

Baylor College of Medicine/Texas Children's Hospital Academic General Pediatrics Fellowship

AGP FACULTY

Jean Raphael, MD
Division Chief

Julieana Nichols, MD, MPH
Program Director

KEY FACULTY/CURRICULUM COMMITTEE

Teri Turner, MD, MPH, MEd

Audrea Burns, PhD

Teresa Duryea, MD

Aditi Gupta, DO

Ana Monterrey, MD, MPH

Teresia O'Connor, MD, MPH

Betty Del Rio Rodriguez, MD, MPH

Margaret Wood, MD, MPH

Linessa Zuniga, MD, MEd

CLINICAL TRAINING HIGHLIGHTS

→ Core Clinical Sites:

- Texas Children's Primary Care Practice
- Harris Health Pediatric & Adolescent Center

→ Elective Opportunities:

PHM, Newborn, Complex Care, Mobile Clinic

ALUMNI OUTCOMES

→ Faculty positions in medical education, clinical research

→ Local, regional, national healthcare leadership roles

→ Grant award recipients in health care delivery, clinical investigator awards, educational research

EDUCATION HIGHLIGHTS

→ Advanced degree: MEd, MPH

→ Curricular tracks:

- Medical Education/Leadership
- Health Services Research

→ Academic half-days

→ Fellow teaching role in resident continuity clinic

→ Didactic teaching: interns/residents, medical students, family medicine residents & psychiatry fellows

→ Fellows College

RESEARCH HIGHLIGHTS

→ Faculty working in diverse areas:  @BCM_AGPMedical education, immigrant/refugee health, obesity, complex care, immunizations, health disparities, ACEs, health services research, community-based participatory research

Emory University and Children's Healthcare of Atlanta

Our Goal:

To train outstanding pediatric nephrologists who are involved in a lifetime of excellence in patient-care, teaching, and research.

We Take Pride In:

- Our camaraderie!
- Investment in your professional success & personal well-being
- Exceptional clinical experience, teaching, mentorship & sponsorship
- Experienced multidisciplinary teams
- Well-funded and unique collaborations - Emory Univ Rollins School of Public Health, Georgia Institute of Technology, Centers for Disease Control and Prevention/CDC
- Local, national and international leadership opportunities

- Outstanding clinical, academic and research facilities. Consistently ranked in the top 10! (US News and World Report)
- Diverse division of 13 (soon to be 14) faculty, 5-6 fellows, and 8 APPs
- Large and diverse patient population with dedicated clinics for various pathologies (~50 dialysis patients, 25-30 renal transplants/year)
- Significant experience in procedures such as infant dialysis/Carpediem, CRRT, biopsies, apheresis, and more
- Structured and comprehensive curriculum that is truly exceptional (ultrasound course, electives with urology and our world-renowned HLA lab, monthly board prep, biopsy simulation, weekly learning didactics, three-week dedicated orientation period, and more!)

- One of the largest NIH-funded research departments in the nation. Mentorship and research opportunities in all areas
- Research experience tailored to fellows' area of interest. Option to enroll in Masters of Science in Clinical Research degree program

Atlanta is an affordable, fun, vibrant and culturally diverse city with a progressive history and world class amenities!

General Academic Pediatrics Fellowship

FELLOWSHIP PROGRAM

- 2-year program provides comprehensive training in general academic pediatrics
- Opportunities in the following areas as per the fellow's clinical interests:
 - *Primary care – direct patient care and resident precepting*
 - *Complex care*
 - *Pediatric "Access" clinics (developmental-behavioral pediatrics and dermatology)*
 - *Health services and population health research*
 - *Clinical and translational pediatric research*

TRAINING OVERVIEW

- Fellows will be exposed to diverse clinical training
- No evening or weekend responsibilities
- Fellows will participate in research training and will have substantial research experiences
- No greater than 40% of the training is dedicated to clinical time; a minimum of 60% of the training is dedicated to research
- Opportunity to pursue Master's degree that is paid for
- Fellows will interact with other subspecialty fellows through didactic lectures and research training courses
- Fellows will have access to the Delaware Center for Translational Research/ACCEL program at Nemours
- Fellows will have the opportunity to collaborate with members of our multidisciplinary clinical teams including psychologists, lactation consultants, social workers, and care coordinators
- Fellows will have access to professional development resources

PROGRAM CONTACTS

Jessica Rohde, MD, MPH
Fellowship Program Director
jessica.rohde@nemours.org

Neera Goyal, MD, MSc
Associate Fellowship
Program Director
neera.goyal@nemours.org

Clara Greskoff
Fellowship Coordinator

University of Rochester AGP/Primary Care Research Fellowship

INTERESTED in PUBLIC HEALTH/RESEARCH and REDUCING HEALTH DISPARITIES?

Goal: Provide a rigorous model of primary care research training produce investigators who can study, evaluate, disseminate and implement best practices in primary care

Fellow Activities:

- Conduct research projects in health disparities (75% protected time)
 - Fellows are trained in the key domains of research, population health, and leadership/career development, focusing on health disparities
 - Earn an advanced degree, e.g., Masters in Public Health, Master of Science in Clinical Investigation, Masters in Health Professions Education
- Clinical care serving disadvantage populations: practice-based QI, culturally responsive healthcare (25% protected time)

Current/Recent Fellows' Areas of Research:

- Crystal Craig, MD: Reducing Gun Violence Among Adolescents and Young Adults
- Shaelise Tor, PhD (MFT): Improving Infant Sleep and Reducing Maternal Post-Partum Depression
- Jahaira Capellan, NP, PhD: Enhancing Health Care Through Language Equity
- Susan Gasparino, MD, MPH: Decreasing Barriers to Engagement in Physical Activity for Urban Children
- Caroline Kirby, MD, MPH: Integrating DBP Care for Underserved Patients in Primary Care

What Are Recent Graduates Doing Now?

- Lead NIH/funded research studies: Sarah Ronis, MD, PhD, Director, UH Rainbow Center for Child Health & Policy, Sean Frey, MD, MPH (Rochester)
- Medical school clerkship director: Marybeth Jones, MD, MHPE, Cate Krafft, MD, MHPE (Rochester), MacKenzi Preston, MD, MHPE (Weill Cornell)
- Division Chief, Residency program director: Kelly Brown, MD, Western Michigan University
