

University of Tennessee Health Science Center & St. Jude Children's Research Hospital's Pediatric Infectious Diseases Fellowship

Gain superior training in pediatric infectious diseases among immunocompromised children at **St. Jude Children's Research Hospital** and extensive and diverse pediatric infectious diseases at **Le Bonheur Children's Hospital**, both world class, state-of-the-art hospitals in their own rights. Our program provides exceptional research opportunities along with our excellent clinical training.

PROGRAM HIGHLIGHTS

- Welcoming and supportive culture
- Guaranteed research & CME stipends
- Flexible block schedules
- Customizable training tracks
- Excellent mentors and clinical teaching

SALARIES (2025–2026)

- PGY-4: \$87,901
- PGY-5: \$92,144
- PGY-6: \$96,574

ADDITIONAL BENEFITS

- Superior healthcare & wellness benefits
- Generous vacation, sick, maternity & paternity leave
- Opportunities for advanced degrees with support
- Opportunity for an additional year to further focus on the immunocompromised host, HIV, or transplant
- Research administration and biostatistical support
- Scientific editing free-of-charge
- Funding for publication and travel to conferences

Finding cures. Saving children.

UCSD PEDIATRIC ID FELLOWSHIP

World Class Clinical Training

- Unparalleled diversity in pathophysiology
- Diverse patient population
- Only Pediatrics in large catchment area
 - Largest Children's Hospital in California
 - 3rd largest Children's Hospital in the US
 - Busiest international border in the world
- Customizable and flexible clinical schedule
 - Tailored to meet fellow's career interests
- General ID, Immunocompromised ID and Outpatient ID services
- Unique clinical elective experiences:
 - Local International Rotations, Travel Medicine, HIV, Vaccines, Public Health, Global Health, STIs, TB, Refugee Intake, Infection Control, Antimicrobial Stewardship, Microbiology, Immunology, Periodic Fever, KD, MIS-C, etc.
- Outstanding Clinical Teaching/Mentorship

Welcome to the UCSD Peds ID Training Program!

Our program offers broad exposure to both common and rare pediatric infections, with an emphasis on bedside and clinical teaching, career and personal development, and opportunities to pursue learning through research or other academic endeavors. Our goal is to train future leaders in the field. We provide a strong foundation in Pediatric Infectious Diseases as well as training for an academic career. UCSD draws physicians of diverse backgrounds from all over the country and world. Our fellows are intellectually curious, passionate, dedicated to their work, supportive and adventure seeking. The fellowship program allows flexibility for tailored training experiences based on the specific interests of the fellow.

Congratulations on choosing to join the Pediatric Infectious Diseases community! We are excited to have you here at UCSD and Rady Children's Hospital and hope you enjoy your time with us. Cheers.

World Class Research

- Vast and varied academic opportunities
- Customized to match fellow's career path
- Guaranteed funding for any fellow research
- UCSD Pediatrics ranks #2 in NIH funding
 - Pediatric Infectious Diseases #1 in Department
- Major expertise in cutting-edge ID:
 - Including: Bacterial Pathogenesis, HIV, Genomics, Clinical Research, Microbiome, Pharmacology/Drug Discovery, etc.
- Collaborations with local famed institutions:
 - TSRI, Salk Institute, JCVI, LJI, SBP Discovery, UCSD CTRI, UCSD/RCHSD Institutes of Genomic Medicine, > 500 Biotechnology Companies, etc.
- Individualized tracks and mentorship:
 - Physician Scientist, Clinical Research, Clinician Educator, Public/Global Health, IC/AMS, Immunocompromised ID, other ID career paths
- Develop skillset to meet fellow's career goals

Our Program

- **Established in 2025. One of the newest Peds ID Fellowships in the US!**
- **Microbiology, Antibiotic Stewardship, and Infection Prevention Training**
- **Additional training in ethics, Quality & Safety Science, Masters programs available**
- **Scholarship and research opportunities in ASP, clinical, bench, and translational**
- **Flexible training experience tailored to meet your professional goals.**
- **Broad mentorship opportunities across the Division as well as the University and our adult colleagues**

Our Division & Training

- **5 Amazing Faculty with diverse clinical and research interests**
- **2 PharmD (Peds ID/ASP)**
- Full spectrum infectious disease consultant service. Supporting the largest pediatric transplant center for heart, liver, kidney, and bone marrow in the state.
- Level IV NICU, 28 bed PICU, Burn Center, complex medical and surgical service exposures.
- HIV care and immunocompromised host training.

We are a diverse division who takes amazing care of our patients and families, while taking care of each other. As experienced mentors, we want to foster the growth of our Fellows with support of their passions both in and out of the hospital! Our Fellows' success is priority one!

Shawn Jenkins Children's Hospital

- Opened in February 2020, is now the leading children's hospital in the state with a growing referral area spreading into surrounding states
- 250 inpatient beds – and growing!
- On the water in beautiful Charleston, SC!

Medical University of South Carolina

- Founded in 1864, MUSC is the oldest medical school in the South and has a rich history of academic excellence
- MUSC leads the state in biomedical research and is in the top 20% of health science institutions for NIH funding

University of Washington / Seattle Children's Peds ID Program

- 5-state region
- 2 fellows / year
- Research and clinical tracks
- Exceptional scholarly opportunities
- >100 program grads
- MPH/MS opportunity
- >85% grads stay in academics
- Equity a core value
- Transplant ID

Where the world comes for answers

Boston Children's Hospital Pediatric Infectious Diseases Fellowship Program

We seek to train leaders in academic infectious diseases with an emphasis on acquiring a breadth of clinical knowledge and research skills, while providing state of the art infectious diseases care to patients throughout our community and all over the world

Program Features

- Fellows are fully-funded for duration of training
- Accept 3 fellows per year
- We welcome applications from candidates seeking combined med-peds ID training, dual subspecialty training, ABP research pathways, international medical graduates
- Extensive research opportunities and mentorship across Harvard institutions
- Opportunities for coursework and masters degree programs
- Pathways including Immunocompromised Hosts/Transplant ID, Antimicrobial Stewardship, Global Health, Patient Safety and Quality Improvement, Health Services Research, Clinical Microbiology

Program Director: Tanvi Sharma, MD, MPH, FPIDS

Tanvi.Sharma@childrens.harvard.edu

Boston Children's Hospital

- Primary teaching hospital
- Over 500 beds
- 200+ specialized clinical programs and centers
- 40+ ACGME-accredited training programs, over 500 residents and fellows

MAYO CLINIC
Rochester, MN

FACULTY and FELLOWS

Elizabeth Ristagno, MD, MSc

- Theresa Madigan, MD
- Nipunie Rajapakse, MD, MPH
- Laura Dinnes, PharmD, BCIDP
- Christopher Reis, MD (2022-2025)
- Guyu Li, MBBS (2023-2026)

PROGRAM HIGHLIGHTS

- Small-sized program to foster close connections with colleagues with the resources of a large academic center to promote your professional development
- Faculty dedication to teaching and mentoring
- World renowned clinical microbiology laboratory, with opportunity for clinical microbiology fellowship
- Rotations include microbiology, immunology, infection control-antimicrobial stewardship-public health, in addition to clinical rotations in inpatient, clinic, and transplant
- Additional training in HIV and TB
- Generous conference travel policy
- Close collaboration with adult infectious diseases of over 30 faculty and 12 fellows
- Ability to tap into endless opportunities and resources of the Mayo Clinic, including Artificial Intelligence departments, internal funding, manuscript editing services, statistics consulting services
- Supports H-1B, J-1, and F-1 visas

PROGRAM CULTURE

- Flexible
- Customizable
- Supportive

INSTITUTION CULTURE

- #1 hospital in the nation
- "The needs of the patient comes first"
- Collaborative

GEOGRAPHIC AREA

- Comfortable and affordable city
- No traffic
- Excellent schools
- 4 seasons with a pleasant summer!
- Orchards, hiking, lakes, Mall of America

University of Alabama at Birmingham

- Come train with a diverse faculty who are world leaders in Peds ID!
- Broad research opportunities: basic, translational, clinical, epi & prevention, outcomes, ASP, Transplant ID, STI, health disparities, etc...
- Gain expertise in a wide variety of clinical conditions and settings
- Our program is flexible, tailored to suit each trainee's interests and career goals
- Strong track record of job placement in top clinical, research, and public health programs throughout the country

Program Culture:

Faculty are dedicated and supportive, fellows are valued colleagues; we strive for academic excellence within a family atmosphere.

Institutional Culture:

UAB SOM & DOP provide a diverse and highly supportive environment. Research, career development, and wellness resources are plentiful.

Geographic Area/Culture:

Amazing food and music scenes, great museums and cultural activities, outdoor activities galore, excellent schools.

University of Colorado Pediatric Infectious Diseases Fellowship Program

- 2+ fellows per year, 2 open spots in this year's match
 - In 2025-2026 we will have 6 categorical peds ID fellows and 1 med-peds fellow
 - Our peds ID fellows have diverse backgrounds and interests – the best fellows in the US!
 - Competitive residencies and fellowships, so you will be working with amazing co-fellows and colleagues throughout the hospital
- Large ID faculty with diverse research interests and opportunities for scholarship
 - >20 clinical faculty
 - Experienced mentors w/ excellent track record
 - We love our fellows
- Very diverse patient population from multiple states
 - All the pediatric medical and surgical specialists, many draw patients from out-of-state
- We are a busy consult service and you will see enough pathology to be prepared to practice independently and be competitive for jobs
- Noteworthy programs: antimicrobial & diagnostic stewardship; vaccines (policy, vaccinology, clinical trials); public health; global health; immunocompromised patients; pediatric HIV.
- Annual Conference on Pediatric Diseases in Vail!
- Part of a larger medical campus – adult academic medicine, a lot of biomedical science research on campus; medical school; public health school; nursing school; dental school; PA program; graduate biosciences

Phoenix Children's®

The Phoenix Children's Infectious Diseases Fellowship Program is the only one of its kind in Arizona.

We are dedicated to serving underserved communities in the Southwest.
Our graduates will provide care to children from a variety of ethnicities and social backgrounds, making a lasting impact on these communities.

Program Overview

1 Fellow Per Year – 3 Year Training Program
Pediatric ID Faculty with Diverse Research and Clinical Interests
Flexible Curriculum
Supportive and Uplifting Environment

Phoenix Children's

450+ bed free-standing children's hospital

- Fellows' educational series with formal Research, QI and Medical Education Curriculum
- Opportunity for fellows to select areas of interest for specialized rotational experiences
- Fellows will have direct interaction and mentorship with other fellows, residents and medical students. There will be both formal and informal education with these different learners. Residents are part of the Phoenix Children's Hospital Residency Program and Medical Students are from programs at University of Arizona, Mayo Clinic, and Creighton University

Program Leadership

- Wassim Ballan, MD – Program Director/Division Chief
- Scott Ostdiek, MD – Associate Program Director
- Barbara Gohre, BSHA – GME Accreditation Manager

Brief Benefits Overview

Education Assistance Program

Phoenix Children's Education Assistance Program provides eligible employees the opportunity to enhance their job skills and professional development through tuition reimbursement. \$5,250/year

Additional Benefits

- 3 wks of PTO/ 1 wk CME Time
- Free On-Site Parking
- Meal Funds (\$350/month)
- Reimbursed for Board Exam & Review Materials
- Conference travel allowance
- CME Funds- \$2500/year
- Parental Leave Benefit

University of Rochester Pediatric Infectious Diseases Program

Lake Ontario

Eastman School of Music

Golisano Children's Hospital

Erie Canal

High Falls

Our Program:

- To promote interest in Pediatric Infectious Diseases (ID) as a career choice among students and residents.
- Educate the next generation of academic Pediatric ID physicians
 - Flexible clinical service schedule
 - Ambulatory clinic ½ day weekly
- Teach the principles of research while fellows complete an independent project in a field relevant to Pediatric infectious diseases
 - Many research options, including clinical projects on vaccine development, translational research, epidemiology, and stewardship
 - Multiple out of division research opportunities
- Train fellows to become competent educators of the next generation of physicians, and prepare them to be confident and effective leaders of a medical team

- Dr. Brenda Tesini
- Dr. Ben Briggs
- Dr. Timothy Flerlage
- Dr. Regina Rowe
- Dr. Terry Wright (research faculty)
- Shelley Weekes (program coordinator)

UH Rainbow Babies and Children's Hospital in Cleveland, Ohio

- ***The Science of Health. The Art of Compassion.***

- We have a division of **7 full time faculty** members with variety of research interests in HIV, infection control, antimicrobial stewardship, as well as robust clinical trials participation
- We have a full time pediatric antimicrobial stewardship pharmacist who participates on ID rounds and also strong collaboration with microbiology lab with daily micro rounds
- We have three current fellows and we take one fellow per year through the match
- We also have solid relationship with our adult infectious diseases division for combined med/peds fellowship training and also research mentorship

Program Specifics:

- First year of fellowship is primarily clinical with about 6 months of inpatient service with 4 week microbiology elective, outpatient clinic, and research time.
- Years 2-3 have more dedicated time for scholarly work, with weekly ID or HIV outpatient clinic, as well as completion of other electives including infection control, transplant, antimicrobial stewardship, travel medicine, and ambulatory electives.
- We encourage participation in robust scholarly project completion, with guidance starting in first year to find mentor in your area of academic interest for longitudinal relationship leading to completion of work product.

Program/Institution Culture:

To Heal. To Teach. To Discover.

We believe in the importance of balance between clinical care, research, education, as well as wellness of mind and body.

Pediatric Infectious Diseases Fellowship Program

"To improve the health and well-being of children in our local communities and throughout the world"

Program Information

- ✓ 190-bed hospital
- ✓ All fellowship programs represented
- ✓ 7 full-time faculty; 2 part-time; 1 PharmD
- ✓ Recruits 1 fellow/year
- ✓ High Diversity of Cases (General, ICH, Transplant)
- ✓ Antimicrobial Stewardship; Infection Control and Prevention
- ✓ Outpatient Experiences in Transplant, Perinatal/CMV, Travel, HIV, Parasitology
- ✓ Supportive and flexible environment w/ fellow-driven programmatic feedback

Program Highlights

- Wide Range of Research and Educational Opportunities
- Two- year Masters in Clinical Research (starting 2nd year)
- High level of integration w/ adult ID and Research scholars at Albert Einstein College of Medicine
- Dedicated funds for conferences and other educational needs
- Opportunities to engage in Advocacy QI initiatives
- Additional benefits to support wellness and health

Cincinnati Children's Hospital

Top 10 Reasons to Join Cinci Peds ID

#10. If you feel the need for MORE education, we have funding for that - including MPH, Med Ed, MS Clin/Translational Research, etc...

#9. You don't have to love [goetta](#) or Skyline Chili to live here; although Graeter's ice cream is worth the trip

#8. Fellow driven clinical scheduling (NOT fellow dependent) with flexibility based on your specific path and training goals

#7. Train at a Top US News & World Report Children's hospital that is also Top 3 in the nation for NIH pediatric grants and funding

#6. Two consult services (general & immunocompromised), each with a full time Nurse Practitioner to support the team

#5. While it's a fully funded fellowship with great benefits, including relocation and 12-week maternity leave, recent fellows have received a number of different grants and funding including T32s, Pediatric Scientist Development Program, Thrasher, Strauss and more...

#4. You will see it all at a 720-bed hospital that serves a tri-state community and is also an international referral center (AKA bread & butter and a ton of zebras)

#3. Big city amenities with medium city traffic and low cost of living. Great place to enjoy all four seasons, an MLS soccer game after a James Beard finalist dinner while still being able to afford a house.

#2. Mentorship dedicated to the academic success of our fellows, with research opportunities for every interest... **Hint: look over there →**

#1. Our fellows are the star of the show and the 2-3 fellows we take each year join a group that is accepting, supportive of each other and part of a tradition of success after fellowship!

Track Record of Research Excellence in:

Virology

Vaccine Development

Clinical trials

Public Health and Epi

Immunocompromised Host

Antibiotic Stewardship

Global Health

QI

Clinical Informatics

Clinical Pharmacology

DEPARTMENT OF PEDIATRICS
PEDIATRIC INFECTIOUS DISEASES AND GLOBAL HEALTH FELLOWSHIP

Program Highlights:

- Clinical experience is exceptional, with a **primary** service, a **general consult** service, and an **immunocompromised consult** service, providing care in inpatient and outpatient settings
- Fellows have a wide variety of research opportunities with nationally recognized researchers in clinical, translational and basic science research ranging from **malaria** and **HIV** to **novel diagnostics**
- Further research mentorship is provided through the **Morris Green Physician Scientist Development Program** and **T32 research** training grants
- The **IU Center for Global Health** offers fellows research opportunities with partnerships in Kenya, Honduras, Mexico, Botswana, Thailand and other underserved areas

About us:

- Large division with **12 faculty members, 2 full time pharmacists and 1-2 fellow spots / year**
- **Riley Hospital for Children** is a 354- bed **free- standing children's hospital** with the support of the nearby adult center owned by IU Health
- Indianapolis is a mid-size city with shopping, restaurants and culture, with a **low cost of living** and easy access to air travel
- Fellowship Directors: **Shaina Hecht, MD** (smhecht@iu.edu) and **Katie Laycock, MD** (kalayco@iu.edu)

Program Overview

- Continuously accredited program with secure funding and history of successful graduates since 1994
- One fellow trained every 3 years, allowing for schedule flexibility and focused mentorship
- Teaching medical students and residents is an integral part of the training
- Opportunity to obtain Masters Degree
- Dynamic, interactive (and fun) conferences, including a weekly case conference, research meetings, board review, multidisciplinary immunodeficiency conference, and journal clubs
- Rotations in pharmacy/ASP, infection prevention, public health, and clinical laboratories
- Departmental Pediatric Fellows Conference series
- Social activities for all fellows in the Department

Seven physicians and one nurse practitioner with >100 years of collective experience in the field

- Faculty who occupy leadership roles at local, regional, and national levels
- Nationally recognized ASP, infection prevention, and vaccine clinical research programs
- Dedicated infectious diseases pharmacist

**Scan to learn more
about Peds ID at UofL:**

Inpatient

- Free-standing, 300-bed full-service children's hospital with diverse patient population
- General infectious diseases and separate transplant/immuno-compromised service
- 600 new consults/yr

Outpatient

- Unique among PID programs with sessions every day & broad range of clinical issues
- Dedicated vaccine clinic and multidisciplinary transplant clinics
- New, state-of-the-art multispecialty facility
- 1800 encounters/yr

Program Culture

Our division's traditions: academic dialogue, collaborative decision-making, equity and inclusion, critical self-assessment, process improvement, forward vision, and investment in faculty, trainees, and staff. And we're like a family!

Institutional Culture

Almost all faculty in the Department of Pediatrics are clinician-educators. Many have robust clinical research programs and are well-recognized in their fields. There is an excellent residency training program and there are fellowships in most subspecialties. The academic milieu is open-minded and accommodating—teachers, scholars, clinicians, and NIH-funded investigators are equally valued and supported. This is a comfortable place to work.

Pediatric Fellow at UofL**

Louisville, KY

Source: gotolouisville.com

Situated at the crossroads of the South, North and Midwest, Louisville is a medium-sized city with a unique history and culture, affordable cost-of-living, and friendly people. You are as close here to the country as you are to big-city offerings.

The spirit of the city: The Kentucky Derby; Heart of the Bourbon Trail; Louisville Slugger baseball bats; the Muhammed Ali Center; college basketball; nationally-accredited Olmstead-designed park system; progressive vision and diversity. And, of course, vibrant dining scene that includes farm-to-table restaurants, award-winning chefs and eclectic food trucks.

Why Choose Us?

- US News 2024-2025 Top 10 Honor Roll Hospital
- State-of-the-art facilities in the heart of the Texas Medical Center
- Diverse Houston community
- Supportive peer and faculty mentors

A Legacy of Excellence

- Trained over **100** post-graduate fellows who are practicing and conducting research across the globe!
- ACGME accredited since 1997
- Recruiting 3 fellows per year

Pediatric Infectious Disease Fellowship

The HIGHLIGHTS

Our mission: To train the next generation of leaders in pediatric infectious diseases

- Robust clinical training program
- Faculty with world-renowned ID expertise
- Opportunity to explore different career paths (Transplant ID, Antimicrobial Stewardship, Infection Control, Global Health, etc!)

Twitter:
BCMPedIDFellows
Instagram:
@bcmpeidfellows

<https://www.bcm.edu/departments/pediatrics/divisions-and-centers/infectious-diseases>

Program Culture: our priority is to develop outstanding Pediatric ID specialists who will be future leaders in the field and to train the next generation of physician-scientists. Our Program provides an excellent clinical & research training environment for our fellows, who have pursued careers in clinical Pediatric ID, ID research, Infection Prevention, Antimicrobial Stewardship, Global health, industry and more. We offer various research tracks. We offer a Combined Med-Peds fellowship, also. For details: <https://pediatrics.duke.edu/education/fellowship-programs/infectious-diseases>

Terrific Infectious Diseases Division

- Dedicated to improving the health of children by promoting excellence in the prevention, diagnosis & management of infectious diseases through clinical care, education, research and advocacy
- 14 ID faculty (MD & PhD)
- 4 current fellows
- 2 NPs, ID RN, HIV Social Worker, ASP pharmacist, etc.
- Faculty with diverse clinical interests & leadership roles
- **Division research** in clinical, pharmacology, basic science, translational, industry, education & global health
- **Division faculty in Duke's** Clinical Research Institute, Pediatric Trials Network, Global Health Inst, Human Vaccine Inst, Ctr for HIV/AIDS Vaccine, Ctr for AIDS Research, Microbiome Ctr, ABC Science Collaborative, BRAVE Kids Study, & more
- **Contacts:** Kammy McGann, MD (kathleen.mcgann@duke.edu)
Hope Hendricks, MD (hope.hendricks@duke.edu)

Program specifics – flexibility in scheduling

1st year: clinical training focus

- 2 inpatient consult services: General & Transplant ID; diverse patient populations
- Consults incl complicated common infections, unique presentations, & questions re: immunocompromised patients (BMT, SOT, incl multi-visceral Tx & thymic implant)
- Rotation in Microbiology, Antimicrobial Stewardship, and Infection Prevention
- 4 weeks of Professional Development

2nd & 3rd years: scholarly activity focus + clinical activity

- Complete inpatient service months
- Multitude of research mentors & resources
- Outpatient ID & HIV clinic
- Option for advanced degrees routinely pursued by fellows (MPH, MSCR, MScGH, others)
- Combined Med-Peds fellowship
- Combined ID/Global health pathway
- Departmental Fellows Core Curriculum and Fellows Research Conference
- Beautiful state-of-the-art Hospital (opened 12/2021)

Institution Culture: Duke is a nationally-recognized academic medical center with superb clinical & lab resources, coupled with an invigorating intellectual environment. Multiple institutes & centers support patient care & research. Duke Peds ranked #1 in NIH funding among US pediatric departments. Equity, diversity & inclusion are key drivers of our excellence, accelerating our ability to innovate & solve problems.

Geographic area: Durham ranked 3rd best place to live in US News & World Report (2023-24); Raleigh also highly ranked. Diverse population. Foodie town. Triangle with 3 universities.

- Easy access to the beaches & mountains
- Affordable housing
- Durham Performing Arts Ctr (DPAC), museums, college sports, Durham Bulls, and more
- Weather allows for year round outdoor activities
- Great restaurants, breweries, ice cream shops
- Vibrant place to live!

Clinical Training

- General and Immunocompromised ID Consult Services
- Ambulatory Clinics: General ID and HIV
- State-of-the-art Clinical Microbiology Laboratories
- Antimicrobial Stewardship and Infection Prevention

Scholarship and Research Activities

- Protected time for scholarly activity
- Pursue advanced degrees (MSCI, MPHS, MPH)
- Our fellows pursue a wide array of scholarly activities:
 - Global Health
 - Microbial Pathogenesis and Immunology
 - Epidemiology and Antimicrobial Stewardship
 - Medical Education

Program Leadership

- David Hunstad, MD – Division Chief
- David Rosen, MD, PhD – Program Director
- Traci Christenson – Program Coordinator

Program Overview

- Two fellows accepted each year
- Combined fellowship pathways available
- 19 Pediatric ID Faculty with diverse clinical expertise and research interests
- Numerous teaching awards have been won by our ID Division faculty
- Fellows have many opportunities to teach medical students and residents

St. Louis Children's Hospital

- 455 licensed beds
- 275,000 admissions annually
- 108 pediatric residents
- 100 subspecialty fellows
