

# University of California Irvine/CHOC Pediatric Infectious Diseases Fellowship

## Program information

By combining CHOC's diverse clinical volume with the robust research infrastructure of the University of California, Irvine, our fellowship offers an unparalleled training opportunity in one of the most desirable areas of Southern California. We invite you to join a program dedicated to graduating strong clinicians and scientists. We are proud to excel in patient care, clinical research, medical education, antimicrobial stewardship and infection prevention. The bulk of the training experience is at Rady Children's Health of Orange County with some at UCI Medical Center in Orange and the Orange County Health Care Agency. Research opportunities are tailored to each fellow's interest.

We offer guaranteed funding for 3 years and excellent benefits.

## You have an area of special interest?

Depending on your area of interest within pediatric infectious diseases, we offer specialized tracks to ensure you graduate with the skills you need to have a fulfilling career. Check out our website:

<https://www.choc.org/careers/residency-training-programs/uci-choc-pediatric-infectious-diseases-fellowship-program/>

## Contact:

Program Director: Delma Nieves, MD [dnieves@choc.org](mailto:dnieves@choc.org)

Associate Program Director: Matt Zahn, MD [Matthew.Zahn@choc.org](mailto:Matthew.Zahn@choc.org)

Coordinator: Karen Olson [Karen.olson@choc.org](mailto:Karen.olson@choc.org)

## What can be your experience of living in Orange County?

- Partake in serving a diverse population of nearly 3.2 million including 20% under the age of 18.
- With near perfect weather, enjoy various outdoor activities (beaches, parks, mountains).
- Visit multiple amusement parks and historic attractions.
- Enjoy the many performing arts venues, cultural and dining experiences.

- MHealth Fairview University of Minnesota Masonic Children's Hospital (primary site) - offers broad exposure to childhood infections, infections in the immunocompromised host, including inpatient and outpatient care.
- At the Children's Hospital and Clinics of MN, trainees complete inpatient rotations and a focused outpatient HIV experience rotation in the private healthcare setting.
- At Hennepin County Medical Center, trainees gain experience treating patients with infections including patients from the diverse immigrant and refugee population in Minnesota.
- Fellows participate in scholarly activities throughout training. By the end of the program, trainees present on scholarly activity at a national meeting (such as PIDS/St. Jude, PAS or IDWeek).

A collaboration among the University of Minnesota,  
University of Minnesota Physicians and Fairview Health Services

### Our Program

- Established in 2025. One of the newest Peds ID Fellowships in the US!
- Microbiology, Antibiotic Stewardship, and Infection Prevention Training
- Additional training in ethics, Quality & Safety Science, Masters programs available
- Scholarship and research opportunities in ASP, clinical, bench, and translational
- Flexible training experience tailored to meet your professional goals.
- Broad mentorship opportunities across the Division as well as the University and our adult colleagues

### Our Division & Training

- 5 Amazing Faculty with diverse clinical and research interests
- 2 PharmD (Peds ID/ASP)
- Full spectrum infectious disease consultant service. Supporting the largest pediatric transplant center for heart, liver, kidney, and bone marrow in the state.
- Level IV NICU, 28 bed PICU, Burn Center, complex medical and surgical service exposures.
- HIV care and immunocompromised host training.

We are a diverse division who takes amazing care of our patients and families, while taking care of each other. As experienced mentors, we want to foster the growth of our Fellows with support of their passions both in and out of the hospital! Our Fellows' success is priority one!

### Shawn Jenkins Children's Hospital

- Opened in February 2020, is now the leading children's hospital in the state with a growing referral area spreading into surrounding states
- 250 inpatient beds – and growing!
- On the water in beautiful Charleston, SC!

### Medical University of South Carolina

- Founded in 1864, MUSC is the oldest medical school in the South and has a rich history of academic excellence
- MUSC leads the state in biomedical research and is in the top 20% of health science institutions for NIH funding

# Brown Pediatric Infectious Diseases Fellowship

## Unique Characteristics

- 3-year, *fully-funded* program
- Option for med/peds ID training
- Supportive, inclusive environment
- *Individualized* approach to education
- Research curriculum
- School of Public Health Partnership
- RI Department of Health Partnership
- Beautiful location near Boston & NYC

- Program size: 3-4 fellows, ~1 fellow/year
- Training sites: Hasbro Children's and Women & Infants Hospital
- Faculty: nationally & internationally renowned; wide range of clinical & research interests:
  - Tuberculosis in Resource Limited Settings
  - Epidemiology of Respiratory & Gastrointestinal Infections
  - Global Health
  - Medical Education
  - HIV Education & Care
  - Infection Control
  - Antimicrobial Stewardship
  - Parasitology

- Join our close-knit infectious diseases family
- No. 1 Children's Hospital in California, No. 1 in the Pacific Region, & Top 10 in the Nation for over 15 years
- Strong GME Commitment to DEI & Wellness
- Live in beautiful, sunny Los Angeles, a city known for its diversity & access to world-class restaurants, museums, beaches, mountains, & entertainment

### PROGRAM HIGHLIGHTS

- **2 Consult Services**
- **State-of-the-Art Clinical Training**
- **Committed Mentors**
- **Robust Microbiology, ASP, Infection Control, & Immunocompromised ID**
- **Conduct World-Class Research at CHLA or USC**
- **Opportunities in Global Health & LA Dept of Public Health**
- **Advanced coursework at USC**
- **Flexibility & Experiences Tailored to your Interests & Goals**

# UH Rainbow Babies and Children's Hospital in Cleveland, Ohio

- ***The Science of Health. The Art of Compassion.***
- We have a division of **5 faculty** members with variety of research interests in HIV, infection control, antimicrobial stewardship, as well as robust clinical trials participation
- We have a full time pediatric antimicrobial stewardship pharmacist who participates on ID rounds and also strong collaboration with microbiology lab with daily micro rounds
- Recent addition of PA to augment clinical service support
- We have two current fellows and we take one fellow per year through the match
- We also have solid relationship with our adult infectious diseases division for combined med/peds fellowship training and also research mentorship

## Program Specifics:

- First year of fellowship is primarily clinical with about 6 months of inpatient service with 4 week microbiology elective, outpatient clinic, and research time.
- Years 2-3 have more dedicated time for scholarly work, with weekly ID or HIV outpatient clinic, as well as completion of other electives including infection control, transplant, antimicrobial stewardship, travel medicine, and ambulatory electives.
- We encourage participation in robust scholarly project completion, with guidance starting in first year to find mentor in your area of academic interest for longitudinal relationship leading to completion of work product.

## Program/Institution Culture:

### **To Heal. To Teach. To Discover.**

We believe in the importance of balance between clinical care, research, education, as well as wellness of mind and body.

Where the world comes for answers

The #1 children's hospital in the nation, nine years in a row

HARVARD MEDICAL SCHOOL TEACHING HOSPITAL

## Boston Children's Hospital Pediatric Infectious Diseases Fellowship Program

We seek to train leaders in academic infectious diseases with an emphasis on acquiring a breadth of clinical knowledge and research skills, while providing state of the art infectious diseases care to patients throughout our community and all over the world

### Program Features

- Accept 3 fellows per year
- We welcome applications from candidates seeking combined med-peds ID training, dual subspecialty training, ABP research pathways, international medical graduates
- Extensive research opportunities and mentorship across Harvard institutions
- Opportunities for coursework and masters degree programs
- Pathways including Immunocompromised Hosts/Transplant ID, Antimicrobial Stewardship, Global Health, Patient Safety and Quality Improvement, Health Services Research, Clinical Microbiology, Medical Education

### Boston Children's Hospital

- Primary teaching hospital
- Over 500 beds
- 200+ specialized clinical programs and centers
- 40+ ACGME-accredited training programs, over 500 residents and fellows

# UCSF Pediatric Infectious Disease Fellowship Program

The goal of the UCSF Pediatric ID Fellowship program is to train leaders in the field of pediatric ID.

## Our People

- 20 faculty spanning the career spectrum of Peds ID, including
  - Basic/translational science in pathogen/host defenses, vaccinology, and immunology
  - Clinical research in TB, malaria, HIV, public health, molecular diagnostics, and stewardship
  - Medical Education
- 1-2 fellows / year
  - Combined training program opportunities

## Our Program

- Guaranteed funding for 3 years
- Specialized program tracks (education/clinical & research)
- Dedicated microbiology rotation

## What makes us unique

- Opportunity to see patients at 2 free-standing children's hospitals with it's own set of unique patient populations
- Ability to individualize your training to fit your career goals
- Become part of a community of physicians dedicated to education, research, and excellence in patient care

# University of Michigan Peds ID Fellowship Program

## Program Director:

Michael Watson, MD, PhD  
[mewats@med.umich.edu](mailto:mewats@med.umich.edu)

## Associate Program Director:

## Program Coordinator:

Ms. Missy Rickelmann  
[missrick@med.umich.edu](mailto:missrick@med.umich.edu)

- 8 Peds ID Faculty
- 1 Fellow Position/Year (avg)
- 2 Peds ID APPs (NP, PA)
- 2 Full-Time Peds ID PharmDs
- 1 Peds ID Registered Nurse
- 1 Patient Services Associate
- Social Workers

## Fellowship Program Highlights:

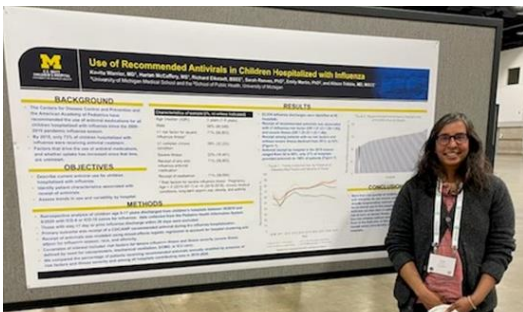

- Training at C. S. Mott Children’s Hospital at University of Michigan in Ann Arbor, MI
- U.S. News & World Report 2025 ranked #1 Children’s Hospital in Michigan
- 3-year, fully-funded, fellowship program
- General ID Consult Service
- Transplant and Immunocompromised Host ID Consult Service, Pediatric HIV
- Antimicrobial Stewardship Programs
- Infection Prevention/Hospital Epidemiology
- Abundant research opportunities with strengths in Microbiology, Public Health, Global Health, Health Services and Equity

## Wellness and Program Benefits:

- City of Ann Arbor, Michigan, recently voted #1 “Best Place to Live in America”
- Ann Arbor offers a great work-life balance with a vibrant college town atmosphere and big city attractions, amenities and diversity

- Program prioritizes fellow wellness and education
- Excellent Salary, Benefits, Perks
- See QR link to our Fellowship site

## ABOUT THE PROGRAM

Our training program is designed to allow fellows to pursue their individual interests – from arboviruses to zoonoses! The program prides itself on flexibility and allows trainees to choose their own career path.

- Robust inpatient and outpatient **clinical training** at two nearby community hospitals and the free-standing American Family Children's Hospital (Level 1 trauma/tertiary care), which serves a varied patient population from throughout the state and across the region.
- Trainee career development in basic, clinical, epidemiological, or global health **research** in the ID division or across campus with world-class mentors. UW–Madison ranks #5 nationally in research expenditures.
- Proximity to state capitol and WI State Health Department and Laboratory of Hygiene.
- Collaborative activities with UW adult ID, global health, pharmacy, and microbiology with opportunities to participate in infection control, antimicrobial stewardship, and immunization policy committees.
- Allied health campus includes schools of medicine, pharmacy, nursing, and veterinary medicine, as well as major teaching hospital and VA medical center.
- Fellows receive three years of full salary and protected research time to advance their careers.

## ABOUT MADISON

Consistently rated one of the best places in the country to live and play, Madison is a vibrant, picturesque city with a population just over 280,000. It is the capital of Wisconsin and home to the University of Wisconsin.

- Short commutes and low cost of living
- Rich with cultural offerings, arts, sports, outdoor activities, and food scene
- Thriving tech and biotech economy and home to the headquarters of Epic Systems, Exact Sciences, and Promega
- Easy driving distance to Chicago and Milwaukee

## WHAT OUR CURRENT FELLOW HAS TO SAY

*Rebecca Kemnitz, MD,  
PGY-5*

### What is special about the UW Pediatric ID Fellowship

"The faculty support you get is amazing. Each faculty member has their own unique area, but they have all shown a commitment and dedication to education."

### What is special about Madison, Wisconsin

"Madison is a perfectly sized community. It has that small town feel with big city options."
