Exceptional community devoted to “finding cures and saving children”
- Strategic institutional initiative devoting resources to clinical trainees

Committed leadership

- Dedicated to providing support and resources for fellows

Unparalleled environment

- Unique and large patient population
- World-class faculty and facilities
- Wide range of educational activities
- Collaborative culture

Abundant opportunities

- Physician-scientist instructor program
- Institutional T32, K12 fellowships
- Subspecialty fellowships
 - Cancer Predisposition
 - Cancer Survivorship
 - Global Pediatric Medicine
 - Hospice and Palliative Medicine
 - Leukemia/Lymphoma
 - Neuro-Oncology
 - Onco-Critical Care
 - Sickle Cell Disease
 - Solid Tumor
 - Transplant and Cellular Therapy

About Memphis

- Rich in culture and opportunity
- Beautiful parks, running trails, and outdoor spaces
- Affordable
- World-class museums, parks, music, dining, and entertainment

“We are committed to building the best fellowship program in the world.”

Drs. Inaba and Bhatt

Stanford Pediatric Hematology/Oncology Fellowship Program

Stanford | MEDICINE
Pediatric Hematology, Oncology,
Stem Cell Transplantation
& Regenerative Medicine

Our fellowship program provides rigorous training in research and clinical care. Fellows learn from our expert faculty and practice at Lucile Packard Children's Hospital, ranked by US News and World Report as one of the nation's best pediatric hospitals.

Clinical work includes rotations in the fields of pediatric hematology, oncology, immunotherapy, stem cell transplantation, and neuro-oncology. Fellows may select research projects from any of these areas. Trainees engage with Stanford's numerous clinical trials, aimed at finding new diagnostic, prevention, and treatment strategies.

PROGRAM CULTURE

A diverse and busy program that sees over 200 new oncology patients, over 420 new hematology patients and 60 stem cell transplant patients each year, making Stanford one of the busiest program in Northern California.

INSTITUTIONAL CULTURE

Fellowship Programs at Stanford Children's Health are designed to provide outstanding training to prepare our fellows to excel as subspecialty clinicians, researchers, teachers, advocates, and become leaders within the field of pediatrics. The Department of Pediatrics at Stanford University currently trains over 100 fellows in 24 subspecialty training programs.

GEOGRAPHIC CULTURE

Bay Area Living - Year-round use of parks for hiking, biking, and outdoor activities. Vibrant wine and food scene. World-class entertainment and arts.

Our Program

- Located in the world's largest medical center
- >350 new oncology diagnoses each year
- Comprehensive Sickle Center Treatment Center
- Approximately 30 inpatient BMTs/Cell Therapy treatments
- 4 fellows accepted/year
- Competitive post-fellowship placement including to 4th year fellowships
- 100% of all fellows from prior 3 years found employment at a full-time faculty position
- Financial support to attend national and international conferences at no cost to fellows
- Technology package provided to all incoming fellows as well as educational stipend for books, tech, etc
- World class lab research with fellows awarded grants and multiple publications
- Fellows in leadership positions and committees across MD Anderson Cancer Center and the AAP
- No overnight call/Overnight nocturnist coverage provided
- Extensive moonlighting opportunities in-house
- Dedicated board review and weekly lectures

PROGRAM HIGHLIGHTS

Clinical Excellence

- Cancer Genetics Program
- Adolescent and Young Adult Oncology Program
- Childhood Cancer Survivorship Program
- South Texas Hemophilia and Thrombosis Treatment Center
- South Texas Sickle Cell and Thalassemia Program
- Comprehensive Vascular Anomaly Program

Education and Outreach Excellence

- Rio Grand Valley Hemophilia Outreach Clinic
- Southeast Asia Pediatric Hematology-Oncology Program

Research Excellence

- Greehey Children's Cancer Research Institute
- Children's Oncology Group
- NCI Community Oncology Research Program
- POETIC Pediatric Phase 1
- Fellow awarded grants - St. Baldrick's, Hyundai Hope on Wheels, CPRIT (Cancer Prevention Research Institute of Texas)

PROGRAM GOALS

To develop physicians who become:

- Proficient in the evidence-based management of children, adolescents and young adults with hematology and oncology disorders
- High quality basic scientists, clinical investigators or clinical educators
- Outstanding clinicians with a lifelong commitment to patient care and community involvement

OUR FAMILY

- 80-100 new oncology diagnoses annually
- 1-2 fellow/yr
- 10 Clinical and research division faculty
- 1 Nurse Practitioner
- 2 Genetic Counselors
- 2 Psychologists
- 4 Social Workers
- 1 Vascular Nurse Coordinator
- 2 Hemophilia Nurses
- 2 Physical Therapists
- 6 Research Staff

Pediatric Hematology/ Oncology Fellowship

EMORY
UNIVERSITY

Program Highlights:

- Premier program in the Southeast
- Robust patient volumes + equal balance of hematology & oncology
- Clinical, translational, & basic research all equally possible and valued
 - Collaborations with Georgia Tech
- Opportunities for additional training
 - 4th year for research, neuro-oncology, BMT, survivorship
 - Combined med/peds fellowship
 - Advanced degrees during fellowship including MSCR and PhD

Size Matters:

- 6 fellows/year
- >125 PHO faculty
- ~500 new oncology dx/yr
- Largest hematology program in the country
- State-of-the-art new hospital opened in **2024**

Program Culture:

- Family feel despite size
- Fellows treated as colleagues
- Constantly evolving based on fellow feedback

Atlanta:

- Vibrant, progressive city
- Something for everyone: food, sports, museums, music
- “City within a forest”

Megan Brown Fleegle, MD, MSc
Associate Director

Gary Woods, MD
Associate Director

Gary Lindsay
Sr. Program Coordinator

Program Basics

- 4 fellows per year
- 1st year is focused on clinic training
- 2nd & 3rd year are focused on scholarly research

Seattle Children's Hospital / University of Washington Pediatric Hematology and Oncology Fellowship Program

Clinical Training

- First year rotations – inpatient oncology, outpatient hematology and oncology, and inpatient and outpatient bone marrow transplant
- Third year – 2-3 weeks of “pre-attending” time on service of choice
- Rotation sites – Seattle Children's Hospital, UW Medical Center (radiation oncology), Odessa Brown children's clinic (sickle cell disease clinic)
- All years: ½ day weekly continuity clinic – longitudinally follow a cohort of primary patients with diverse diagnoses; opportunity to customize subspecialty clinic in 3rd year (egs. BMT, hematology, neuro-oncology)
 - Monthly heme continuity clinic

Research Training

- 1st year: 4 elective weeks to explore research opportunities and meet with potential mentors
- 2nd/3rd years: primary research years in laboratory, translational, outcomes, survivorship, and other areas of mentored research
- Opportunities to pursue MS/MPH or PhD during fellowship
- Customized Scholarship Oversight Committee to guide research and career development
- NCI T32 Pediatric Oncology Research Training Program
- Complimentary research fellowship opportunities: Health Equity, Palliative Care, Health Services, Hematology

Curriculum

- 1st Tuesday of the month – protected didactic time
- Humanism Series: topics including bias & discrimination, resilience & work-life balance, debrief sessions, and communication (VitalTalk)
- Professional Development Series: topics including choosing mentors, job searches, academic tracks and promotions, career transitions
- SCH Fellows College: topics including teaching, scientific presentations, how to network and give a job talk, successful negotiating skills
- Yearly PHO grant writing course and mock study sections

Our Program & Culture

- 3 PHO Fellows
- 14 PHO Faculty
- Outstanding Clinical Care
- State-of-the-art Research Experience
- Personalized Training
- Inclusive & Supportive
- Promotes & Fosters Wellbeing
- Fellow feedback drives change

Educational Conferences

- HemOnc Didactics 2 hs/week
 - Interactive & Engaging
 - Case Discussions
- Fellowship Core 2 hs/month
- Board Review 1 hr/week
- V-SYMPHONY 1 hr/week
- Conferences
 - Solid Tumor Board 2x/month
 - Neuro-Oncology monthly
 - Hematopathology monthly
 - Journal club monthly
 - M&M monthly
 - Palliative Care monthly

Our Curriculum

1st Year

- 28 Weeks Inpatient
- 8 Weeks Outpatient
- 8 Weeks Research
- 4 weeks Laboratory Medicine
- 4 Weeks Elective

2nd Year

- 32 Weeks Research
- 8 Weeks Stem Cell Transplant
- 8 Weeks Outpatient
- 4 weeks Radiation Oncology

3rd Year

- 48 Weeks Research
- 4 Weeks Pre-Attending

Research Opportunities

- Basic Science, Clinical, Translational
- Advanced QI training
- The Jackson Laboratory
- MCTR Advanced Degree

Life in Connecticut

- Hartford is Connecticut's Capital
 - Dynamic metropolitan area
 - Restaurants, Entertainment, Food & Nature
- Enjoy all 4 seasons in New England
 - Proximity to beach & ski
 - Less than 2 hours to Boston and NYC

Advantages of Our Program

- Fellow Continuity Clinic Weekly
- Diverse Patient Population
- Specialized Programs
 - Hemostasis & Thrombosis
 - Sickle Cell Disease
 - Neuro-oncology
 - Sarcoma
 - Hematologic Malignancy
 - Adolescent & Young Adult Cancer
 - Palliative Care
 - Survivorship
 - Supportive Care
 - Cardio-Oncology
 - Oncofertility
- Stem Cell Transplant Training
 - Boston Children's/Dana-Farber Cancer Institute
- Modern, free-standing Children's Hospital opened in 1996
 - 110-130 new oncology diagnoses/year
 - 180 sickle cell/thalassemia patients
 - Hemophilia Treatment Center
 - 24 bed HemOnc Unit
 - 18 bed PICU
 - New tower opening 2026 to include MIBG therapy & Stem Cell Transplant!

Utah Pediatric Hematology/Oncology Fellowship

HEALTH
UNIVERSITY OF UTAH

Program Highlights

- Largest geographic referral area in United States
- New clinic, infusion area and inpatient space opened July 2022
- Over 200 new oncology patients annually
- Hematology referral center for 5 states
- 25 faculty with expertise in BMT, cellular therapy, palliative care, neuro-onc, hematology
- Dedicated survivorship and cancer predisposition clinic
- Labs specializing in novel CAR-T therapy, checkpoint inhibition, new drug development and oncofertility

Fellowship Highlights

- 2 fellows per year; 6 fellows total
- 100% board pass rate
- Tuition support for masters in clinical investigation, public health and other advanced degrees
- Annual fellow winter retreat and bimonthly wellness dinners
- Support for conference attendance including ASPHO for incoming fellows
- Myriad of basic science, translational and clinical research opportunities
- Support for additional research years for interested fellows
- Monthly Fellow Business meetings drive program change

Utah and Salt Lake City

- One of the most livable cities in the United States

Program Highlights:

- 3 Fellows/Year
- Weekly Oncology and Hematology Clinics
- 350 New Diagnoses Per Year
- Diverse Patient Population
- Academic Half-Day Education
- Night Float Model with Home Calls
- Quaternary Care Center

UT Southwestern Affiliations:

- Multiple Masters Level Programs
- NCI-Designated Simmons Comprehensive Cancer Center
- Access to World-Renowned Basic Science Laboratories
- Multi-Disciplinary Conferences

Dallas, Texas:

- 4th largest metro area in the country
- Excellent dining, shopping and cultural activities
- Professional sports teams; NFL, NHL, NBA, MLB, MLS
- Affordable cost of living

Vanderbilt Pediatric Hematology/Oncology/SCT

- **Division Information**

- Division Director: Debra Friedman, MD
- Fellowship PD: Richard Ho, MD
- Fellowship APD: Scott Borinstein, MD, PhD
- Fellowship PC: Christine Rossney
- 21 Faculty Members
- 15 Outpatient/Inpatient NPs
- 9 Fellows (3 fellows/year)

- **Clinical/Research Opportunities**

- Robust clinical volumes with comprehensive exposure to all facets of oncology/hematology/stem cell transplant
- 343 bed hospital with a dedicated 31 bed PHO unit
- >250 new oncology patients yearly
- Vanderbilt-Meharry Center of Excellence in Sickle Cell Disease
- Comprehensive Hemophilia Treatment Center
- Vanderbilt Ingram Cancer Center (NCI Comprehensive Cancer Center)
- Opportunity for advanced degrees: MPH, MSCI

- **Program Culture**

- Collegial, collaborative, supportive, team-oriented
- Personalized fellowship training - track-based
- Dedicated faculty committed to education/training, research/scholarly activities, and mentorship
- Focused on fostering a career in academic medicine

- **Institution Culture**

- Focused on people, service, quality, growth and innovation
- #1 Children's Hospital in Tennessee (USNWR)
- Tied #1 Children's Hospital in Southeast (USNWR)
- Vanderbilt Ingram Cancer Center – Top 10 in funding (NCI)
- VU School of Medicine – Top 10 in funding (NIH)
- Department of Pediatrics – #1 in NIH funding (Blue Ridge)
- Academic enterprise on single campus

- **Geographic area/culture**

- Located in Nashville, Tennessee
- Metropolitan population: ~2 million
- Cultural, ethnic, and racial diversity
- AKA Music City, USA but with all amenities you desire: music, culture, arts, food, sports, and retail
- Corporate presence: Amazon, Oracle, Nissan, Bridgestone, and more
- Central location with easy access to east coast, west coast, and all in between

Program Basics:

- Medium sized program
- 2 fellows/year
- Flexible and career focused
- Options for basic science, translational, or clinical research, or an advanced degree

Services:

- 80-90 New Oncology Diagnoses per year
- 10-20 Transplants, CAR T Infusions, Gene Therapy Infusion
- 400-450 Sickle Cell Patients
- Comprehensive Hemophilia and Bleeding Disorders Program

Our Team:

- 11 attendings
- 9 APP's
- 3, Nurse Navigators, 3 Social Workers, 2 Pharmacists, 1 Chaplain, 1 Dietician, Dedicated psychology team

Program Director:

Dr. Marieka Helou

Associate Program Director:

Dr. Jordyn Griffin

Program Coordinators:

Lisa Wawrzyniak

at Virginia Commonwealth University
Pediatric Hematology Oncology Fellowship**

May 2025

The Baylor Pediatric Hematology and Oncology Fellowship Program - San Antonio at CHRISTUS Children's

Our Program

- 6 hematology-oncology attendings, 2 BMT attendings, 3 NPs
- 1 Ped Hem-Onc Fellow per year
- 65 New Oncology patients per year
- 5,000 hem-onc clinic visits per year
- Comprehensive, multi-disciplinary survivorship and cancer genetics clinics
- Clinical and scholarly activity all 3 years
- Focus on learner wellness and personalized curriculum
- Innovative teaching

Our Hospital

- 800,000 sq ft; \$135 million newly renovated space
- 6,507 Inpatient Discharges, 5,357 Surgeries, 94,423 ED visits, 280,341 outpatient clinic visits
- 90 Inpatient beds
- 60 Bed, Level 4 NICU
- ECMO, Transport
- 30 PICU/IMC beds
- 44 Bed ED
- Full-service OB/MFM & Neonatal Model
- Baylor Experience with CHRISTUS Compassion

Our City

- 7th largest city in the U.S.
- Large and growing pediatric population
- Great community, family friendly, low cost of living
- Fun, vibrant cultural scene
- Historic and military importance; tourist site
- Manageable drive to visit Austin, Houston, Dallas, and the Coast
- Networking opportunities with many training programs in the city.

Duke Pediatric Hematology/Oncology Fellowship Program

Program Highlights:

- **Our program:**
 - 17 faculty/3 fellows per year
 - PD: Jennifer Rothman
 - PC: Devin Compton
- 190 inpatient beds
 - 20 Bed PICU
 - Pediatric Oncology
 - 90 new patients per year
 - Pediatric Neuro-oncology
 - 85 new patients per year
 - Pediatric Hematology
 - Sickle Cell
 - Bone Marrow Failure
 - Hemostasis and Thrombosis
 - Transplantation
 - Visceral (small bowel, liver, kidney)
 - Heart
 - Hematopoietic Stem Cell
 - 60 transplants per year
 - Thymus
- Clinical training with an emphasis on clinical skills and autonomy
- A strong focus on fellow education with a comprehensive curriculum based on the American Board of Pediatrics guidelines
- Broad experience as the primary providers for pediatric hematology/oncology patients
- A strong focus on research, safety & quality, teamwork, and performance improvement
- Clinical schedule allowing for significant protected research time in the second and third years
- Extensive research opportunities through Duke University, Duke University Health System, Duke Cancer Institute, Duke Clinical Research Institute, Duke Global Health Institute, and others
- Additional training:
 - Global Health Fellowship Track
 - Combined Med/Peds Fellowship Track

Rotation	Duration
PHO Inpatient	17 weeks
PTCT Inpatient	10 weeks
Hematology Consult Service (inpatient)	8 weeks
Palliative Care (inpatient)	2 weeks
Neuro-oncology (outpatient)	6 weeks
PTCT Outpatient Clinic	2 weeks
Vacation	4 weeks
Elective: Heme Path, Rad Onc, Clinical Labs	3 weeks

Pediatric Hematology Oncology Fellowship

<https://www.medschool.lsuhschool.edu/pediatrics/fellowship/hemonc/default.aspx>

Program Basics

- 1-2 Fellows per year
- 1st year is focused on clinical training
- 2nd and 3rd year are focused on scholarly research
- Masters in Public Health offered
- Combined Medicine – Pediatric Oncology Fellowship
- Family culture
- Fellows treated as colleagues
- Constantly evolving based on fellow feedback

Program Highlights

- First year clinical: time on inpatient service, BMT service, outpatient, electives
- Dedicated week during first year for Research Academy
- 2nd year: lab, quality improvement or clinical research based on fellow interest and electives
- 3rd year: Junior attending time, lab, quality improvement or clinical research based on fellow interest and electives
- Clinical training with an emphasis on clinical skills and autonomy
- A strong focus on fellow education with a comprehensive curriculum based on the American Board of Pediatrics guidelines
- Emphasis on expertise development and academic career preparation
- Only pediatric facility in Louisiana to incorporate two academic pediatric medical programs under one roof, for educational enhancement and innovation

Clinical Excellence

- HSCT/CAR-T program
- Comprehensive Sickle Cell Clinic
- Girls with Bleeding Disorders
- Comprehensive Vascular Anomaly Clinic
- Thrombosis Clinic
- Survivorship Program
- Adolescent and Young Adult Program
- Minority Underserved NCI Community Oncology Research Program
- Neuro-Oncology Program

Pinki Prasad, MD Zach LeBlanc, APD Taylor Rogge, Coordinator

LSUPEDSFELLOWS

UNMC Pediatric Hematology Oncology Fellowship

Our Mission:

To help fellows achieve clinical excellence. Fellows will have inpatient and outpatient experiences in Hematology/Oncology as well as Stem Cell Transplantation and will have a cohort of patients that they will follow throughout their fellowship from diagnosis and selecting a treatment protocol, through completion of therapy and long term follow-up.

Strong Research Mentorship

Innovative Research across the institution available for basic science, translational, clinical, education, public health, etc.

Program Culture:

1 Fellow Per Year – Personalized Experience
8 Faculty with clinical, research, teaching, leadership, and mentorship expertise
Program Director: Melissa Acquazzino, MD
Associate Program Director: Jenna Allison, MD
Program Coordinator: Miranda Downing
