

University of Tennessee Health Science Center, Memphis, Tennessee Neonatal-Perinatal Medicine Fellowship Program

Why Memphis?

- Live within minutes from the medical district with scenic views of the Mississippi river
- Easy commutes and affordable housing in safe, family-friendly neighborhoods.
- **Affordable, Vibrant Living**
- Fellows can enjoy a comfortable lifestyle with less financial stress.
- Enjoy life outside the hospital with Memphis's **renowned food scene, music heritage, and outdoor recreation.**
- **We are a Community with a Cause**
- Be part of a city with a **deep sense of mission** and community — from caring for underserved populations to participating in public health initiatives.
- A welcoming, **diverse city** where your work truly makes a difference

Why UTHSC?

- Supportive Academic Environment
- Learn from our expert neonatologists at a Level IV and Level III unit
- Protected research time,
- Strong faculty engagement.
- 15 months clinical rotations plus 1 month on Cardiology
- Fetal center program and delivery service
- 3+ Didactics each week
- POCUS curriculum
- Monthly procedures and simulations sessions
- Clinical, translational and basic science opportunities
- Research fund dedicated to each fellow provided by the program
- Experience the UTHSC High-Risk Newborn Developmental Clinic
- Medium size program with 2 fellows per year
- Opportunity to do paid extra shifts
- Train at a **high-volume Level IV NICU** with a diverse, high-risk patient population

Le Bonheur Children's Hospital:
A 74 bed level IV unit

Regional One Health:
A 64 bed level III unit

Fellow Life and Culture

CLINICAL TRAINING

Inpatient: Women & Infants NICU

- 2-week service blocks
- 80 bed level IV unit – only NICU in RI
- 9,000 deliveries per year
- Busy MFM Service

Outpatient: NICU F/U Clinic

- One 2-week block per year
- Clinic in operation since 1974

Transport:

- Primary referral site for 7 level I-II nurseries in RI & Southeastern MA
- Transport team: Fellow/NP, RN, RT

RESEARCH OPPORTUNITIES

Research Methods

- 2-week basic course during first year
- Hassenfeld Fellowship (optional)

Mentorship Opportunities

- Clinical research and QI: NICU Faculty
- Basic Science: Center for Perinatal Biology
- Neurodevelopment and Behavior: Clinic Faculty & Brown Center for Children at Risk
- Public Health/Health Services: Hassenfeld Institute & Brown School of Public Health
- Global Health: Global Alliance for Infant & Maternal Health Research

EDUCATION

Simulation

- Procedural boot camp during orientation
- Simulation of uncommon procedures

Biweekly Academic Half Day

- Fellows' conference – core curriculum
- Fellow-led rotating journal club, M&M, etc.
- POCUS, QI and Palliative Care curricula

Multidisciplinary conferences

- Neuro-NICU Rounds
- Perinatal pathology conference
- MADAM (with pediatric surgery & MFM)
- ECMO Hour (with pediatric surgery & PICU)

MATCH DAY 2025

PROGRAM
SIZE:
9 FELLOWS

The Fellowship Program

- 3 year-ACGME accredited
- 6 total fellows (2/year)
- 60-bed level IV regional NICU
- Only dedicated neonatal air transport in VA
- Dedicated L&D unit and maternal fetal medicine
- 13 faculty with diverse clinical and research experience
- 13 NNPs
- Balanced clinical and research schedule

Children's Hospital of Richmond at VCU

- Level 1 Trauma and Surgical Center
- >10 subspecialties available
- 52 Pediatric Residents
- 14 Med-Peds

Richmond, VA

- Easy access to the Shenandoah Valley, Washington, DC and the beach
- Great indoor and outdoor attractions
- Diverse and rich culture
- Dog and Family friendly

Look Us Up!

 Endeavor Health

WHAT

- All Pediatric Sub-specialties
- ECMO
- Fetal and Neonatal Care Center
- Education
 - Weekly protected time
 - Core curriculum didactics, simulation, POCUS, case presentations, journal club, M&Ms, regional boot camps
- Research Opportunity
 - Bench or translational
 - Clinical
 - Med Ed
 - QI
 - Bioethics
 - AI/ Informatics
- Electives
 - Neonatal Transport
 - MFM
 - Nutrition
 - Follow-up Clinic
 - Pre and post-op cardiac care

WHERE

2 Main Sites:

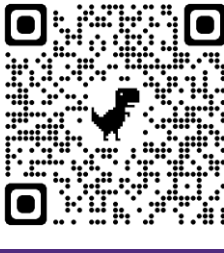

- Comer Children's Hospital
 - Level IV NICU, 71 Beds
 - Hyde Park in the South Side of Chicago
- Endeavor Health Evanston Hospital
 - Level III NICU, 44 Beds
 - Evanston, IL on the Northside of Chicago

WHY

- Individualized training tailored to each fellow's interests
- Robust opportunities in medical education, ethics, outcomes research, and QI Strong mentorship and collaboration across the University of Chicago and Endeavor Health
- Diverse clinical experience across two distinct health systems and patient populations
- Proven success in job placement in both academic and private practice settings
- Live and train in Chicago, with world-class food, culture, and recreation!!

Neonatal-Perinatal Medicine Fellowship

Scan Me!

- Regional referral center for 29 counties in Eastern North Carolina.
- The Children's Hospital houses a 71-bed Level IV NICU
- A 1500 admissions in-house delivery service of 4,500 births and 20,000 regional births.
- High-risk follow-up clinic sees 400 infants yearly.

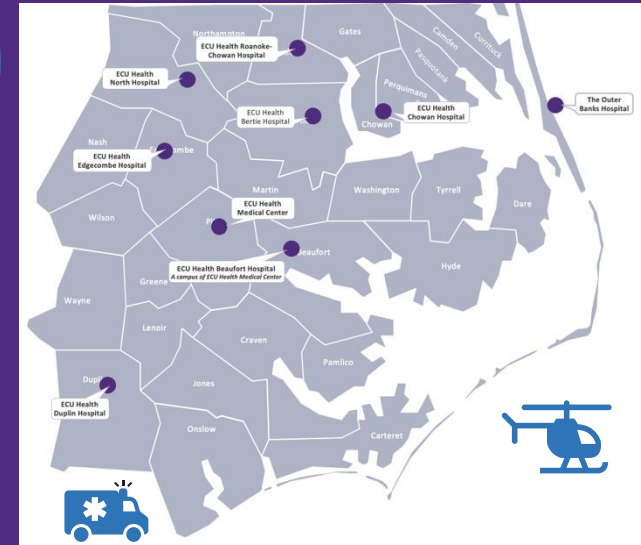

The program:

“Diverse Faculty with different backgrounds, creating an excellent learning atmosphere for learners and trainees...”
 “Supportive staff for fellows for clinical and research goals...”

- 3 Fellows per year ✓
- 2 weeks service blocks ✓
- Amazing call schedule (Q6-8) ✓
- Family oriented ✓
- Great team camaraderie ✓
- Exposure to high-risk neonatal transport ✓

Children's

Your Training. Your Science. Your Path.

Stephanie Mavis, MD, MHPE (PD) · Amara Heard Stittum, MD (APD)

Rochester, MN

Mayo Clinic's NPM Fellowship equips you to deliver extraordinary clinical care, pursue scholarship that matters, and build a career that's distinctly yours.

1 Fellow per year

12 Faculty

63 NICU beds (Levels IV & III)

~1,325 Annual NICU admissions

20+ Regional hospitals served 24/7/365 via teleneonatology

Rigorous Clinical Training

- EPA-guided, milestone-aligned graduated entrustment in delivery room, Level III + Level IV experiences, and perinatal consultation
- All fellows receive quality improvement training via the Mayo Quality Academy
- Week-long Incoming Fellow Bootcamp: simulation, procedural mastery baselines, advanced communication with professional actors and palliative care faculty
- Active, protected weekly conferences including much more than board prep – landmark series, equity, leadership, procedural mastery, and advanced communication curricula
- Palliative care & clinical ethics rotation; advanced communication threaded across all three years of training

Check out our website and Instagram for more details about our program!

Scan Me

Individualized Scholarship Paths

- 21 dedicated research blocks — shaped around your scientific vision from year one
- Physician-scientist paths with enterprise-wide mentors
- CCaTS: Certificate or Master's in Clinical & Translational Science; AI & Mixed Methods tracks
- Opportunities in health systems research (Kern Center), bioethics (BEST program), and tailored, sponsored global NICU rotations (MIHP)
- Education scholarship: Clinician Educator program; MHPE pathway for select fellows

Diverse Faculty Scholastic Interests

- Fetal intervention, complex prenatal diagnoses & fetal surgery
- Prematurity outcomes, SDOH, chronic lung disease & neurodevelopment
- Teleneonatology, telesimulation & quality improvement science
- AI, digital health, genomics & health services research
- Periviability ethics, end-of-life communication & medical education
- Global neonatology & health equity

Inclusive Community & Program Camaraderie

- Small cohort fosters deep peer bonds and genuinely individualized faculty-fellow mentorship — fellows stay for the people
- Dual training pathways (e.g., NPM + Medical Genetics) for fellows with integrative scholarly interests
- Annual Bootcamp bonding; wellness embedded at program, division, and enterprise levels — not an afterthought
- Well-Being resources: Well-Connect 24/7 mental health, EAP on-campus counseling, DAHLC (60,000 sq ft fitness center), backup childcare
- Generous benefits: 6-wk parental leave, 20 vacation days, up to 10 conference trip days/year, \$2,550 reimbursement per trip, \$600 book fund
- Rochester, MN: safe, affordable, family-friendly — excellent schools, trails, farmers markets

Robust Clinical & Translational Science Support

- CCaTS: full institutional hub from discovery → bedside → community
- VON & CHNC membership: multicenter collaboration and shared data access
- NICHD-funded TELENEO Trial — international, multicenter randomized controlled trial
- NICU Mayomics (Genome) board — precision neonatology embedded in daily practice
- 24/7 teleneonatology to 20+ hospitals — built-in laboratory for health delivery science

University of Colorado Neonatology Fellowship

Program Mission: Combine rigorous, individualized clinical and research training in a supportive community to prepare our graduates for fulfilling and successful academic careers as physician scientists or clinician educators

Who are we:

- 44 MD and 5 PhD faculty
- 4 Fellows/Year
- 60+% of graduates take academic jobs
- Fellow Scholarship (last 5 years):
 - 37% clinical/HSR, 47% basic/translational science, 11% med ed, 5% QI/PS

Where are we:

- Denver:** vibrant, young, diverse, progressive city
- One of the largest performing arts complexes in US
 - Great restaurants and breweries
 - College and major league sports
- Colorado:**
- 300 days of sunshine/year
 - Mecca for year-round outdoor activities
 - Major ski areas within an hour of Denver
 - Fantastic hiking and camping in Rocky Mountains

Email us!

Jeanne.Zenge@childrenscolorado.org
Nicolle.Dyess@childrenscolorado.org

Clinical Training

- 2 Large Academic NICUs serving large 7-state catchment area
- **Children's Hospital Colorado:** 82-bed Level 4 NICU with Fetal Care Center
 - **University of Colorado Hospital:** 50-bed Level 3 NICU
 - 4 weeks of elective time, including opportunities to work at Denver Health, county safety-net hospital
 - A myriad of procedural opportunities
 - ~15 ECMO runs in NICU each year

Ask Us About:

- Division-supported Master's Degree training
- Section and Department DEI efforts
- POCUS education and training
- Experience with in-house and from-home call
- Opportunity to conduct large animal research
- Our expertise in neonatal cardiopulmonary diseases, nutrition, and health disparities/clinical outcomes research

The MedStar Health–Georgetown University Hospital Fellowship Program in Neonatal– Perinatal Medicine

This fellowship program is fully accredited by the Accreditation Council for Graduate Medical Education (ACGME) and meets the requirements of the American Academy of Pediatrics Subspecialty Board in Neonatal/Perinatal Medicine. The fellowship is a part of the Division of Neonatology and Neonatal Intensive Care Unit (NICU) Services.

This three-year program generally accepts two fellows per year and is designed to help them achieve:

- Professional competence in the clinical care of the critically ill newborn
- Skill in the design and conduct of clinical and basic science research
- Excellence in teaching

Commitment to continuing professional education:

- Landmark textbooks provided
- Funding for laptop
- Funding to submit/present at national conferences
- Protected board study and didactic time
- GME funding for medical license or other costs
- Simulation center
- Animal procedure lab
- Individually tailored research support – dedicated
- NIH-funded PhD mentors
- Active HRIF/MFM Clinics

Commitment to each trainee as an individual:

- Wellness focus
- Bonding events throughout the year
- Resources for physical, mental, spiritual health
- Mission Fellow/Faculty rotation
- Mission Statement: Make Man Whole

Unique Clinical Exposures:

- Tiny Baby Program
- Cardiac multidisciplinary team
- Multidisciplinary prenatal consult team
- Active transport program
- Huge referral area
- Neonatal ECMO housed in NICU
- Neuro-NICU program
- Level IV NICU/Community Hosp
- State of the art simulation center/education

Collaboratives/Initiatives:

- Diverse patient populations
- Numerous QI initiatives/subjects
- Numerous DEI initiatives/groups
- Neo-Palliative program
- OB/MFM/NICU Collaborative
- BPD Collaborative
- Neuroprotection Collaborative
- Many MRCTs
- Division and Fellow-focused POCUS teaching

The Clinical Experience

- **Level IV NICU**
 - 59 Beds
 - ~1500 admits/yr
- **13-14 clinical months**
- **40-45 calls/yr**
- **All Pediatric Subspecialties**
- **Busy ECMO center**

Elective Experiences

- Neonatal Transport
- Cardiac ICU
- Neonatal Nutrition
- Maternal Fetal Medicine
- Palliative Care
- Antenatal Consults
- Community level III NICU

Robust Didactic Curriculum

- Simulation/Procedure lab
- Neonatal POCUS
- Protected education time every week
- 100% board pass rate since 2009!

Research Opportunities

- Quality Improvement
- Neonatal Ethics
- Neonatal Resuscitation
- Medical Education
- Neonatal Nutrition & Metabolism
- + More!

Life at U of M

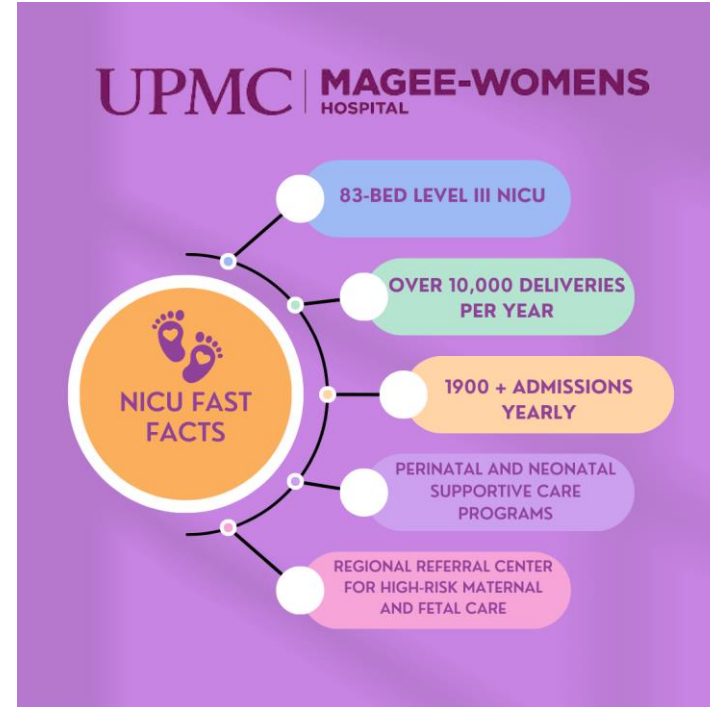

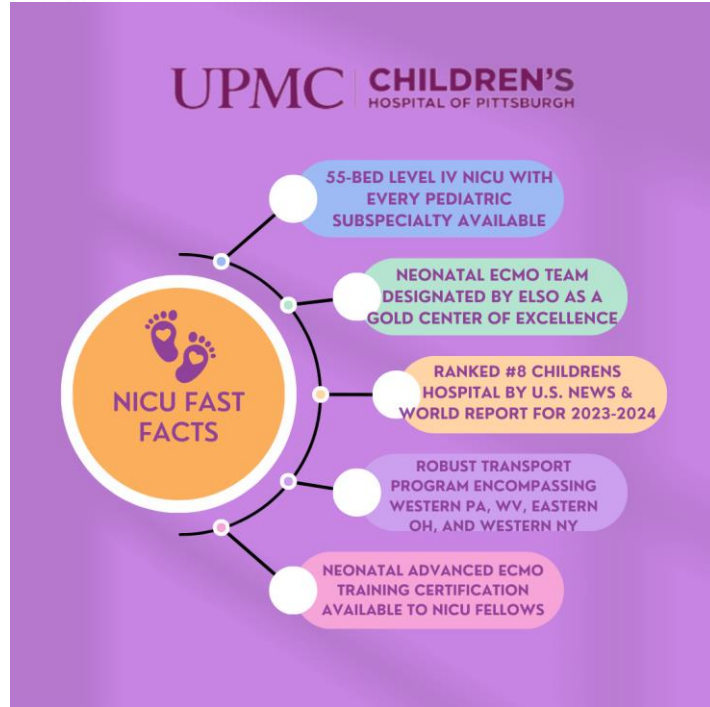

- **House Officers Union**
 - Overtime pay on holidays
 - Extended family leave
- **Annual Fellow Retreat**
- **18 total pediatric fellowships**

Ann Arbor is consistently rated one of the top places to live in the U.S.! Our fellows benefit from living in a vibrant town with access to cultural events, outdoor activities, great restaurants and sports (GO BLUE!)

UPMC Neonatal-Perinatal Medicine Fellowship

Pittsburgh is voted one of America's "most livable cities"

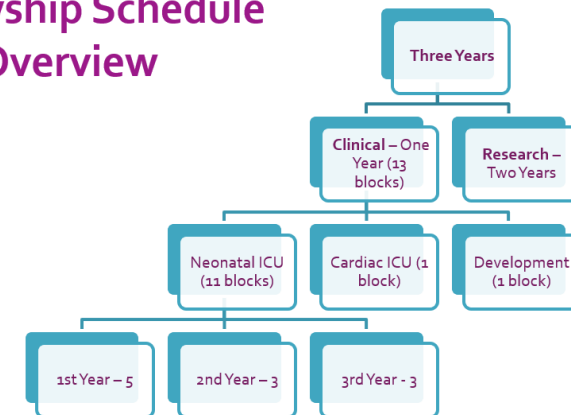

Program Highlights:

- Robust transport experience
- Neonatal Advanced ECMO Training Program
- Ample research opportunities including: clinical, translational, quality improvement, and medical education

Sidney Kimmel Medical College at Thomas Jefferson University/duPont Hospital for Children Program

Neonatal-Perinatal Medicine

ACGME ID: 3294121104

Institution: Sidney Kimmel Medical College at Thomas Jefferson University

ABOUT OUR PROGRAM

- The mission of our Neonatal-Perinatal Fellowship program is to train fellows for clinical and academic neonatology, improve lives, and provide fellows with exceptional value in 21st century professional education. We value an inclusive environment that embraces, cherishes, and celebrates the diversity of our fellows. We believe that a diverse and inclusive environment is key to achieving excellence in our mission of training fellows for clinical and academic neonatology. We believe that our mission and values will create and nurture the physicians who provide compassionate and culturally-sensitive care to the diverse patient population that they serve. Our program accepts J-1 and H1-B visas.
- Our program covers three sites: Thomas Jefferson University, Philadelphia, PA; Nemours Children's Health, Wilmington, DE; and Christiana Care Health Services, Newark, DE. Fellows will rotate through all three sites with a total of 12 months of clinical service plus one Nemours CICU rotation during second year, and one MFM rotation that is divided between Jefferson and Christiana during third year. In addition, fellows will complete a research project and submit a manuscript for publication. We also have the option of participating in a Master's Program, which may be paid by the department.
- Transportation is required for travel between sites.
- For more information, please check out our website: <https://www.nemours.org/education/gme/fellowships/neo-perinatal.html>

Vibrant Program with World-Class Clinical Training

We prepare trainees for careers in Neonatal-Perinatal Medicine by providing a comprehensive fellowship with world-class clinical training.

- Highly engaged physician and nurse practitioner faculty are very active in providing clinical training with graduated autonomy, culminating in fellows serving in an attending role during the latter half of third year.
- We have strong collaboration with Maternal-Fetal Medicine (a highly-regarded MFM fellowship program!).
- By the numbers: 8 fellows, 19 full-time MD faculty, 27 NPs
 - UNC NICU: 74 beds (50 pod-based and 24 individual rooms); over 25 pediatric and pediatric surgery subspecialties; a multidisciplinary regional Airway Center and Fetal Care Center drawing patients from across NC, SC and VA.
 - UNC Women's Hospital: 4400 deliveries yearly; majority are high-risk
- ❖ UNC School of Medicine, UNC Pediatrics and NPM are *committed to promoting diversity in our residency and fellowship programs so that we can provide the very best in clinical care, education and research to the patients that we serve.*

Wide Range of Opportunities for Research and Scholarly Activity

We offer a wide array of opportunities for research and scholarly activity through an individualized curriculum designed to help fellows reach their career goals.

- Opportunities in laboratory-based research, clinical/translational research, global health, quality improvement, health policy, ethics, palliative care, education, and more.
- Rich research partnerships: NEC Biorespository, NRN, ELGAN, Global Network, Pediatric Trials Network, Quality Collaborative
- Almost one-third of our fellow graduates have earned an MPH as part of their training at the UNC Gillings SPH, the #1 School of Public Health in the country.
- Easy walking distance to a rich diversity of UNC research opportunities (\$1.2 billion in sponsored research)

Rich Fellow Experience

- 93% first-try board pass rate over 40 years
- Cohesive fellow group with "family feel" within the Division and Department
- Chapel Hill is a great place to work and live!

Neonatal-Perinatal Fellowship

Program Highlights

- Medium sized, two fellows per class
- Over 50% continue in academic medicine
- High volume Level IV NICU at primary hospital with rotations at referring community hospitals
- Generously compensated moonlighting opportunities for fellows within program
- POCUS curriculum rolling out in 2026
- Quarterly wellness afternoons and yearly full wellness day paid for by program

Clinical Excellence

- Diverse patient population with broad clinical pathology
- Robust transport exposure with wide referral area from US-Mexico Border to the Texas Hill Country
- Clinical and research nutrition team with access to DEXA, Peapod, Milk Depot, and Milk Bank
- Comprehensive subspecialty support and substantial exposure to uncommon disease processes

Education Excellence

- Nationally recognized faculty in neonatal ID, GI/nutrition, cardiology, and MedEd with a passion for fellow education
- Protected time for weekly board review curriculum
- Paid board review courses and conference attendance
- Dedicated time off for pediatric board exams
- Individualized tracks for QI, medical education, and research

Research Excellence

- Robust research program (clinical, translational, basic science, education) with research assistant support for fellows
- Multiple trainee research awards including SSPR Young Investigator award and travel awards under NIH supported investigators
- Opportunities for advanced degrees in diverse subjects including translational research, biomedical data science, and education administration paid for by fellowship program

Official pediatric teaching hospital of

Our Program & Culture

- 3 fellows/year of training
- 40+ neonatal faculty members
- Outstanding Clinical Care
- State-of-the-art Research Experience
- Personalized Training
- Inclusive & Supportive
- Promotes & Fosters Wellbeing
- Fellow feedback drives change

Educational Conferences

- Neonatal Didactics 3+ hours/week
 - Interactive Presentation
 - Case Discussions
 - Simulation
- Fellowship Core 2 hours/month
- Board Review
- Conferences
 - Physiology/pathophysiology conference
 - Cutting-edge, evidence-based medicine conference
 - Neonatal-Perinatal conferences with MFM/OB
 - Fetal Care Conference and Journal Club

Our Curriculum

1st Year

- 6 blocks clinical service
- 7 blocks research
- 48 night/weekend call shifts
- 7 Neonatal Follow up clinic days

2nd Year

- 4 blocks clinical service
- 9 blocks research
- 48 night/weekend call shifts
- 7 Neonatal Follow up clinic days

3rd Year

- 4 blocks clinical service
- 9 blocks research
- 48 night/weekend call shifts
- 7 Neonatal Follow up clinic days

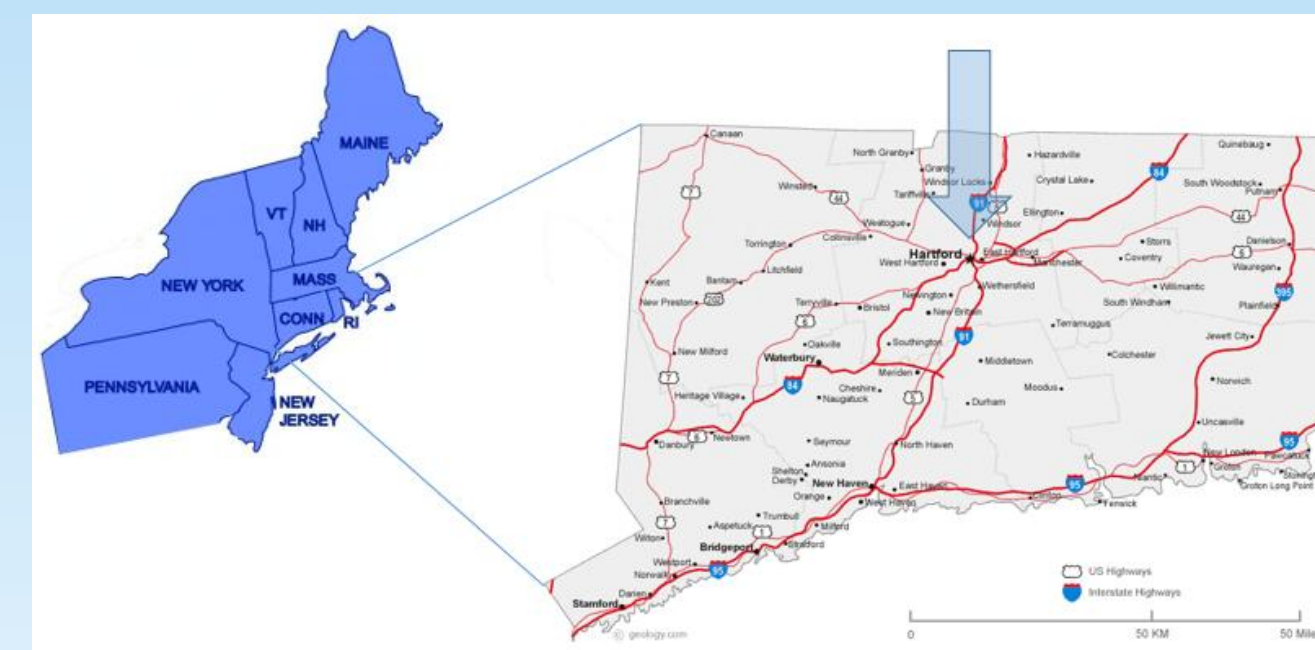

Research Opportunities

- Basic Science, Clinical, Translational
- UCONN Health
- The Jackson Laboratory
- MSCR Advanced Degree

Life in Connecticut

- Hartford is Connecticut's Capital
 - Dynamic metropolitan area
 - Restaurants, Entertainment, Food & Nature
- Enjoy all 4 seasons in New England
 - Proximity to beach & ski
 - Less than 2 hours to Boston and NYC

Advantages of Our Program

- New hospital tower – opened 2025
 - Neonatology and Fetal medicine comprise almost 50% of new tower space
 - 50 new single-patient, private NICU rooms on 2 floors
- Fetal medicine program
- ECMO and Cardiothoracic surgery programs
- Level 4 NICU experience
 - Currently with 57 beds
 - Level 3 community hospital elective sites
- Neonatal ground transport program
- Global health opportunities
- Modern, free-standing Children's Hospital opened in 1996
 - Full range of medical and surgical subspecialists to support NICU
- Diverse Patient Population
- Excellent benefits and generous academic stipend

- Focused bootcamp
- ECMO & POCUS training
- Protected educational and research time
- Multi-disciplinary conferences
- Board review series

Location

- Phoenix, AZ
- 5th largest city in US
- Quick access to nature, skiing, beaches
- Pro sports teams
- Growing foodie scene
- Over 300 days of sunshine annually

Sites

- 2 Teaching Hospitals
- <3 miles apart
- Brand new 49 bed level 4 NICU
- 70 bed level 3 NICU w/ delivery room experience
- CVICU Rotation

Research

- Diverse faculty with many active projects
- Designated research mentors for fellows
- Univ. of Arizona research partner

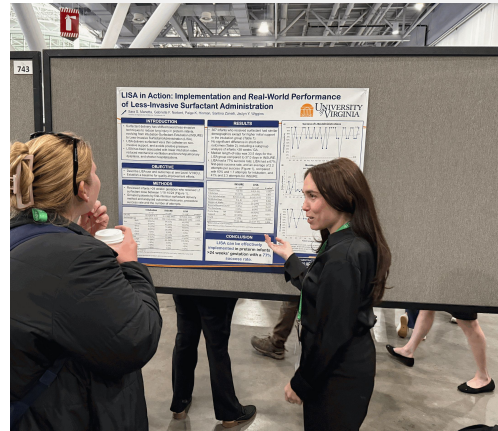

CLINICAL

- Level IV NICU, 64 beds
- Expanding to ~100 beds in 2028
- ~900 admissions per year
- Central VA MFM referral center
- Dedicated transport team (NETS)
- ECMO, HFOV, iNO, therapeutic hypothermia
- NeuroNICU & follow-up clinic

RESEARCH

- Neonatal neurology (bench + clinical)
- AI/predictive monitoring
- Neonatal nephrology
- Outcomes & developmental
- Medical Education
- Dedicated ethics track

Jennifer Burrows, MD
Alix Paget-Brown, MD

CHARLOTTESVILLE

- Blue Ridge hiking, skiing, paddling
- Award-winning food & wine country

Milwaukee, WI

Medical College of Wisconsin

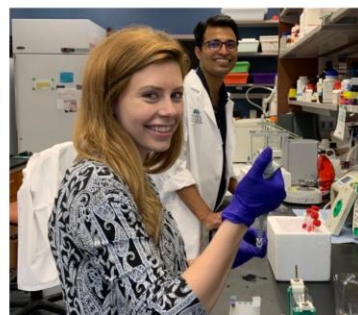

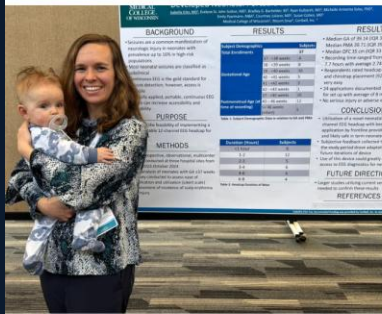

Largest NICU in the state, bridging a free-standing Children's Hospital with a high-volume birthing center: a unique training opportunity to see the full spectrum of neonatology each and every shift.

- 78-Bed Level IV NICU with 4,000+ deliveries annually
- 1,000+ admissions yearly
- Outstanding research opportunities
- Family friendly program
- Excellent cost of living
- Large urban/suburban setting

Neonatal Perinatal Medicine Fellowship

Clinical Environment

- Regional Perinatal Center in vibrant, diverse Bronx!
- Level IV 35-bed unit
 - High-risk deliveries
 - Neurocritical care
 - Busy surgical service
- Large referral network (NYC, Westchester)

Our Team

- Six fellows (two per year)
- 14 full-time faculty
- 11 full-time advanced practice providers
- ICU Pharmacist, Clinical Dietician, RT, PT, OT, SLP

Educational Experience

- Hybrid academic half day
- Robust simulation and POCUS curricula
- Neurodevelopmental follow-up
- Palliative care
- Transport medicine

NICU Fellowship at the University of Wisconsin-Madison

Strong Clinical Experiences

- Level III NICU in the busiest delivery hospital in the state with a robust high-risk maternal-fetal concerns center
- Level IV NICU with ECMO exposure serving families from a 4-state radius
- UW Med Flight ground & air transport named "Program of the Year" by Metro Aviation
- Member of Vermont-Oxford Network, Children's Hospital Neonatal Consortium, & Tiny Baby Collaborative
- Use of POCUS, NIRS, NAVA, HFJV, Telehealth

Diverse Research Opportunities

- Nutrition & growth
- Neurodevelopment
- Surfactant delivery modes
- AI
- AKI
- ROP

Inspiring Mentors Committed to Individual Growth

- Fellow retreats and individual coaching
- Protected time for education and professional development

Collaborative Work

- "Everyone is genuinely supportive, prioritizing not only our training & success, but also our well-being. This is a strong community where we feel valued & motivated to excel." — recent graduate

Madison: A Chart-topping City

- Vibrant, picturesque
- Good for raising families
- Ranked 12th happiest city in 2026
- Named #1 city for Gen Z workers in 2025
- Bikeable, short commutes
- Easy access to foodie-approved restaurants, sports, concerts, visual & performing arts, and all-season outdoor activities

Elizabeth McBride, MD
Program Director

Associate Program Director

University of Utah & Primary Children's Hospital

Why Train With Us ?

- Broad exposure: Level III/IV NICU with diverse pathology
- Largest catchment area in the country
- Strong mentorship and graduated autonomy
- Funded opportunities in research, QI, education, and advocacy
- Collaborative, interdisciplinary culture with a focus on wellness
- Fellow Centric but Not Dependent program
- Salt Lake City routinely ranked as one of the happiest cities

Life After Fellowship

- 50% of graduates continue in academic neonatology
 - Education, research, and leadership roles
- 50% High-acuity clinical practice

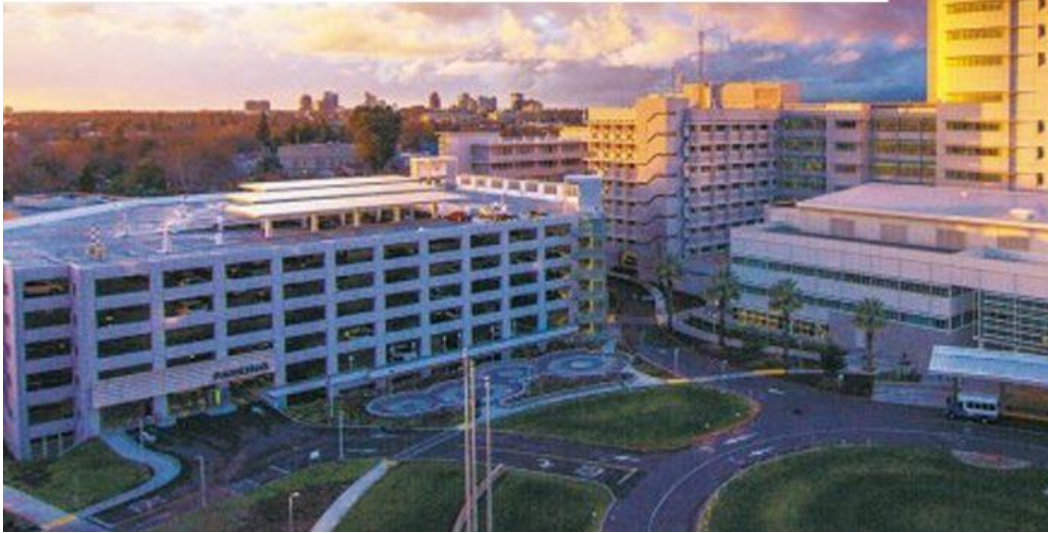

PD: Carrie.Torr@hsc.Utah.edu.

- 90 minutes to mountains or the beach
- Good food and mild weather!
- Friendly fellows and faculty!
- Supportive diverse clinical environment with exceptional scholarly opportunities!

UNIVERSITY OF MINNESOTA NEONATAL-PERINATAL MEDICINE FELLOWSHIP

Compassionate Care. Advanced Training. Meaningful Impact.

At the University of Minnesota, we develop skilled, compassionate neonatologists who are leaders in clinical care, research, education, and advocacy for the most vulnerable patients and their families.

CLINICAL EXPERIENCE

- Level IV NICU at M Health Fairview Masonic Children’s Hospital & Level III+ NICU at Children’s MN Hospital St Paul
- High-acuity, diverse patient population
- Surgical, ECMO, cardiac, and complex care expertise
- Transport medicine experience

RESEARCH & ACADEMIC GROWTH

- Strong research infrastructure and mentorship
- Opportunities in clinical, translational, laboratory, medical education, global health research
- Funding for research, presentations, and career development

FELLOWSHIP EXPERIENCE

- Collaborative environment with a supportive, and inclusive culture
- Graduated autonomy with excellent faculty mentorship
- Attention on wellbeing and work-life integration
- Located in the vibrant, welcoming Twin Cities

PROGRAM HIGHLIGHTS

Level IV NICU care

ECMO center

Robust fetal and transport care

Individualized mentorship and career development

Board pass success and strong alumni network

Commitment to education, innovation and advocacy

Department of Pediatrics
UNIVERSITY OF MINNESOTA

Be kind. Pursue excellence. Make a difference.

Neonatal-Perinatal Medicine Fellowship

- Premier university, medical school and medical center
- Weekly academic half day
- Team Training and retreats
- State of the art NICU built in 2018
- Scholarly Tracks and Pathways
- Renowned clinical and basic science research faculty
- Advanced degrees (PhD, MHS, M Ed)
- Breadth of clinical experience caring for the most fragile infants
- Opportunities for educator/simulation training
- Robust cardiac, surgical, and ECMO programs
- Central location between New York and Boston
- New Haven is an eclectic city with diverse opportunities
- Site for Regional Neonatal Fellow Boot Camp

University Of New Mexico Hospital

The only Level IV NICU in New Mexico

- State-of-the-art 52-bed regional referral center; features robust high-risk deliveries with ECMO and infant dialysis support capabilities.

Broad Clinical Exposure

- Vast experience ranging from extremely preterm infants (down to 22 weeks gestation) to complex surgical, cardiac, and rare genetic cases.

Robust Transport System

- Statewide / regional neonatal transport; fellows participate in transport team

Comprehensive Weekly Didactics

- 100% first-time board pass rate, annual participation in Rocky Mountain Bootcamp, monthly sim practice

Longitudinal Care

- The Special Baby Clinic provides vital interdisciplinary developmental follow-up for NICU graduates through age two.

Premier Research Ecosystem

- Active site for the NICHD Neonatal Research Network, IDeA States Pediatric Clinical Trials Network, HEALthy Brain and Child Development Study, and Vermont Oxford Network with participation in multidisciplinary trials

Protected Research Time

- Approximately 24 months fully dedicated to research, guided by mentorship and a Scholarly Oversight Committee.

Career Development

- Robust mentorship, New POCUS and ECMO education, graduated autonomy, procedural excellence

Supportive Culture

- Strong GME resources combined with an emphasis on fellow wellness and building exceptional academic neonatologists

Southwestern Lifestyle

- 300+ days of sunshine, unlimited outdoor activities, big city conveniences with small town feel, universal free childcare, rich history, excellent food

Neonatal-Perinatal Medicine Fellowship Program

St. Christopher's Hospital for Children /Tower Health

Philadelphia, Pennsylvania

PROGRAM OVERVIEW

- Academically rigorous fellowship based in Philadelphia
- Training at a Level IV referral NICU and Level III birthing hospital
- Diverse urban and suburban patient population
- 3 fellows recruited per year

EDUCATIONAL CURRICULUM

- Structured clinical and academic training
- Weekly 4-hour academic half-days
- ECMO, POCUS, and simulation training
- Drexel Clinical Instructor

RESEARCH OPPORTUNITIES

- Strong mentorship and academic support
- Basic science
- Clinical research
- Education research
- Quality improvement projects

2 training sites: Inborn L3 + Referral L4

Innovative, interactive,
multidisciplinary core curriculum

Diverse scholarship/research opportunities

Comprehensive, individualized mentorship

Austin, TX – family-friendly, live music capitol,
sunshine, and outdoor activities

Structure

1st year: 1-month Bootcamp, six 4-week NICU service blocks, dedicated Board Exam prep, and 6 blocks of research

2nd year: 4 NICU service blocks, cardiac intensive care block, maternal-fetal medicine block, electives, and research

3rd year: Three 2-week “Co-attending” blocks where fellows lead without attendings present, maximal time for electives & research

Program Director: Ashley.lucke@austin.utexas.edu

Associate Program Director:

christiana.ojimmuo@austin.utexas.edu

Program Coordinator: saleha.parvaiz@ascension.org

Training Sites

Ascension Seton Medical Center Austin

- 84-bed, inborn Level III NICU: delivery room/Golden Hour care, extreme preterm infants, therapeutic hypothermia & developmental care
- 2 parallel teams: NNP & Resident
- 6000 deliveries/800 admission per year

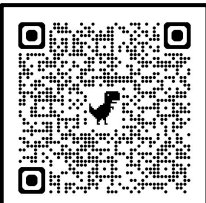

Dell Children’s Medical Center of Central Texas

- 56-bed, Level IV NICU
- Fetal Center w/ Intervention, Special Delivery Unit
- 400 cardiac and 150 general surgeries per year
- Full pediatric subspecialty presence
- Transport experience (ground, helicopter, jet)

Program Strengths

- Fellow-centered, responsive leadership
- POCUS
- Advocacy
- Global Health
- Subspecialty teams: CDH, NeuroNICU, BPD, Tiny/Small Baby
- Quality Improvement
- Health Economics and Administration
- SickBay and Vital Signs Processing
- Biomedical Engineering/Technology

- NICU Follow Up Clinic
- DCMC Simulation Center

University of Miami/Jackson Health System Neonatal-Perinatal Fellowship Program

Graduate Medical Education

ACGME Program ID: 3291121017

- Clinical training in one of the largest NICUs (127 beds) and longest established programs (since 1970s) in the U.S.
- Strong collaboration with MFM and OB service with a high-volume delivery service
- Care for a diverse and multicultural patient population with complex neonatal problems
- Clinical rotations in Level IV and Level II NICU, normal newborn nursery, CICU, MFM and antenatal consultations
- Exposure to ECMO, point-of-care ultrasonography, simulation and palliative care
- Participation in local and regional transport of critically ill patients
- Individual career development based on a balanced training in research, patient care and leadership
- Cutting-edge research in BPD, Control of Breathing, Pulmonary Hypertension, Stem Cells, Genomics and Nutrition
- Focused on well-being and healthy work-life integration
- Board pass rate of 95 to 100% over the past years
- Strong alumni network, where program graduates are clinical and academic leaders in neonatology

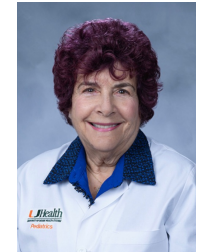

... not to mention the advantages of living in Miami: diverse culture, warm weather, water, beaches and vibrant lifestyle!

Neonatal-Perinatal Medicine Fellowship Program

Thomas Jefferson University | Nemours Children's Health | Christiana Care

Three Training Sites

- Thomas Jefferson University Hospital (Philadelphia, PA) – Level III+ NICU, home of Sidney Kimmel Medical College
- Nemours Children's Health, Delaware – only Level IV NICU in Delaware & ECMO center
- Christiana Care Health System (Newark, DE) – Level III+ NICU with 6,000+ annual deliveries

Signature Strengths

- Comprehensive neonatal ECMO training and transport
- Advanced Delivery Program for complex fetal diagnoses
- Ground and helicopter neonatal transport experience
- Formal Point of Care Ultrasound curriculum

Research & Education

- Clinical, translational, basic science, and QI research
- Dedicated mentors and protected research time
- Master's degree and leadership programs available
- \$2,000 annual educational allowance

Program Director: Zubair H. Aghai, MD (zubair.aghai@nemours.org)

Beacon Award winner

1974

Training neonatologists since

The program

The only academic NICU in Oregon and one of just two NPM fellowships in the Pacific Northwest. Quaternary referral center for OR, SW WA, ID, MT, AK and beyond.

Distinctive clinical features

- Fetal surgery program — 1 of 5 nationally with maternal-fetal surgery and NICU under one roof
- Active POCUS training program for fellows
- Dedicated PANDA neonatal transport team
- Telemedicine network across 10 partner hospitals
- Joint sim boot camp with UW, Hawaii & BC Women's Hospital
- Night Float system; fellows do not take 24hr call

Curriculum (front-loaded)

Y1 ~50% clinical · choose mentor & project

Y2 ~25% clinical · scholarship deepens

Y3 ~25% clinical · dissemination & career launch

Our fellows

Scholarship support

- Pratt Foundation Fellowship — up to \$25K research funding
- Human Investigations Program (free certificate program with possibility of master's)
- Department trainee conference travel grants

Where graduates go

~75% of recent graduates take academic positions, with placements at U Washington/Seattle Children's, OHSU, Michigan, UC Fresno and Utah.

Why Portland

A small, walkable city wrapped by forest, rivers and mountains — and one of the most temperate climates in the country.

<5 min hiking

1 hr Mt. Hood skiing

1.5 hr Pacific coast

30 min wine country

Food & coffee scene

12 bridges, 2 major rivers

Wellness is built in

Free, confidential counseling through OHSU's Resident & Faculty Wellness Program. Family focused program with paid parental leave.

Neonatal-Perinatal Medicine Fellowship Program

ADVANTAGES OF OUR PROGRAM

- Large fellowship - 4 fellows per year
- Only Free Standing Childrens Hospital with all subspecialties and surgical support, serving Long Island and Queens
- Level 4 and Level 3 NICU experience for the Fellows, both with Delivery Service
- Neonatal Air and Ground Transport
- Focus on Trainee Well-Being
- Competitive Salary, Health Benefits and 401K matching
- Fellows Feedback Drives Change
- Serving the Most Diverse Multicultural Population of New York

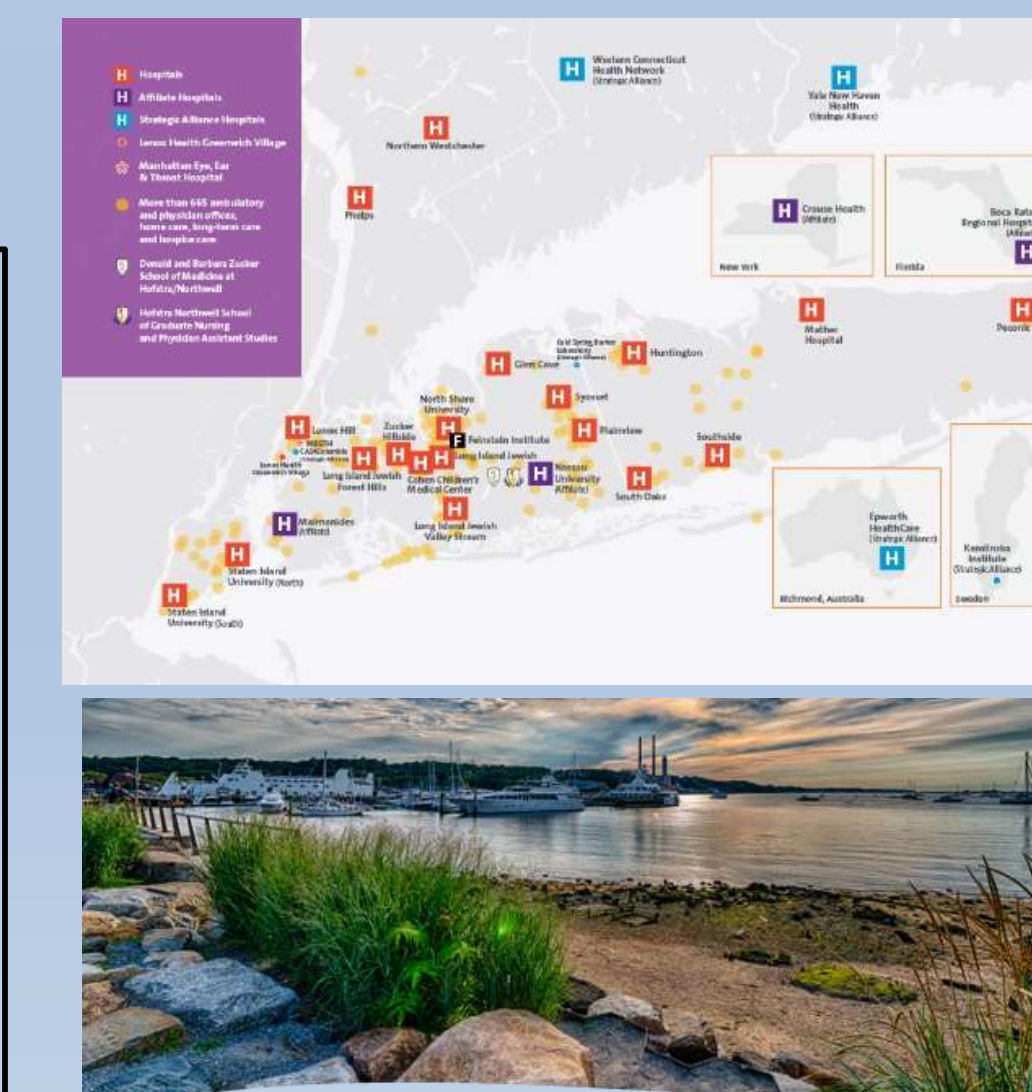

EDUCATON

- Educational Half days with mix of Didactics, Neonatal Simulations, Journal Club, Current events, M&M, Lunch & Learn, Case Conferences
- Combined MFM/Surgery/Radiology/Neo Conference
- **Structured POCUS Curriculum**
- Neonatal Grand Rounds
- Neonatal Ethics Curriculum
- Weekly Neonatal Board Review with Assessment
- Bedside Neonatal Simulation
- On-site Procedural Bootcamp

LIFE ON LONG ISLAND

- Border of NYC and Long Island , **BEST OF BOTH WORLDS!**
- Easy Access to Manhattan
- Parks, Beaches, Boating and Hiking
- All 4 Seasons
- Food, Wineries, Shopping
- Excellent School Districts – Majority in Top 10 in NY
- **CAN LIVE ANYWHERE!**

CLINICAL PROGRAMS

- Neonatal transport with high frequency ventilation and nitric oxide: air & ground
- Lung rescue/ECMO
- Less Invasive Surfactant Administration (LISA)
- POCUS
- Carpe Diem Neonatal Hemodialysis
- Advanced fetal care that includes extrauterine intrapartum therapy [ExIT procedures] and Conjoined Twins Management
- Pediatric General Surgery, CT and Neurosurgery
- Percutaneous PDA Closure
- Chronic Pulmonary Hypertension Team
- Cleft palate team
- Whole body hypothermia therapy
- Dedicated NICU Milk Room
- Intestinal Rehabilitation Team
- NICU GRAD clinic

RESEARCH OPPORTUNITIES

- Bench Research at Feinstein Institute for Medical Research on Campus
- Translational and Clinical Research
- POCUS Research
- Medical Education and Simulation Research
- Neuro-Developmental Outcomes Research

STANFORD NEONATAL-PERINATAL MEDICINE FELLOWSHIP PROGRAM

We believe that aspiring neonatologists should value creativity, scholarship, clinical acumen, disruption of barriers, discovery of novel interventions, and service to the well-being of humanity.

Why Tampa?

Year-round sunshine and outdoor living
Gulf beaches, waterfront dining, and a thriving food scene
Diverse, welcoming city with deep Latin & Caribbean roots

Vanderbilt Health Neonatal-Perinatal Medicine Fellowship Program

Our NICU

- **132 Bed Level IV NICU** with 8 specialized care teams spread across 5 units
 - Cardiac, Resident Teaching, Chronic Lung & Airway, Neurology, Extreme Prematurity, Delivery & Stabilization, NICU Transport
- >350 Registered Nurses
- 1500 NICU admissions (1000 inborn) per year
- Partnership with **Center for Advanced Maternal Fetal Care**
- High exposure to surgical diseases, congenital cardiac diseases, and all ranges of prematurity
- **Program Research Strengths:**
 - pulmonary biology, pulmonary hypertension, patent ductus arteriosus, bioinformatics, ethics, population health, QI

Our City & Hospital

- **Nashville**
 - Music, arts, and theater - live music and shows happen every single day
 - Easy access to lakes, city and state parks, hiking trails, and other outdoor activities.
 - Culturally diverse urban area
 - Large and expanding international airport for easy travel access
 - Professional and college sports teams of all varieties
- **Vanderbilt Health & Monroe Carell**
 - Home of the very first Neonatal Intensive Care Unit!
 - Ranked #1 Children's Hospital in Tennessee, joint #1 Children's Hospital in the Southeast, and #20 in National Children's Hospitals by US News and World Report.

Your Education

- **5 Fellows per year**
- **15 month Clinical Training**
 - 1 month of orientation
 - 12 1-month high-acuity rotations, divided over 3 years (5-4-3 split)
 - 11 weeks of delivery service
 - 1 week transport
 - 2 weeks Neo Development Clinic
