

Baylor College of Medicine/Texas Children's Hospital Academic General Pediatrics Fellowship

AGP FACULTY

Jean Raphael, MD
Division Chief

Julieana Nichols, MD, MPH
Program Director

KEY FACULTY/CURRICULUM COMMITTEE

Teri Turner, MD, MPH, MEd

Audrea Burns, PhD

Teresa Duryea, MD

Aditi Gupta, DO

Ana Monterrey, MD, MPH

Teresia O'Connor, MD, MPH

Betty Del Rio Rodriguez, MD, MPH

Margaret Wood, MD, MPH

Linessa Zuniga, MD, MEd

CLINICAL TRAINING HIGHLIGHTS

→ Core Clinical Sites:

- Texas Children's Primary Care Practice
- Harris Health Pediatric & Adolescent Center

→ Elective Opportunities:

PHM, Newborn, Complex Care, Mobile Clinic

ALUMNI OUTCOMES

→ Faculty positions in medical education, clinical research

→ Local, regional, national healthcare leadership roles

→ Grant award recipients in health care delivery, clinical investigator awards, educational research

EDUCATION HIGHLIGHTS

→ Advanced degree: MEd, MPH

→ Curricular tracks:

- Medical Education/Leadership
- Health Services Research

→ Academic half-days

→ Fellow teaching role in resident continuity clinic

→ Didactic teaching: interns/residents, medical students, family medicine residents & psychiatry fellows

→ Fellows College

RESEARCH HIGHLIGHTS

→ Faculty working in diverse areas:  @BCM_AGP
medical education, immigrant/refugee health, obesity, complex care, immunizations, health disparities, ACEs, health services research, community-based participatory research

Emory University and Children's Healthcare of Atlanta

Our Goal:

To train outstanding pediatric nephrologists who are involved in a lifetime of excellence in patient-care, teaching, and research.

We Take Pride In:

- Our camaraderie!
- Investment in your professional success & personal well-being
- Exceptional clinical experience, teaching, mentorship & sponsorship
- Experienced multidisciplinary teams
- Well-funded and unique collaborations - Emory Univ Rollins School of Public Health, Georgia Institute of Technology, Centers for Disease Control and Prevention/CDC
- Local, national and international leadership opportunities

- Outstanding clinical, academic and research facilities. Consistently ranked in the top 10! (US News and World Report)
- Diverse division of 13 (soon to be 14) faculty, 5-6 fellows, and 8 APPs
- Large and diverse patient population with dedicated clinics for various pathologies (~50 dialysis patients, 25-30 renal transplants/year)
- Significant experience in procedures such as infant dialysis/Carpediem, CRRT, biopsies, apheresis, and more
- Structured and comprehensive curriculum that is truly exceptional (ultrasound course, electives with urology and our world-renowned HLA lab, monthly board prep, biopsy simulation, weekly learning didactics, three-week dedicated orientation period, and more!)

- One of the largest NIH-funded research departments in the nation. Mentorship and research opportunities in all areas
- Research experience tailored to fellows' area of interest. Option to enroll in Masters of Science in Clinical Research degree program

Atlanta is an affordable, fun, vibrant and culturally diverse city with a progressive history and world class amenities!

General Academic Pediatrics Fellowship

FELLOWSHIP PROGRAM

- 2-year program provides comprehensive training in general academic pediatrics
- Opportunities in the following areas as per the fellow's clinical interests:
 - *Primary care – direct patient care and resident precepting*
 - *Complex care*
 - *Pediatric "Access" clinics (developmental-behavioral pediatrics and dermatology)*
 - *Health services and population health research*
 - *Clinical and translational pediatric research*

TRAINING OVERVIEW

- Fellows will be exposed to diverse clinical training
- No evening or weekend responsibilities
- Fellows will participate in research training and will have substantial research experiences
- No greater than 40% of the training is dedicated to clinical time; a minimum of 60% of the training is dedicated to research
- Opportunity to pursue Master's degree that is paid for
- Fellows will interact with other subspecialty fellows through didactic lectures and research training courses
- Fellows will have access to the Delaware Center for Translational Research/ACCEL program at Nemours
- Fellows will have the opportunity to collaborate with members of our multidisciplinary clinical teams including psychologists, lactation consultants, social workers, and care coordinators
- Fellows will have access to professional development resources

University of Rochester AGP/Primary Care Research Fellowship

INTERESTED in PUBLIC HEALTH/RESEARCH and REDUCING HEALTH DISPARITIES?

Goal: Provide a rigorous model of primary care research training produce investigators who can study, evaluate, disseminate and implement best practices in primary care

Fellow Activities:

- Conduct research projects in health disparities (75% protected time)
 - Fellows are trained in the key domains of research, population health, and leadership/career development, focusing on health disparities
 - Earn an advanced degree, e.g., Masters in Public Health, Master of Science in Clinical Investigation, Masters in Health Professions Education
- Clinical care serving disadvantage populations: practice-based QI, culturally responsive healthcare (25% protected time)

Current/Recent Fellows' Areas of Research:

- Crystal Craig, MD: Reducing Gun Violence Among Adolescents and Young Adults
- Shaelise Tor, PhD (MFT): Improving Infant Sleep and Reducing Maternal Post-Partum Depression
- Jahaira Capellan, NP, PhD: Enhancing Health Care Through Language Equity
- Susan Gasparino, MD, MPH: Decreasing Barriers to Engagement in Physical Activity for Urban Children
- Caroline Kirby, MD, MPH: Integrating DBP Care for Underserved Patients in Primary Care

What Are Recent Graduates Doing Now?

- Lead NIH/funded research studies: Sarah Ronis, MD, PhD, Director, UH Rainbow Center for Child Health & Policy, Sean Frey, MD, MPH (Rochester)
- Medical school clerkship director: Marybeth Jones, MD, MHPE, Cate Krafft, MD, MHPE (Rochester), MacKenzi Preston, MD, MHPE (Weill Cornell)
- Division Chief, Residency program director: Kelly Brown, MD, Western Michigan University

Pediatric Hospital Medicine Fellowship Highlights

- 1 fellow per year
- 2-year ACGME-accredited program
- 25 Pediatric Hospitalists + 3 Med/Peds faculty
- No-cost advanced degree opportunities
- Funded Global Health elective
- Home of the Innocents experience (long-term facility for children with complex medical disease)

Why Louisville?

- Affordable cost of living
- Easy commutes
- Mix of urban/suburban/rural
- 9 major festivals yearly & over 120 parks
- Famous For:
 - Kentucky Derby
 - Louisville Slugger
 - Muhammed Ali
 - Bourbon Trails
 - Mammoth Caves

Clinical Environment: Norton Children's Hospital

- Kentucky's only free-standing Children's Hospital
- Sponsors 3 residency programs & 11 fellowship programs
- Level 1 Pediatric Trauma Center
- 300-beds + 14-bed pediatric community site
- 38 subspecialties within Pediatrics
- 7500 hospitalist admissions/year

General Academic Pediatrics Fellowship Program

Program Highlights

- 2 fellows per year
- Research project completed with the support of a project mentor identified during 1st year
- Opportunity to complete an MPH or other graduate program of interest at Harvard
- Bimonthly didactic seminars in conjunction with other fellows within the Division of General Pediatrics
- Monthly journal club
- Monthly CME and M&M discussions

Children's Hospital Primary Care Center (CHPCC)

- Located on main campus of Boston Children's Hospital

Martha Eliot Health Center

- Located in Jamaica Plain neighborhood of Boston

Clinical Training

- Strong clinical foundation during 1st year
 - 2 well child sessions
 - 1 urgent care session
 - 1 resident precepting session
 - 2 elective clinics
- Reduced clinical time during 2nd and 3rd year to provide protected time for graduate classes and working on research project

JOHNS HOPKINS
SCHOOL *of* MEDICINE

GENERAL ACADEMIC PEDIATRICS FELLOWSHIP

Why Hopkins?

- **Producing leaders** in academic pediatrics since **1978**
- Structured, intensive **mentorship** by experienced researchers, **core curriculum** focused on building research and **career development** skills so our fellows have the skills and experience to achieve their post-fellowship goals
- **80% protected time** for research and training ; 2 or 3 year program
- Precepting residents in the Johns Hopkins **Harriet Lane Clinic** or JHU-affiliated FQHC
- Opportunity to pursue a degree in the **#1-ranked Johns Hopkins Bloomberg School of Public Health**

Children's Hospital Los Angeles

General Academic Pediatrics Fellowship in Health Equity

Program Highlights

- Individualized training
- Personalized mentorship and structured support for scholarly projects, presentations, and publications
- A core curriculum anchored in health systems-science and equity centered care
- Pathways in Medical Education, QI, Community Health, Advocacy, and Research

Our Goal

To develop pediatricians who are skilled clinician-educators, effective child-health advocates, and leaders in academic medicine

Grow as an Educator

- Precept residents in clinic
- Robust opportunities to lead small-group teaching and contribute to didactics
- Build skills in curriculum design, assessment, and feedback
- Participate in interdisciplinary education initiatives

Clinical Experience That Makes a Difference

- Primary care continuity at AltaMed CHLA, one of the nation's largest FQHC networks
- Urgent care and specialty clinic electives
- Work with diverse, high-need patient populations

Why CHLA?

Nationally recognized for pediatric care, research and education

Partnership with AltaMed: Integrated services in primary care, behavioral health, dental, optometry, care coordination and family support

Los Feliz/East Hollywood is one of the most vibrant, walkable pockets of Los Angeles. Train at a top children's hospital in a neighborhood that fuels your wellness- where trails, cafés, and community are all just steps from campus

Train where mission meets impact.
